Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and rearranged issues of the journal *White House Studies* with the addition of a comprehensive subject index Preface *The President's Agenda* Paul Light, 1999 Although there are important differences between the two Presidents not the least of which is Bush's high proportion of small scale old ideas the two share a pronounced tendency to look backward for inspiration rather than forward from the Preface [Promises and Performances in Australian Politics, 1928-1963](#) Russell H. Barrett, 1963 SCOTT From the John Holmes Library Collection **Do They Walk Like They Talk?** Louis M. Imbeau, 2009-07-16 George Bush's 1988 campaign pledge Read my lips no new taxes has become a mantra for those who distrust politicians and bureaucrats The gulf between what political leaders say and do seems to be widening and in democratic societies around the world contributing to an atmosphere of cynicism and apathy among the citizenry Understanding the characteristics and functions of speech in policy processes is a requirement for trying to overcome this problem indeed politicians and bureaucrats spend a good proportion of their time and resources discoursing i.e. writing speaking and publishing However there has been scant analysis of political discourse the aim of this book is to fill this analytical gap by exploring political speech from a variety of perspectives including normative epistemological and empirical Incorporating insights from economics political science philosophy and law and evidence from the United States Canada France Italy Turkey and the EU the book addresses a wide variety of timely issues including Fiscal discipline in speeches vs budget balance Is an improvement deterioration of the budget balance preceded by a more less fiscally disciplined discourse Revenues and spending forecasted in budget speeches vs realised budget outcomes Is there a systematic bias If so how can we explain it Electoral pledges vs actual realisations Do governments follow up on their electoral pledges Ideological stance in party publications vs spending and revenues of party governments Do parties of the right and the left speak different languages How can we validly classify a government as of the left or of the right Is there a systematic difference between governments of the right and of the left in terms of their policy Speeches by central bank officers vs monetary policy Can changes in monetary policy be predicted by official speeches The political business cycle How can taking into consideration the speech action relationship strengthen or threaten our knowledge about electoral and partisan cycles in public spending Other questions explored include Should policy makers always tell the truth and all the truth What are the benefits and the costs of transparency How can we resolve the apparent contradiction between the democratic demand for transparency and the efficiency requirement of secrecy in many policy areas budget preparation monetary policy foreign policy security etc Under which conditions is secrecy acceptable in a democratic society To what extent may deception and lies lead to a breach

of trust or to power abuse What are the most efficient institutional mechanisms to prevent such abuse Collectively the authors present new insights for understanding political process and government activity and suggest avenues for further research
