**Pressure Groups in Britain, 1720-1970** Graham Wootton, 1975 *Business Interest Groups in Nineteenth-Century Brazil* Eugene Ridings, 2004-03-11 This book is the first to describe the role of business interest groups in the development of Brazil during the nineteenth century

**Pressure Groups in Britain, 1720-1970** Graham Wootton, 1975-01-01 *The Palgrave Encyclopedia of Interest Groups, Lobbying and Public Affairs* Phil Harris, Alberto Bitonti, Craig S. Fleisher, Anne Skorkjær Binderkrantz, 2022-06-20 The growing need for a concise and comprehensive overview of the world of interest groups lobbying and public affairs called for a compendium of existing research key theories concepts and case studies This project is the first transnational encyclopedia to offer such an interdisciplinary and wide overview of these topics including perspectives on public relations crisis management communication studies as well as political science political marketing and policy studies It is an interdisciplinary work which involved an extraordinary pool of contributors made up of leading scholars and practitioners from all around the globe it is a live and evolving project focused on drawing together grounded international knowledge for our diverse and developing world The 200 entries of the Palgrave Encyclopedia of Interest Groups Lobbying and Public Affairs to be found as a live reference work online here and in two print volumes in 2022 address these research avenues tackling a growing demand for a comprehensive international reference work regarding key global sectors and policymaking structures looking beyond the traditional markets of Europe and North America to incorporate practice and research from Asia Africa Oceania and Latin America This encyclopedia acts as a synthesis of existing research and aims to aid academics students and practitioners navigate their relevant fields around the globe

**Documents of the First Chambers of Commerce in Britain and Ireland, 1767-1839** Robert John Bennett, 2018 This book is the first systematic collection of documents for the history of early chambers of commerce The documents cover all local chambers founded 1767 1839 as well as those that were unsuccessful in establishment It covers all chambers in the UK and Ireland and the significant developments in the early USA Canada and Jamaica This provides to other researchers local libraries and archives a firm foundation of aligned local information The documents include the rules charters and founding process of all chambers which are analysed in the Introduction The documents also cover the wider discourse from the 1690s that preceded chamber foundation how differences of opinion and disputes between members were managed their main political campaigns their most significant services and activities how parliamentary law agents were deployed and their relation with the General Chamber of Manufactures 1785 7 and the union of chambers 1790 1805 An appendix lists all known early chamber members 1767 1839 and provides information on their business characteristics The documents and the commentary challenge previous academic assessments offering important new insights into chamber persistence and interrelations with protest and reform agendas The English law chambers have common origins and retain the unifying characteristic of being formed under common law as independent voluntary bodies This contrasts with most European chamber models With no

compulsory membership the documents evidence how early chamber leaders developed methods to manage the dynamics of exit voice and loyalty and encourage involvement in order to limit free riding

**Organizing Democracy** Henk te Velde, Maartje Janse, 2017-05-20 This book explores the new types of political organization that emerged in Western Europe and the United States during the nineteenth century from popular meetings to single issue organizations and political parties The development of these has often been used to demonstrate a movement towards democratic representation or political institutionalization This volume challenges the idea that the development of democracy is a story of rise and progress at all It is rather a story of continuous but never completely satisfying attempts of interpreting the rule of the people Taking the perspective of nineteenth century organizers as its point of departure this study shows that contemporaries hardly distinguished between petitioning meeting and association The attraction of organizing was that it promised representation accountability and popular participation Only in the twentieth century did parties reliable partners for the state in averting revolution managing the unpredictable effects of universal suffrage and reforming society This collection analyzes them in their earliest stage as just one of several types of civil society organizations that did not differ that much from each other The promise of organization and the experiments that resulted from it deeply impacted modern politics

Pressure Groups Jeremy John Richardson, 1993 Since the early 1950s pressure groups have been recognized as playing a key role in the policy process in western democracies As legislatures and political parties have declined in influence the relationship between pressure groups and government has become highly developed This has presented both problems and opportunities for the participation of ordinary citizens in the governmental process This book reviews some of the key theoretical concepts developed in the study of pressure groups and presents a series of up to date studies of their role in particular countries including the U K the U S France and the former Soviet Union It is an authoritative collection edited by one of Britain s leading pressure group analysts and will be invaluable for both students and practitioners who want to understand current developments in the lobbying process

Local Business Voice Robert J. Bennett, 2011-10-27

Local Business Voice provides the first scholarly and systematic history of the Chambers of Commerce from early historical origins in the eighteenth century up to the present date Based on new archival information it provides exhaustive coverage of all UK and Irish chambers as well as detailed examination of early Chambers in the U S including New York Charleston and Boston and early Chambers in Quebec and Jamaica The book traces the importance of early tax protests and anger as motivating forces through interrelation with the American Revolution It traces the emergence of service bundles such commercial arbitration coffee and reading rooms and information and consultancy services as critical to the Chambers unique market position Some of the services had a unique status as trust goods exploiting the chambers USP as high status

mutual non profit organisations It demonstrates the challenges for the Chambers as independent voluntary bodies in increasing partnerships with governments and competition with rival institutions and also gives critical overview of key lobbies such as over the Jay Treaty tax expansion the Corn Laws tariff reform and free trade municipal socialism and modern regulatory burdens There is also extensive analysis of chamber membership and motivation tracking changes in structure by firm size sector and corporate and management structures The growth of small firm membership and the value of business networks and in the early chambers religious adherence are shown as key mediums for recruitment and maintaining commitment A definitive account of all local chambers including data appendices and detailed assessment of their significance the book will be an enduring resource and foundation for research into the Chambers of Commerce s origins historical development and modern position
