Preservationists Progress Architectural Adventures In Conserving Yesterdays Houses:

The Preservationist's Progress Hugh Howard, 1991 Discusses the history of cultural conservation and gives an account of the people at the forefront of the architectural preservation movement *Heritage Conservation in the United States* John H. Sprinkle, Jr., 2023-05-25 *Heritage Conservation in the United States* begins to trace the growth of the American historic preservation movement over the last 50 years viewed from the context of the civil rights and environmental movements The first generation of the New Preservation 1966 1991 was characterized by the establishment of the bureaucratic structures that continue to shape the practice of heritage conservation in the United States The National Register of Historic Places began with less than a thousand historic properties and grew to over 50 000 listings Official recognition programs expanded causing sites that would never have been considered as either significant or physically representative in 1966 now being regularly considered as part of a historic preservation planning process The book uses the story of how sites associated with African American history came to be officially recognized and valued and how that process challenged the conventions and criteria that governed American preservation practice This book is designed for the historic preservation community and students engaged in the study of historic preservation Governors' Mansions of the Midwest Ann Liberman, 2003 *Governors Mansions of the Midwest* explores the history of 12 prominent mansions in the Midwest Liberman focuses on architectural history from the houses construction to various alterations made by later occupants to renovations of recent years The American Porch Michael Dolan, 2024-02-13 The former American History editor explores the creation and restoration of an essential part of a twentieth century home s identity the American porch In this delightful look at an American icon journalist and documentary scriptwriter Dolan traces the history of the porch using this history to explore subjects such as architecture history slavery colonialism trade anthropology sociology consumer behavior and publishing Library Journal In 1981 Michael Dolan and his wife Eileen O Toole bought a 1926 suburban bungalow in the Palisades area of Washington DC It was a fixer upper and DIY project that consumed their lives for twelve years As rooms were transformed with updated electrical wiring and plumbing the house s porch became a storage area rotating appliances furniture and construction materials as they were used and discarded After the interior renovation was completed Michael finally turned his attention to the porch working with contractors to resurrect it a reconstruction that inspired him to uncover the history of porches and their significance as a symbolic piece of Americana In praise of the porch Come up and sit a spell USA Today A wry well researched look at the place and the people who rocked talked and courted on the American porch for three centuries Parade The porch is making a comeback gradually replacing its humbler rival the deck which the traditionalist Dolan refers to as the platform shoe or leisure suit of American architecture Time Dolan amply demonstrates that the porch is primarily a means of escaping the heat and almost as important a locus for casual social interaction Publishers Weekly **Vernacular Architecture Newsletter** , 1991 Essex on Lake Champlain David C. Hislop, 2009

Essex is located on the shoreline of Lake Champlain near the foothills of the Adirondack Mountains. The town was important for its role in lake commerce shipping goods down the Champlain Canal to the burgeoning markets of New York City and via the Erie Canal to Rochester, Buffalo and points west during America's golden age of expansion. The photographic record of Essex contains the mansions of the merchants and the houses of the workers who all lived together in this prototypical American community. The town contains a remarkable collection of Greek Revival buildings from 1820 to 1860, its period of national significance that are still intact. Today Essex exists with the majority of its historic structures standing and little fringe development and the edges of the hamlet continue to merge seamlessly into the agricultural countryside. *Historic Preservation News*, 1990

The New York Times Book Review, 1991-07 **Jim Kobak's Kirkus Reviews**, 1991

Historic Preservation, 1991 *Encyclopedia of American Architecture* Robert T. Packard, 1980 America Restored Carol M. Highsmith, Ted Landphair, 1994. Here are represented recognizable and grand spaces such as Ellis Island in New York Harbor and the Chicago Theater as well as small and intimate places such as the Dowse Sod House in Nebraska and Saint Philomena Church in Hawaii. And more than beautiful pictures are captured. Each site has a special story to tell. Grand schemes led to the creation of Cleveholm Castle in Colorado while an especially creative solution to a space problem helped to establish the Custer County Art Center in Montana. One woman's determined and sturdy dedication brought about the Frontier Nursing Service in Kentucky which continues to serve mountain women in need. These and many other stories provide a moving and informative text that captures the human drama surrounding the restoration of these landmarks, some for a new use and others so they might continue as before. **Early American Life**, 1991 The American Archivist, 1995.
