The Bonus Army Paul Dickson, Thomas B. Allen, 2020-02-12 Based on extensive research this highly praised history recounts the 1932 march on Washington by 15 000 World War I veterans and the protest's role in the transformation of American society Recommended Library Journal

Marching on Washington Lucy G. Barber, 2023-09-01 When Jacob Coxey's army marched into Washington D C in 1894 observers didn't know what to make of this concerted effort by citizens to use the capital for national public protest By 1971 however when thousands marched to protest the war in Vietnam what had once been outside the political order had become an American political norm Lucy G Barber's lively erudite history explains just how this tactic achieved its transformation from unacceptable to legitimate Barber shows how such highly visible events contributed to the development of a broader and more inclusive view of citizenship and transformed the capital from the exclusive domain of politicians and officials into a national stage for Americans to participate directly in national politics When Jacob Coxey's army marched into Washington D C in 1894 observers didn't know what to make of this concerted effort by citizens to use the capital for national public protest By 1971 however when thousands marched to protest the war in Vietnam

Urban Farming in the West Robert M. Carriker, 2010-04-15 From 1933 to 1935 the federal government's Division of Subsistence Homesteads created thirty four New Deal communities that sought to provide a healthier and more economically secure life for disadvantaged Americans These settlements were designed to combine the benefits of rural and urban living by offering part time farming uplifting social functions and inexpensive homes Four were located in the West in Phoenix Arizona El Monte and San Fernando California and Longview Washington Robert Carriker examines for the first time the intricate histories of

these subsistence homestead projects which have long been buried in bureaucratic records and clouded by misunderstanding showing that in many ways they were among the agency's most successful efforts. He provides case studies of the projects rescuing their obscure histories using archival documents and rare photographs. He also reveals the machinations of civic groups and private citizens across the West who jockeyed for access to the funds being allotted for New Deal community building. By describing what took place on these western homesteads, Carriker shows that the DSH's agenda was not as far fetched as some have reported. The tendency to condemn the Division and its projects, he argues, has failed to appreciate the good that came from some of the individual homestead communities, particularly those in the Far West. Although overshadowed by the larger undertakings of the New Deal, some of these western communities remain thriving neighborhoods living legacies to FDR's efforts that show how the country once chose to deal with economic hardship. Too often the DSH is noted for its failures. Carriker's study shows that its western homesteads were instead qualified accomplishments.

Forgotten Veterans, Invisible Memorials Allison S. Finkelstein, 2021-08-10 Investigates the groundbreaking role American women played in commemorating those who served and sacrificed in World War I. In Forgotten Veterans, Invisible Memorials: How American Women Commemorated the Great War 1917-1945 Allison S. Finkelstein argues that American women activists considered their own community service and veteran advocacy to be forms of commemoration just as significant and effective as other more traditional forms of commemoration such as memorials. Finkelstein employs the term veteranism to describe these women's overarching philosophy that supporting, aiding, and caring for those who served needed to be a chief concern of American citizens, civic groups, and the government in the war's aftermath. However, these women did not express their views solely through their support for veterans of a military service narrowly defined as a group predominantly composed of men, and just a few women. Rather, they defined anyone who served or sacrificed during the war, including women like themselves, as veterans. These women veteranists believed that memorialization projects that centered on the people who served and sacrificed was the most appropriate type of postwar commemoration. They passionately advocated for memorials that could help living veterans and the families of deceased service members at a time when postwar monument construction surged at home and abroad. Finkelstein argues that by rejecting or adapting traditional monuments or by embracing aspects of the living memorial building movement, female veteranists placed the plight of all veterans at the center of their commemoration efforts. Their projects included diverse acts of service and advocacy on behalf of people they considered veterans and their families as they pushed to infuse American memorial traditions with their philosophy. In doing so, these women pioneered a relatively new form of commemoration that impacted American practices of remembrance, encouraging Americans to rethink their approach and providing new definitions of what constitutes a memorial. In the process, they shifted the course of American practices, even though their memorialization methods did not achieve the widespread acceptance they had hoped it would. Meticulously researched

Forgotten Veterans Invisible Memorials utilizes little studied sources and reinterprets more familiar ones In addition to the words and records of the women themselves Finkelstein analyzes cultural landscapes and ephemeral projects to reconstruct the evidence of their influence Readers will come away with a better understanding of how American women supported the military from outside its ranks before they could fully serve from within principally through action based methods of commemoration that remain all the more relevant today The role of federal military forces in domestic disorders, 1877-1945 Clayton D. Laurie, 1997-07-15 CMH 30 15 Army Historical Series 2nd of three planned volumes on the history of Army domestic support operations This volume encompasses the period of the rise of industrial America with attendant social dislocation and strife Major themes are the evolution of the Army's role in domestic support operations its strict adherence to law and the disciplined manner in which it conducted these difficult and often unpopular operations *Negative Intelligence* Roy Talbert Jr., 2010-12-01 During World War I in the period of the Red Scare and throughout the Great Depression the army's domestic spy agency mounted an extensive surveillance campaign focused on civilians and groups deemed subversive Negative Intelligence traces the fascinating and astonishing story of military espionage on the home front Created by Major General Ralph H Van Deman in 1917 the Negative Branch of Military or MI spied on American reformers in a program of civilian surveillance that surpassed even that of the Department of Justice's Bureau of Investigation Among the targets were the Industrial Workers of the World the American Civil Liberties Union and Negro Subversion Documentation of MI's program of domestic espionage is from recently opened Military Intelligence archives Closely allied with private vigilante groups the Army conducted illegal raids made illegal arrests subjected many citizens to interrogation and developed an elaborate filing system for its dossiers After World War I the hysteria continued with MI's direct focus beamed upon a new enemy the Bolsheviks Although MI's abuses have been overshadowed by those of the Department of Justice army espionage was in many ways more aggressive than its civilian counterpart Negative Intelligence documents these abuses and shows how until 1921 the attempts to restrain MI's work failed After this time with limited staff and funding MI could do no more than maintain close liaison with private super patriotic groups However the coming of the Great Depression fired up the rebirth of the army's civilian espionage programs Then as World War II approached internal security once again became a national policy and J Edgar Hoover of the Federal Bureau of Investigation moved his powerful network into the supreme position of domestic spying Encyclopedia of the Veteran in America William A. Doughboys, the Great War, and the Remaking of America Jennifer D. Keene, 2001 How does a democratic government conscript citizens turn them into soldiers who can fight effectively against a highly trained enemy and then somehow reward these troops for their service In *Doughboys the Great War and the Remaking of America* Jennifer D Keene argues that the doughboy experience in 1917 18 forged the U S Army of the twentieth century and ultimately led to the most sweeping piece of social welfare legislation in the nation s history the G I Bill Keene shows how citizen soldiers established standards of discipline that the army in a sense had to adopt Even after these troops had returned to civilian life lessons learned by the army during its first experience with a mass conscripted force continued to influence the military as an institution The experience of going into uniform and fighting abroad politicized citizen soldiers Keene finally argues in ways she asks us to ponder She finds that the country and the conscripts in their view entered into a certain social compact one that assured veterans that the federal government owed conscripted soldiers of the twentieth century debts far in excess of the pensions the Grand Army of the Republic had claimed in the late nineteenth century Failing Our Veterans Mark Boulton, 2014 Returning Vietnam veterans had every reason to expect that the government would take care of their readjustment needs in the same way it had done for veterans of both World War II and Korea But the Vietnam generation soon discovered that their G I Bills fell well short of what many of them believed they had earned Mark Boulton s groundbreaking study provides the first analysis of the legislative debates surrounding the education benefits offered under the Vietnam era G I Bills Specifically the book explores why legislators from both ends of the political spectrum failed to provide Vietnam veterans the same generous compensation offered to veterans of previous wars *Failing Our Veterans* should be essential reading to scholars of the Vietnam War political history or of social policy Contemporary lawmakers should heed its historical lessons on how we ought to treat our returning veterans Indeed veterans wishing to fully understand their own homecoming experience will find great interest in the book s conclusions *The Role of Federal Military Forces in Domestic Disorders, 1877-1945* Clayton David Laurie, Ronald H. Cole, 1997 Published in 1904 this forgotten classic is sci fi and dystopia at its best written by the creator and master of the genre Following extensive research in the field of growth Mr Bensington and Professor Redwood light upon a new mysterious element a food that causes greatly accelerated development Initially christening their discovery The Food of the Gods the two scientists are overwhelmed by the possible ramifications of their creation Needing room for experiments Mr Besington chooses a farm that offers him the chance to test on chickens which

duly grow monstrous six or seven times their usual size With the farmer Mr Skinner failing to contain the spread of the Food chaos soon reigns as reports come in of local encounters with monstrous wasps earwigs and rats The chickens escape leaving carnage in their wake The Skinners and Redwoods have both been feeding their children the compound illicitly their eventual offspring will constitute a new age of giants Public opinion rapidly turns against the scientists and society rebels against the world s new flora and fauna Daily life has changed shockingly and now politicians are involved trying to stamp out the Food of the Gods and the giant race Comic and at times surprisingly touching and tragic Wells story is a cautionary tale warning against the rampant advances of science but also of the dangers of greed political infighting and shameless vote seeking
