The New Era in U.S. National Security Jack A. Jarmon,2019-10-24 The purpose of The New Era in U S National Security Challenges of the Information Age is to make its readers aware of how the tensions between opposing forces from above and below influence world events and shape U S national security institutions The debt trap now being experienced by the developing world has unleashed global migration on a mass scale In a world where market forces are politically unaccountable crime will prosper and its linkage to organizing social structures is organic The nexus between corrupt politicians transnational business and cross border crime pulls tighter Meanwhile the structures of global governance are immature Differences of agreement over international norms and controls regarding the use of the Internet and the laws pertaining to the deployment of cyber weapons are illusive if not insurmountable The chasm between the rich and poor is widening and deepening Hostilities continue mount In this book Jack A Jarmon offers a survey of the altering landscape of warfare and competition Using recent events and documented experiences as examples it reveals truths about the threat from criminals terrorists hostile governments and internal vulnerabilities The nation s exposure invites attack with every hour Rather than an abstract threat these unseen and unreported assaults land blows to our information networks infrastructure quality of life and democratic system      **The Politics of the Presidency** Joseph A. Kuypers,2020-06-17 In *President Trump and the News Media* Moral Foundations Framing and the Nature of Press Bias in America political communication researcher Jim A Kuypers takes readers on a rhetorical framing tour de force this time incorporating elements of Moral Foundations Theory to investigate the ideological underpinnings of press reports Using a rhetorical version of framing analysis Kuypers analyzes four major speeches by President Trump and compares them with the reporting on those speeches by the mainstream news media The moral foundations of both Trump and the news media are examined to assess their respective moral ideological underpinnings The results turn framing theory on its head by demonstrating how frames do not give rise to moral assessments as previously thought but rather the presence of moral foundations provide moral substance to frames as they are developed and found throughout news coverage The results reveal how journalists inject bias consciously and unconsciously into hard news stories and that their moral foundations act to privilege liberal concerns and denigrate conservative concerns Kuypers conveys how news media framing acted to treat President Trump not as a source of news but as a political opponent while at the same time helping the political opposition of the President By evaluating journalistic practices through the lens of their own published ethical standards Kuypers argues

that contemporary journalistic practices are damaging the American Republic and makes the case for immediate incorporation of viewpoint diversity within news organizations Scholars of communications journalism and political science will find this book particularly interesting      **Review of the President's National Security Decision Directive 84 and the Proposed Department of Defense Directive on Polygraph Use** United States.
