**Public Administration** Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self serving corporations and world political heavyweights It bears a multifaceted web of influence that manifests in inequalities in growth prosperity and **Media and Nigeria's Constitutional Democracy** Sam Amadi, Taye C. Obateru, Paul A. Obi, 2023-02-06 In this edited collection contributors analyze how the media is navigating Africa s most populous nation Nigeria and its mediated democracy Despite its constitutional role recognizable as the fourth estate of the realm the Nigerian media has a history of confronting daunting challenges headlong This book captures an array of the challenges faced from British colonialism and military rule to democratic dispensation Ordinarily democracy is purposefully

streamlined to elevate freedom of expression to an inalienable right and a necessary corollary of democracy Yet media freedom in Nigeria has been tortuous and nebulous and there is a paradoxical difference in how the state relies on the media for partnership while also obstructing accountable journalism that would hold the state and the media itself accountable The editors provide a poignant outlook of the onerous interactions and dialectics of media and democracy and the cascading state power Contributors argue for open democratic deliberations civic space and freedom of the press all rooted in public good Scholars of journalism political communication media studies African studies law democratic studies and political science will find this book of particular interest

What are the ideal roles the mass media should play as an institution to strengthen democratic governance and thus bolster human development Under what conditions do media systems succeed or fail to meet these objectives And what strategic reforms would close the gap between the democratic promise and performance of media systems Working within the notion of the democratic public sphere Public Sentinel News Media and Governance Reform emphasizes the institutional or collective roles of the news media as watchdogs over the powerful as agenda setters calling attention to social needs in natural and human caused disasters and humanitarian crises and as gatekeepers incorporating a diverse and balanced range of political perspectives and social actors Each is vital to making democratic governance work in an effective transparent inclusive and accountable manner The capacity of media systems and thus individual reporters embedded within those institutions to fulfill these roles is constrained by the broader context of the journalistic profession the market and ultimately the state Successive chapters apply these arguments to countries and regions worldwide This study brought together a wide range of international experts under the auspices of the Communication for Governance and Accountability Program
