## **Prevention Of Armed Conflict:**

Prevention of Armed Conflict Kofi Atta Annan, United Nations. Secretary-General, 2002 This report by the UN Secretary General reviews the progress made in developing the conflict prevention capacity of the UN It also presents recommendations for further policy development in this field with the active support and co operation of member states The report finds that a general consensus is emerging that coherent conflict prevention strategies offer the greatest potential for promoting lasting peace and creating an enabling environment for sustainable development Prevention of Armed Conflict United Nations. Secretary-General (1996- : Annan), 2002 The Oxford Handbook of the International Law of Global Security Robin Geiß, Nils Melzer, 2021-02-16 Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance of public international law in today's complex and highly dynamic global security environment Which concepts of security are anchored in international law How is the global security environment shaping international law and how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a ground breaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area *Preventing Violent Conflict* Lawrence S. Woocher, 2009 New wars will continue to erupt if greater and smarter efforts are not made to prevent them Current dangers stem from factors such as rise of unstable regimes global economic turbulence climate change and shift in global power distribution Preventing relapse after wars end is insufficient to prevent most new conflicts because post conflict recurrences constitute only a minority of all conflict outbreaks A wide range of governments including United States and many intergovernmental and nongovernmental organizations have made commitments to take serious efforts to prevent violent conflicts These commitments represent a more than adequate normative foundation and a supportive political environment for development of more effective conflict prevention strategies Africa and the Responsibility to Protect Dan Kuwali, Frans Viljoen, 2013-11-26 Situations of serious or massive violations of human rights are no longer purely of domestic concern and sovereignty can no longer be an absolute shield for repressive governments in such circumstances Based on this realization the international community has recognized a responsibility to protect individuals in states where their

governments are unable or unwilling to provide protection against the most serious violations. However so far only one intergovernmental organization the African Union AU has explicitly made the right to intervene in a Member State part of its foundational text in Article 4 h of its Constitutive Act. Although there have been cases of Article 4 h type interventions in Africa the AU Assembly has not yet invoked Article 4 h explicitly. This book brings together experts in the field to explore the potential application of Article 4 h and the complexities that may explain its non invocation so far. Although Article 4 h is noble in purpose its implementation faces several legal and policy challenges given that the use of force penetrates the principles of state sovereignty and non intervention the very cornerstones upon which the AU is founded. This book considers these issues as well as the need to reconcile Article 4 h in so far as it allows the AU to exercise military intervention to protect populations at risk of mass atrocities with the provisions of the Charter of the United Nations. Drawing from the insights of law political science diplomacy and military strategy the book offers a unique combination of multi disciplinary expertise that harnesses the views of a diverse group of authors focused on the legal policy and practical insights on the implementation of Article 4 h and the responsibility to protect in Africa in order to provide concrete recommendations on how to end mass atrocities on the continent.

*The Oxford Handbook of the Responsibility to Protect* Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity. It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide. The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities. R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights. This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade.

International Law on Peacekeeping Hitoshi Nasu, 2009 It is generally considered that the UN Security Council has been galvanised since the end of the Cold War However the existence and development of armed conflicts remain the reality in the international scene Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of

the Security Council's authority or mere evidence of its failure to prevent the aggravation of armed conflicts To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict This book explores the potential of the UN peacekeeping power placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for and the legal restraints upon the exercise of the peacekeeping power It examines the regulatory framework within which the United Nations particularly the Security Council is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self regulation
