

FOR A NEW DEAL

Presidential Power From The New Deal To The New Right

Joseph E. Lowndes

Presidential Power From The New Deal To The New Right:

Presidential Power from the New Deal to the New Right Herbert S. Parmet, 2002 Here The growth of presidential power especially the office of the presidency is traced from the New Deal through the term of Bill Clinton The work not only incorporates the perspective of history and the institution of the presidency itself but also considers views from the White House

From the New Deal to the New Right Joseph E. Lowndes, 2008-10-01 The role the South has played in contemporary conservatism is perhaps the most consequential political phenomenon of the second half of the twentieth century The regions transition from Democratic stronghold to Republican base has frequently been viewed as a recent occurrence one that largely stems from a 1960s era backlash against left leaning social movements But as Joseph Lowndes argues in this book this rightward shift was not necessarily a natural response by alienated whites but rather the result of the long term development of an alliance between Southern segregationists and Northern conservatives two groups who initially shared little beyond opposition to specific New Deal imperatives Lowndes focuses his narrative on the formative period between the end of the Second World War and the Nixon years By looking at the 1948 Dixiecrat Revolt the presidential campaigns of George Wallace and popular representations of the region he shows the many ways in which the South changed during these decades Lowndes traces how a new alliance began to emerge by further examining the pages of the National Review and Republican party building efforts in the South during the campaigns of Eisenhower Goldwater and Nixon The unique characteristics of American conservatism were forged in the crucible of race relations in the South he argues and his analysis of party building efforts national institutions and the innovations of particular political actors provides a keen look into the ideology of modern conservatism and the Republican Party

The Reagan Revolution and the Rise of the New Right Kenneth J. Heineman, 2021-06-24 For students of U S history The Reagan Revolution explores how a Hollywood upstart and eventual conservative leader became one of the most successful and influential presidents in U S history one whose presidency helped to define the end of the Cold War This book covers Ronald Reagan s long rise to the presidency and the conservative political revolution he brought about in the 1980s Spurning the moderate values and policies Republicans had previously championed Reagan s revolution continues to play an outsized role in America s political life This important reference book gives browsers and readers alike an opportunity to focus on many of the intertwined issues of the 1980s abortion gay rights law and order the Cold War tax cuts de industrialization the Religious Right and the political divisions that made Reagan s legislative victories possible The book opens with a concise biography covering Reagan s rise from radio personality and actor to governor and president Subsequent chapters cover politics and policy Chapters also include an important review of Reagan s legendary public relations operations morning in America and the perfection of the television photo op and the ways in which 1980s popular culture influenced and was influenced by his presidency This section portrays Reagan as a product of Hollywood who keenly understood the importance of public opinion and creating a positive image

The American President William E. Leuchtenburg, 2015-11-19 The American President is an enthralling account of American presidential actions from the assassination of William McKinley in 1901 to Bill Clinton's last night in office in January 2001. William Leuchtenburg, one of the great presidential historians of the century, portrays each of the presidents in a chronicle sparkling with anecdote and wit. Leuchtenburg offers a nuanced assessment of their conduct in office, preoccupations, and temperament. His book presents countless moments of high drama: FDR hurling defiance at the economic royalists who exploited the poor; ratcheting tension for JFK as Soviet vessels approach an American naval blockade; a grievously wounded Reagan joking with nurses while fighting for his life. This book charts the enormous growth of presidential power from its lowly state in the late nineteenth century to the imperial presidency of the twentieth. That striking change was manifested both at home in periods of progressive reform and abroad, notably in two world wars, Vietnam, and the war on terror. Leuchtenburg sheds light on presidents battling with contradictory forces. Caught between maintaining their reputation and executing their goals, many practiced deceits that shape their image today. But he also reveals how the country's leaders pulled off magnificent achievements worthy of the nation's pride.

A Companion to John F. Kennedy Marc J. Selverstone, 2014-06-03 b A COMPANION TO JOHN F KENNEDY A COMPANION TO JOHN F KENNEDY Marc J Selverstone has compiled an indispensable volume of essays on John F Kennedy and his presidency written by a stellar cast of scholars. What stands out in sharp relief in this wide-ranging and authoritative book is how consequential were Kennedy's thousand days for the United States and for the world, and how controversial is his legacy. Fredrik Logevall, Stephen and Madeline Anbinder, Professor of History, Cornell University. Marc J Selverstone has brought together a remarkable group of scholars who illuminate the many important ideas of and events that occurred during this brief administration. This book is the best record of the Kennedy years. Alan Brinkley, Allan Nevins, Professor of American History, Columbia University. This collection of talented scholars and their research and thoughts on John F Kennedy is an invaluable resource, a deeply informed conversation for the ages. Richard Reeves, writer, syndicated columnist, and senior lecturer at the Annenberg School for Communication at the University of Southern California.

A Synopsis of American History--Complete Neil R. McMillen, 2024-03-26 Updated through the 1996 elections to reflect current historical thinking, the 8th edition of A Synopsis of American History continues to provide a chronological summary of major political, economic, and diplomatic developments in American history, but it also analyzes the social, cultural, and intellectual currents of American life with attention to gender, minority, urban, and industrial history.

Readers turn to Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure, powers, and operations of the office and the president's relationship with Congress and the Supreme Court. The fifth edition of this acclaimed reference

completes coverage of the George W Bush presidency the 2008 election and the first 3 years of the presidency of Barack Obama This includes coverage of their handling of the economic crisis wars abroad and Obama s healthcare initiatives The work is divided into eight distinct subject areas covering every aspect of the U S presidency and all chapters in each subject area have been revised and updated Origins and Development of the Presidency including constitutional beginnings history of the presidency and vice presidency and presidential ratings Selection and Removal of the President including the electoral process a chronology of presidential elections removal of the president and vice president and succession Powers of the Presidency including the unilateral powers of the presidency and those as chief of state chief administrator legislative leader commander in chief and chief economist The President the Public and the Parties including presidential appearances the president and political parties the president and the news media the presidency and pop culture public support and opinion and the president and interest groups The Presidency and the Executive Branch including the White House Office the Office of the Vice President supporting organizations the cabinet and executive departments presidential commissions and executive branch housing pay and perquisites Chief Executive and Federal Government including the president and Congress the president and the Supreme Court and the president and the bureaucracy Presidents their Families and Life in the White House and Beyond including the daily life of the president the first lady the first family friends of presidents and life after the presidency Biographies of the Presidents Vice Presidents First Ladies This new volume also features more than 200 textboxes tables and figures Major revisions cover the supporting White House organizations and the president s role as chief economist Additional reference materials include explanatory headnotes as well as hundreds of photographs with detailed captions

The New Right and the Constitution Bernard Schwartz,1990 A hard look at the judicial motives of the right wing political movement

Republican Presidents and the Safety Net Matthew Gritter,2018-12-21 Republican presidents have navigated between popular programs and conservative supporters since the Eisenhower administration and since the New Deal Republican presidents have looked for ways to accommodate rather than abolish the federal social safety net Yet moderation often led to a backlash from their conservative supporters leading Republican presidents to move from accommodation to opposition Richard Nixon went from proposing innovative policies to vetoing comprehensive child care legislation George W Bush s compassionate conservatism was jettisoned for an attempt at Social Security reform In From Moderation to Backlash each Republican president since the New Deal is explored with a particular focus on the third rail of American politics Social Security

"If the Workers Took a Notion" Josiah Bartlett Lambert,2018-08-06 Once a fundamental civic right strikes are now constrained and contested In an unusual and thought provoking history Josiah Bartlett Lambert shows how the ability to strike was transformed from a fundamental right that made the citizenship of working people possible into a conditional and commercialized function Arguing that the executive branch rather than the judicial branch was initially responsible for the shift in attitudes about the necessity for strikes and that the rise of liberalism

has contributed to the erosion of strikers rights Lambert analyzes this transformation in relation to American political thought His narrative begins before the Civil War and takes the reader through the permanent striker replacement issue and the alienation of workplace based collective action from community based collective action during the 1960s If the Workers Took a Notion maps the connections among American political development labor politics and citizenship to support the claim that the right to strike ought to be a citizenship right and once was regarded as such Lambert argues throughout that the right to strike must be protected He challenges the current law turn in labor scholarship and takes into account the role of party alliances administrative agencies the military and the rise of modern presidential powers

Presidents on Political Ground Bruce Miroff,2018-01-19 How much power does a president really have Theories and arguments abound pointlessly Bruce Miroff says if we don t understand the context in which presidents operate Borrowing from Machiavelli Miroff maps five fields of political struggle that presidents must traverse to make any headway media powerful economic interests political coalitions the high risk politics of domestic policy and the partisan politics of foreign policy The prince readying for war Machiavelli writes must learn the nature of the terrain and know how mountains slope how valleys open how plains lie and understand the nature of rivers and swamps So it is with presidents navigating the political landscape The variability of political ground and of the conflicts fought on it is a core proposition of this study The swift collapse of the Soviet Union the terrorist attacks of 9 11 and the financial crisis of 2008 recent history offers a quick lesson in fortune s role in the careers of presidents Taking a historical perspective which opens on an array of cases Miroff explores the various ways in which a president s agenda is constrained or facilitated by political conditions on the ground His book reveals how political identity is constructed and contested in the media through the ever changing presidential spectacle what happens when Democrats in the White House tangle with the titans of the economy why presidents claiming to represent the entire nation have to manage political coalitions that direct rewards to their own followers why domestic policy has become tough terrain for presidents and how partisan polarization has reshaped presidential leadership in foreign policy an area once considered beyond politics Providing a new perspective on why and how presidents succeed or fail in each of these areas this book is an indispensable resource for understanding the forces that shape presidencies and the power of a president to fight on such fraught terrain

The Thirteen American Arguments Howard Fineman,2009-03-10 Howard Fineman one of our most trusted political journalists shows that every debate from our nation s founding to the present day is rooted in one of thirteen arguments that thankfully defy resolution It is the very process of never ending argument Fineman explains that defines us inspires us and keeps us free At a time when most public disagreement seems shrill and meaningless Fineman makes a cogent case for nurturing the real American dialogue The Thirteen American Arguments runs the gamut including Who Is a Person The Declaration of Independence says everyone but it took a Civil War the Civil Rights Act and other movements to make that a reality Now what about human embryos and prisoners in Guantanamo The Role of Faith No country is more

legally secular yet more avowedly prayerful From Thomas Jefferson to James Dobson the issue persists Where does God fit in government America in the World In Iraq and everywhere else we ask ourselves whether we must change the world in order to survive and honor our values or whether the best way to do both is to deal with the world as it is Whether it s the nomination of judges or the limits of free speech presidential power or public debt the issues that galvanized the Founding Fathers should still inspire our leaders thinkers and fellow citizens If we cease to argue about these things we cease to be Argument is strength not weakness says Fineman As long as we argue there is hope and as long as there is hope we will argue

The 1980 Presidential Election Jeffrey D. Howison,2013-10-23 Ronald Reagan s victory in the 1980 presidential election marked a watershed moment in the history of the United States heralding the triumph of the American conservative movement Once a supporter of the New Deal Reagan had come to symbolize the union of three diverse forms of conservatism anti communism social traditionalism and libertarianism that were increasingly intertwined under the banner of the Republican Party The unlikely development of this new conservative coalition was based upon the larger impacts of the civil rights movement in reshaping the dynamics of the Democratic and Republican parties the social backlash of the Nixon era the emergence of the religious right and the economic and political crises that directly set the stage for Reagan s stunning victory In five original engaging chapters *The 1980 Presidential Election* shows how Reagan s journey to the White House was connected to the wider transformations of post 1945 American history Supplemented by a fresh collection of primary documents including previously unpublished transcripts of Reagan s radio addresses of the late 1970s this book is an ideal introduction to the origins and impact of the American conservative movement

[Book Reviews on Presidents and the Presidency](#) Frank H. Columbus,2008 This new book presents 245 in depth and incisive book reviews about presidents and the presidency of the United States This book is a must reference in political science current affairs and sociology

The Adaptability Paradox Stephen Skowronek,2025-09-29 Has American democracy outstripped its constitutional accommodations Faith in the resilience and adaptability of the US Constitution rests on a long history of finding new ways to make the system work In *The Adaptability Paradox* political scientist Stephen Skowronek examines the rearrangements that regenerated the American government in the past and brings that experience to bear on our current predicament He shows how a constitution framed in writing some 230 years ago can run into serious difficulties directly related to its long and impressive history of adaptation Skowronek connects questions about the Constitution s adaptability to the challenges of democratization For most of American history serial rearrangements of constitutional relationships widened the government s purview as a national democracy without giving either nationalism or democracy free rein Skowronek argues that the politics of adaptation shifted fundamentally with the Rights Revolution of the 1960s and 70s when American national democracy approached the inclusion of all its citizens on equal footing Since then power and authority have been reconfigured in ways that have steadily magnified conflicts over the essentials of good order Conservatives aim to dismantle

a Constitution that progressives are intent on building upon and the consensus necessary for a constitutional democracy to function effectively has all but evaporated No longer a socially bound framework for national action the Constitution has become an abstract matrix of possibilities a disembodied opportunity structure open to starkly different mutually unacceptable futures Rather than being liberated by this unbound Constitution the American people now appear entrapped by it Is it possible that the development of American democracy has exhausted the adaptive capacities of the Constitution A timely reminder that constitutional democracies do not survive on faith alone The Adaptability Paradox is a sober appraisal of the unfamiliar ground on which we now tread

The Impossible Presidency Jeremi Suri, 2017-09-12 A bold new history of the American presidency arguing that the successful presidents of the past created unrealistic expectations for every president since JFK with enormously problematic implications for American politics In The Impossible Presidency celebrated historian Jeremi Suri charts the rise and fall of the American presidency from the limited role envisaged by the Founding Fathers to its current status as the most powerful job in the world He argues that the presidency is a victim of its own success the vastness of the job makes it almost impossible to fulfill the expectations placed upon it As managers of the world's largest economy and military contemporary presidents must react to a truly globalized world in a twenty four hour news cycle There is little room left for bold vision Suri traces America's disenchantment with our recent presidents to the inevitable mismatch between presidential promises and the structural limitations of the office A masterful reassessment of presidential history this book is essential reading for anyone trying to understand America's fraught political climate

The Changing Character of the American Right, Volume I Joel D. Aberbach, Bruce E. Cain, Desmond King, Gillian Peele, 2025-04-30 These volumes analyze the transformation of the American right in recent years While the roots of that transformation can be traced back to the 1970s the last decade has seen further radical revisions of its ideology style and policies The contributors argue that both the organized Republican Party and the wider American right have changed profoundly especially since the Trump presidency of 2017-2021 reflecting long and short term alterations to the political dynamics of the United States These changes have major consequences for the country's governance for its social cohesion and for its constitutional order Focusing on a range of topics including values and beliefs partisanship and voting behaviour race religion and violence as well as on institutions and policies these volumes bring together a distinguished team of scholars at a challenging time for the future of American democracy

Angry, Bored, Confused Michael J Kryzanek, 2018-03-08 Angry Bored and Confused three words that aptly describe the typical American's view toward the world of politics But it doesn't have to stay this way argues Michael J Kryzanek in Angry Bored Confused A Citizen Handbook of American Politics Kryzanek discusses issues central to American politics citizenship power leadership problem solving initiating change through a series of straightforward questions with sometimes surprising answers Angry Bored Confused examines American politics from the perspective of an anxious consumer seeking to understand the political world and

change it for the better **Our Monica, Ourselves** Lauren Berlant, Lisa A. Duggan, 2001-03 Alongside the O J Simpson trial the affair between Bill Clinton and Monica Lewinsky now stands as the seminal cultural event of the 90s Alternatively transfixed and repelled by this sexual scandal confusion still reigns over its meanings and implications How are we to make sense of a tale that is often wild and bizarre yet replete with serious political and cultural implications Our Monica Ourselves provides a forum for thinking through the cultural political and public policy issues raised by the investigation publicity and Congressional impeachment proceedings surrounding the affair It pulls this spectacle out of the framework provided by the conventions of the corporate news media with its particular notions of what constitutes a newsworthy event Drawing from a broad range of scholars Our Monica Ourselves considers Monica Lewinsky's Jewishness Linda Tripp's face the President's penis the role of shame in public discourse and what it's like to have sex as the president as well as specific legal and historical issues at stake in the impeachment of Bill Clinton Thoughtful but accessible immediate yet far reaching Our Monica Ourselves will change the way we think about the Clinton affair while helping us reimagine culture and politics writ large Contributors include Lauren Berlant Eric O Clarke Ann Cvetkovich Simone Weil Davis Lisa Duggan Jane Gallop Marjorie Garber Janet R Jakobsen James R Kincaid Laura Kipnis Tomasz Kitlinski Pawel Leszkowicz Joe Lockard Catharine Lumby Toby Miller Dana D Nelson Anna Marie Smith Ellen Willis and Eli Zaretsky The Oxford Guide to United States Supreme Court Decisions Kermit Hall, James W Ely Jr., 2009-03-11 The Supreme Court has been the site of some of the great debates of American history from child labor and prayer in the schools to busing and abortion The Oxford Guide to United States Supreme Court Decisions offers lively and insightful accounts of the most important cases ever argued before the Court from Marbury v Madison and Scott v Sandford the Dred Scott decision to Brown v Board of Education and Roe v Wade This new edition of the Guide contains more than 450 entries on major Supreme Court cases including 53 new entries on the latest landmark rulings Among the new entries are Bush v Gore Nixon v United States Gonzales v Planned Parenthood Federation of America and Rumsfeld v Forum for Academic and Institutional Rights Four decisions Hamdi v Bush Hamdan v Rumsfeld Rasu v Bush and Rumsfeld v Padilla are considered in a single essay entitled Enemy Combatant Cases Arranged alphabetically and written by eminent legal scholars each entry provides the United States Reports citation the date the case was argued and decided the vote of the Justices who wrote the opinion for the Court who concurred and who dissented More important the entries feature an informative account of the particulars of the case the legal and social background the reasoning behind the Court's decision and the case's impact on American society For this edition Ely has added an extensive Further Reading section and revised the Case Index and Topical Index For anyone interested in the great controversies of our time this invaluable book is a must read a primer on the epic constitutional battles that have informed American life
