The cultural & heritage guide for Australia ,2025-09-25 Australia And The British Embrace Stuart Ward,2016-10-18

Until a generation ago Britishness lay at the heart of Australian political culture How and why did this fundamental idea lose its meaning for Australians and their political institutions The popular view is that the British ideal succumbed to a triumphant long thwarted Australian nationalism The reality is much more complex Having weighed the documentary evidence Stuart Ward vigorously argues that it was not Australia but the Mother Country that set the pace The critical move was the Macmillan Government's decision in the early 1960s to seek membership of the European Economic Community Thereafter the ties of imperial sentiment and the dictates of national self interest were essentially irreconcilable Australia's attachment to being British was profoundly shaken and the contours of Australian nationhood were irreversibly redrawn *Australia and the British Embrace* is an engrossing account of the unravelling of Britishness in Australian political life The consequences of that unravelling continue to dominate Australian politics from multiculturalism to Aboriginal reconciliation engagement with Asia and above all the prospect of a republic *'In Considerable Variety': Introducing the Diversity of Australia's Insects* Tim R. New,2011-08-29 The book introduces basic entomology emphasising perspectives on insect diversity important in conservation assessment and setting priorities for management as a foundation for managers and others without entomological training or background It bridges the gap between photographic essays on insect identification and more technical texts to illustrate and discuss many aspects of taxonomic ecological and evolutionary diversity in the Australian insect fauna and its impacts in human life through outlines of many aspects of insect natural history

Australia's Relations with China David Fitzsimmons,2022-09-08 Drawing on a wealth of interviews with more than fifty key stakeholders from Australia and China including five former Australian Prime Ministers Fitzsimmons presents a history and analysis of Australian Chinese relations since 1972 Fitzsimmons systematically examines how Canberra formulates and implements Australia's China policy and how PMs and key influencers have made that policy over the last fifty years Next it analyses the style manner and effectiveness of Australian Prime Ministers and other key foreign policy makers in making Australian policy on China Next it charts how Australian policy on China has changed over different political periods It also highlights Australian policy to China as a global case study for other countries who are closely examining and learning lessons from how one Asia Pacific middle power has dealt with the Chinese colossus An essential guide for students of Australia's international relations as well as for scholars of international relations more broadly Australia and France's Mutual Empowerment Paul Soyez,2019-03-25 How did France and Australia develop a deep strategic partnership when only about two decades ago a group of Australians bombed the French consulate in Perth to protest against French nuclear testing in the Pacific Which interests which personalities which elements of the global context have led France and Australia to engage in a regional and global rapprochement and what have been the human economic and political prerequisites which

enabled it This book aims to investigate the dynamics behind this historically ambiguous relationship More precisely this study explains why and how France and Australia are currently engaged in a process of strategic and economic mutual empowerment and how this rapprochement has been possible owing to thirty years of diplomatic efforts to overcome ongoing culturally and historically constructed misunderstandings and conflicts This book demonstrates how French and Australian foreign policy makers have understood that in regard to their numerous common interests both countries had to mutually empower each other in order to strengthen their own power regionally and globally This book argues that these inclusive dynamics of empowerment constitute the response of two diverse middle powers to current global threats and represent a tool suitable for modernising the strategies and practices of both countries diplomacies Soyez research is the first to propose an answer to these questions through the development of the French Australian strategic partnership *Australia Fair* Hugh Stretton,2005 Drawing on a lifetime of research and experience Hugh Stretton makes a case for doing whatever it takes to keep Australia fair Rejecting easy platitudes and vague assertions one of Australia s leading thinkers sets out an ambitious yet fully costed plan that encompasses every aspect of Australian life Australia Fair is a manifesto that makes us realise that fairness is no longer necessarily our defining characteristic Stretton challenges prevailing opinion and shows we can get back on track BOOK JACKET *Australia's Music: Themes of a New Society (2nd ed.)* Roger Covell,2016-12-01

Described on its first publication in 1967 as a scholarly account of Australian music that is also entertaining social history Roger Covell s Austrlaia s Music Themes of a New Society has become a classic of Australian music history for its beautifully written explorations of almost two hundred years of music making across classical Indigenous and Anglo Celtic traditions This revised edition including more than sixty musical examples is supplemented by a new postscript written by the author

Tales Robert Cettl,2010-12-12 **Locating Chinese Women** Kate Bagnall,Julia T. Martínez,2021-03-23 This ground breaking edited collection draws together Australian historical scholarship on Chinese women their gendered migrations and their mobile lives between China and Australia It considers different aspects of women s lives both as individuals and as the

wives and daughters of immigrant men While the number of Chinese women in Australia before 1950 was relatively small their presence was significant and often subject to public scrutiny Moving beyond traditional representations of women as hidden and silent this book demonstrates that Chinese Australian women in the twentieth century expressed themselves in the public eye whether through writings in photographs or in political and cultural life Their remarkable stories are often inspiring and sometimes tragic and serve to demonstrate the complexities of navigating female lives in the face of racial politics and imposed categories of gender culture and class Historians of transnational Chinese migration have come to recognize Australia as a crucial site within the Cantonese Pacific and this collection provides a new layer of gendered comparison connecting women s experiences in Australia with those in Canada the United States and New Zealand Locating Chinese Women is a path breaking book By exploring the experiences of Chinese Australian women during the nineteenth and early twentieth centuries the authors have opened new and compelling avenues of inquiry about the history of Chinese Australian women In this landmark work they have brilliantly recast the history of Chinese Australia Joy Damousi Australian Catholic University Locating Chinese Women breaks new ground in Australian and transnational Chinese women s history by making the lives of remarkable Chinese Australian women visible Photographs testimonies Chinese language newspapers and digitized archives help document the women s agency and activities as they navigate public lives between and within Australia and China during the nineteenth and early twentieth centuries Shirley Hune University of California Los Angeles and University of Washington

Aboriginal Art and Australian Society Laura Fisher, 2016-05-30 This book is an investigation of the way the

Aboriginal art phenomenon has been entangled with Australian society's negotiation of Indigenous people's status within the nation. Through critical reflection on Aboriginal art's idiosyncrasies as a fine arts movement, its vexed relationship with money and its mediation of the politics of identity and recognition, this study illuminates the mutability of Aboriginal art's meanings in different settings. It reveals that this mutability is a consequence of the fact that a range of governmental, activist, and civil society projects have appropriated the art's vitality and metonymic power in national public culture and that Aboriginal art is as much a phenomenon of visual and commercial culture as it is an art movement. Throughout these examinations, Fisher traces the utopian and dystopian currents of thought that have crystallised around the Aboriginal art movement and which manifest the ethical conundrums that underpin the settler state condition.

The Rise of the Must-See Exhibition Anna Lawrenson, Chiara O'Reilly, 2018-12-07

Blockbuster exhibitions are ubiquitous fixtures in the cultural calendars of major museums and galleries worldwide. *The Rise of the Must See Exhibition* charts their ascent across a diverse array of museums and galleries. The book positions these exhibits in the Australian cultural context, demonstrating how policy developments and historical precedents have created a space for their current domination. Drawing on historical evidence, policy documents, and contemporary debates, the book offers a complex analysis of the aims and motivations of blockbuster exhibitions. Its chronological approach reveals a genealogy of exhibits from the mid nineteenth century onward to identify precursors to current practice. This provides a foundation upon which to examine the unprecedented growth of blockbusters in the latter half of the twentieth century. The examples discussed offer a unique opportunity to study how institutional growth, political support, individual champions, and audience interest have influenced the development of large scale temporary exhibitions. *The Rise of the Must See Exhibition* considers blockbusters as an international phenomenon and as such is highly relevant to practitioners working across the cultural sector around the world. The book will also appeal to academics and students engaged in the study of museums and galleries, arts management and curating, as well as those interested in the history of exhibitions and cultural policy.

Cultural Encounters in Translated Children's Literature Helen Frank, 2014-04-08

Cultural Encounters in Translated Children's Literature offers a detailed and innovative model of analysis for examining the complexities of translating children's literature and sheds light on the interpretive choices at work in moving texts from one culture to another. The core of the study addresses the issue of how images of a nation, locale, or country are constructed in translated children's literature with the translation of Australian children's fiction into French serving as a case study. Issues examined include the selection of books for translation, the relationship between children's books and the national and international publishing industry, the packaging of translations, and the importance of titles, blurbs, and covers. The linguistic and stylistic features specific to translating for children, intertextual references, the function of the translation in the target culture, didactic and pedagogical aims, euphemistic language, and explicitation and literariness in translated texts. The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of

traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature

From the Ruins of Colonialism Chris Healy,1997-03-27 This book throws fresh light on the history of memory forgetting and colonialism It considers key moments of historical imagination and analyses the strange ensemble of elements that constitute Australian History It is an innovative and stimulating investigation of historical cultures and narratives

Marketing and Globalization Aurélia Durand,2018-07-17 This concise text focuses squarely on the issues facing marketers in an increasingly global world It identifies several trends linking them together and positioning them as marketing practices that companies implement as a way of responding to the major consequences of globalization The book also includes case studies to illustrate new practices and allow students to discuss issues of market selection entry modes segmentation targeting and positioning as well as product price distribution promotion and corporate communication policies in a globalized world Durand s unique approach moves beyond marketing management and strategy issues and provides students with the broader context to understand the marketing practices they ll use in the real world This book will prove to be an essential resource for any student of marketing and international business working to stay ahead in an increasingly competitive and global industry

Defense Relations between Australia and Indonesia in the Post-Cold War Era Bilveer Singh,2002-09-30 Recent years have seen dramatic shifts in the nature of Australian Indonesian relations and this in turn has had a great impact on the strategic partnership that had gradually come into existence between the two regional powers Against the backdrop of rapid strategic political economic social and technological changes occurring on a global scale Australian foreign policy efforts at cooperation with its largest and nearest Asian neighbor have changed as well largely as a result of domestic political considerations Reaching a high point under Prime Minister Keating defense relations soured considerably and suddenly after 1999 Singh provides a non partisan account of the shift from partnership to cold peace and an examination of how it has affected the bilateral regional and global security environment The Indonesian public and political elite have become hostile toward Australia as a result of her perceived role in the birth of an independent East Timor Indonesians are also increasingly suspicious of Australian intentions toward their own country with many believing that Canberra would like to repeat its East Timor success in Papua thereby leading to the disintegration of Indonesia itself John Howard s pro Western policies are also viewed as a return to Australian projection of itself as a Western outpost on the fringes of Asia As the strategic cooperation between the two nations has faltered it has had

tremendous implications for the defense and security outlook of both powers The world cannot afford to ignore this possible threat to regional stability
