Pressure From Without In Early Victorian England:

Pressure from Without in Early Victorian England Patricia Hollis, 1974 *The National Union of Women's Suffrage Societies 1897-1914 (Routledge Revivals)* Leslie Hume, 2016-04-06 First published in 1981 this book traces the history of the National Union of Women's Suffrage Societies NUWSS from 1897-1914 Whereas most historians have focused on the more militant aspect of the struggle for female enfranchisement embodied by the Women's Political and Social Union WPSU this work provides an essential overview of the often dismissed non violent and constitutional NUWSS by 1914 the largest single women's suffrage organisation The author argues that although a less dramatic organisation than the WPSU the NUWSS was far more responsible for laying the pre war groundwork for the enfranchisement of women in 1918 **The Politics of Nursing Knowledge** Anne Marie Rafferty, 2002-09-11 The Politics of Nursing Knowledge puts into context the historical factors which have shaped and sometimes limited the development of nurse education Anne Marie Rafferty makes a critical reappraisal of Florence Nightingale's vision of nursing and looks at how training and policy making have evolved from the origins of hospital reform in the 1860s to the start of the National Health Service in 1948 Highlighting the contemporary issues confronting all those in training the book questions the extent to which nursing fits into the mould of both a profession and an academic discipline Based on substantial new research The Politics of Nursing Knowledge is a valuable resource for nursing students at undergraduate and postgraduate levels **Emigrant Gentlewomen** A. James Hammerton, 2016-07-01 First published in 1979 This book examines the distressed gentlewoman stereotype primarily through a study of the experience of emigration among single middle class women between 1830 and 1914 Based largely on a study of government and philanthropic emigration projects it argues that the image of the downtrodden resident governess does inadequate justice to Victorian middle class women's responses to the experience of economic and social decline and to insufficient female employment opportunities This title will be of interest to students of history **Pressure from without in early Victorian England. Ed. by P. Hollis**, 1974 Modern Britain Third Edition Edward Royle, 2016-05-16 Praise for the first edition Royle calls on an impressive range of materials supported by an excellent bibliography to offer a judicious review of most of the issues currently confronted by social historians His agenda contains both traditional and novel elements all are presented with admirable clarity and balance A volume which shows an astonishing command of such a wide range of material will long prove essential reading Times Literary Supplement This popular work provides an in depth historical background to issues of contemporary concern tracing developments over the past two and a half centuries It promotes accessibility by adopting a thematic approach with each theme treated chronologically Major themes are chosen partly by their importance to an understanding of the past and partly by their relevance to students of contemporary Britain rather than by imposing current fashions in historical study on the past Thoroughly revised the third edition of Modern Britain reviews and brings up to date the content to take account of developments since 1997 and reconsiders emphases and

interpretations in light of more recent scholarship It incorporates new currents in historical writing on matters such as the language of class the position of women and the revolution worked by the Internet and mobile technologies Modern Britain is vital reading for students of history and the social and political sciences Chartism Edward Royle,Roger Lockyer,2014-09-19 This text has established itself as the best short account of the Chartist movement available It considers its origins and development placing the movement within its broad social and economic context Dr Royle also provides clear analysis of its strategy and leadership and assesses the conflicting interpretations for the failure of Chartism A Companion to Contemporary Britain 1939 - 2000 Paul Addison,Harriet Jones,2008-04-15 A Companion to Contemporary Britain covers the key themesand debates of 20th century history from the outbreak of the SecondWorld War to the end of the century Assesses the impact of the Second World War Looks at Britain s role in the wider world including thelegacy of Empire Britain s specialrelationship with the United States and integration withcontinental Europe Explores cultural issues such as class consciousness immigration and race relations changing gender roles and theimpact of the mass media Covers domestic politics and the economy Introduces the varied perspectives dominating historicalwriting on this period Identifies the key issues which are likely to fuel futuredebate **Modern Christian Revivals** Randall Herbert Balmer,1993 Beginning with the Great Awakening in the American colonies and continuing through contemporary Latin America where revolution and revivalism have been central to sociopolitical change Modern Christian Revivals demonstrates the enduring relevance of Christian revivalism Half of the contributors focus on the United States from Puritan New England through the Old South to Billy Graham and Pat Robertson the others discuss revivalism in England Norway China and Canada chronicling influential as well as less frequently studied movements This volume explores long held assumptions about revivalism and illustrates its central role in the Christian tradition *The People's Bread* Paul Pickering,Alex Tyrell,2000-08-01 Formed in 1839 the Anti Corn Law League was one of the most important campaigns to introduce the ideas of economic liberalism into mainstream political discourse in Britain Its aspiration for free trade played a crucial role in defining the agenda of nineteenth century liberalism and shaping the modern British state Its faith in the free market still resonates in Britain s public policy debates today This is the first comprehensive study of the League which makes use of recent methodological developments in social history **Of Victorians and Vegetarians** James Gregory,2007-06-29 Nineteenth century Britain was one of the birthplaces of modern vegetarianism in the west and was to become a reform movement attracting thousands of people From the Vegetarian Society s foundation in 1847 men women and their families abandoned conventional diet for reasons as varied as self advancement via personal thrift dissatisfaction with medical orthodoxy repugnance towards animal cruelty and the belief that carnivorousism stimulated alcoholism and bellicosity They joined in the pursuit of a more perfect society in which food reform combined with causes such as socialism and land reform James Gregory provides an extensive exploration of the movement with its often colourful and sometimes eccentric leaders and grass roots supporters He explores the rich culture of

branch associations competing national societies proliferating restaurants and food stores and experiments in vegetarian farms and colonies

Of Victorians and Vegetarians examines the wider significance of Victorian vegetarians embracing concerns about gender and class national identity race and empire and religious authority Vegetarianism embodied the Victorians complicated response to modernity While some vegetarians were averse to features of the industrial and urban world other vegetarian entrepreneurs embraced technology in the creation of substitute foods and other commodities Hostile like the associated anti vivisectionists and anti vaccinationists to a new priesthood of scientists vegetarians defended themselves through the new sciences of nutrition and chemistry

Of Victorians and Vegetarians uncovers who the vegetarians were how they attempted to convert their fellow Britons and the world beyond to their bloodless diet and the response of contemporaries in a variety of media and genres Through a close study of the vegetarian periodicals and organisational archives extensive biographical research and a broader examination of texts relating to food dietary reform and allied reform movements James Gregory provides us with the first fascinating foray into the impact of vegetarianism on the Victorians In doing so he gives revealing insights into the development of animal welfare other contemporary reform movements and the histories of food and diet

British Friendly Societies, 1750-1914 S. Cordery, 2003-06-24 The first monograph on this topic since 1961 this book provides an innovative interpretation of the Friendly Societies in Britain from the perspectives on social gender and political history It establishes the central role of the Friendly Societies in the political activism of British workers changing understandings of masculinity and femininity the ritualised expression of social tensions and the origins of the welfare state

Methodism and Politics in British Society 1750-1850 David Hempton, 2013-10-17 Originally published in 1984 this book charts the political and social consequences of Methodist expansion in the first century of its existence While the relationship between Methodism and politics is the central subject of the book a number of other important themes are also developed The Methodist revival is placed in the context of European pietism enlightenment thought forms 18th century popular culture and Wesley's theological and political opinions Throughout the book Methodism is treated on a national scale although the regional chronological and religious diversity of Methodist belief and practice is also emphasized

Urban Politics and Space in the Nineteenth and Twentieth Centuries Barry M. Doyle, 2009-10-02 This book addresses the increasing regionalisation of urban governance and politics in an era of industrialisation suburbanisation and welfare extension It provides an important reassessment of the role structure and activities of urban elites highlighting their vitality and their interdependence and demonstrating the increasing regionalisation of municipal politics as towns sought to promote themselves extend services and even expand physically onto a regional level Moreover it explores the discourses surrounding space in which gender class morality and community all feature prominently How urban space and its uses were defined and redefined became key political weapons across the regions of England in the nineteenth century and these chapters show how a range of sources maps poems songs paintings illustrated journalism social investigations historical texts were

employed by contemporaries to shape the urban and its image often by placing it in a regional context or contributing to the creation of a regional image and identity This collection illustrates the continuing vitality of the study of urban politics and governance and presents a rare attempt to place English urban history in a regional context Barry Doyle has assembled an impressive team of experts on urban politics to examine not just party politics but the wider machinery of government the boards agencies and committees that shaped British towns and cities after 1830 Space and place were contested and negotiated and a distinctive sense of local identity emerged In so doing the collection challenges some of the generalisations about the governance of urban Britain and reminds us that despite a shrinking globe the local and regional are crucial to our everyday lives The book should be read by all interested in and especially those working for local government Professor Richard Rodger University of Edinburgh In Urban Politics and Urban Space in the Nineteenth and Twentieth Centuries Regional Perspectives Barry Doyle brings together nine original essays by both established and younger authors to explore three inter related themes in urban history politics space and region from the early to mid nineteenth century to the mid twentieth century The book is conveniently divided into three sections dealing with structures of politics politics institutions and urban management and governance discourses and space Each of the contributions to this volume promises to both enrich our knowledge of specific moments in British politico urban development through the study of discrete developments in time and space and to open up and extend the debate on the British variant of urban modernity Each examines the ways in which local power space and regional relations developed and changed between the early nineteenth and mid twentieth century Localities their politics and communal identities are never really far from a national context indeed they largely shaped it as these essays make clear Doyle is to be commended for his endeavour not just as the editor but in particular for his introduction to the volume In a richly referenced essay that comes in at just over seven and half thousand words he casts a panoramic view over the field in the last few decades making connections where few contemporary urban historians care to tread Doyle gives us a forceful challenge to what he sees as a particularly English malaise in this period namely that of failing to recognise the potential of regional and local government to shape and manage the major reallocation of space and power a vital sphere of public life that is contemporary to our own times It is a masterly and well informed piece of writing that will set the standard for some years to come Professor Anthony McElligott University of Limerick

Votes For Women Sandra Holton, Dr June Purvis, June Purvis, 2002-01-04 Votes for Women provides an innovative re examination of the suffrage movement presenting new perspectives which challenge the existing literature on this subject This fascinating book charts the history of the movement in Britain from the nineteenth century to the postwar period assessing important figures such as Emmeline Pankhurst and the militant wing Millicent Garrett Fawcett leader of the constitutional wing Jennie Baines and her link with the international suffrage movements Charles Pelham Villiers Roger Swift, 2017 Cover Half Title Title Page Copyright Page Dedication Contents List of figures Foreword Acknowledgements Introduction 1 The making of a Radical 2

The Member for Wolverhampton 3 The young Parliamentarian 4 The campaign against the Corn Laws 5 Interlude 6 The Cabinet Minister 7 The view from the backbenches 8 Gladstone and the Home Rule crisis 9 The Father of the House Epilogue Bibliography Index *The Age of Improvement, 1783-1867* Asa Briggs, 2014-06-17 The Age of Improvement has long established itself as a classic of modern historical writing Widely read and quoted it has had a unique influence on teaching and research This second edition draws on the great volume of new research produced by Lord Briggs amongst others since its original publication The book stresses both the underlying unity and the rich variety of the age and raises fundamental issues about a period of crucial change in British history industrialisation war constitutional change and the attitudes of politicians towards it political development and not least society and culture In the background are the new economic powers based on the development of a coal and iron technology in the foreground new social and political problems and new ways of tackling them The author also discusses perceptions of and reactions to changing circumstances the influence of religion and science on national life and changing styles in art and literature The story ends not with a full stop but with a question mark Could improvement be maintained Could balance and progress continue to be reconciled **The Home Office, 1848-1914, from Clerks to Bureaucrats** Jill Pellew, 1982 Examines the changing social and educational backgrounds functions of the British civil servant especially after the reforms following the Northcote Trevelyan report Considers the structure of the department and the Home Office s alleged failure to effectively respond to contemporary social and political needs

Liberty, Retrenchment and Reform Eugenio F. Biagini, 1992 In common with republicanism or socialism in continental Europe Liberalism in nineteenth century Britain was a mass movement By focussing on the period between the 1860s and the 1880s this book sets out to explain why and how that happened and to examine the people who supported it their beliefs and the way in which the latter related to one another and to reality Popular support for the Liberal party was not irrational in either its objectives or its motivations on the contrary its dissemination was due to the fact that the programme of reforms proposed by the party leaders offered convincing solutions to some of the problems perceived as being the most urgent at the time This is a revealing innovative synthesis of the history of popular support for the Liberal party which emphasises the extent to which Liberalism stood in the common heritage of European and American democracy Modernity and the Victorians Angus Hawkins, 2022-07-21 *Modernity and the Victorians* diagnoses a disorder in the scholarship on Victorian Britain and proposes an interpretative remedy It argues that the modernization theory beloved of twentieth century social scientists cannot be made to fit the facts of nineteenth century British history In its place the book lays out in sweeping terms an alternative conception of the political and social dynamics of the period centred on the past morality and community Intended in part as a companion volume to Angus Hawkins previous synthetic study *Victorian Political Culture Habits of Heart and Mind* 2015 the book offers a deliberately bracing challenge to a swathe of received wisdoms which it asserts have misled students of modern Britain *Modernity and the Victorians* is at once a piece of twentieth century intellectual history a

contribution to the history of scholarship a commentary on more recent historiography and an attempt to intervene in current debates about the practice and future of political history It is a mature and humane essay by a historian who devoted the whole of his career to making sense of the Victorians A preface by Alex Middleton sets the book in context with Hawkins earlier scholarship and reflects on his wider contribution to the historiography of modern Britain The volume will be of interest not only to students of nineteenth century Britain but also to intellectual historians historiographers historically minded social scientists and anyone interested in how present preoccupations can distort readings of the past

Unveiling the Magic of Words: A Review of "**Pressure From Without In Early Victorian England**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Pressure From Without In Early Victorian England**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
