Preventing Intellectual Disability Ethical And Clinical Issues:

Preventing Intellectual Disability Pekka Louhiala, 2004 This is the first book that covers comprehensively the difficult ethical issues involved in prevention of intellectual disability learning disability mental retardation These issues are discussed both practically and theoretically in the light of four case examples drawn from real life The cases demonstrate various issues raised by the concept of preventing intellectual disability including definition epidemiology screening and genetic counselling Two major approach models reproductive autonomy and public health are scrutinised and the practical issues of prevention are examined closely with respect to three syndromes Down Fragile X and Aspartylglucosaminuria The question Why should intellectual disability be prevented is examined thoroughly at each stage As a paediatrician and a philosopher Dr Louhiala presents the issues in a way that is both user friendly and philosophically sound

Theology and Down Syndrome Amos Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context Publisher description

Medical Humanities Companion: V2 Rolf Ahlzen, Martyn Evans, Raimo Puust, 2018-12-20 When a person falls ill their experience changes sometimes in a very minor and transient way sometimes in a decisive and lasting one Diagnosis is often seen as the process of scientifically and objectively identifying the causes of this subjective experience but is the process and meaning of diagnosis really as simple as this implies As this volume of The Medical Humanities Companion argues diagnoses are an answer to complex human needs that spring from being ill and are in turn a complex culturally mediated interaction between individuals scientific discoveries social negotiation and historical change This volume makes visible the complexities and ambiguities involved in giving and receiving diagnoses and how they shape and are shaped by views on what is real and acceptable and how people relate to the phenomena of illness
