Principles of Art History Heinrich Wölfflin, 2015-05-07 *Principles of Art History* by Heinrich Wölfflin 1864 1945 a revolutionary attempt to construct a science of art through the study of the development of style has been a foundational work of formalist art history since it was first published in 1915 At once systematic and subjective and remarkable for its compelling descriptions of works of art Wölfflin's text has endured as an accessible yet rigorous approach to the study of style Although Wölfflin applied his analysis to objects of early modern European art *Principles of Art History* has been a fixture in the theoretical and methodological debates of the discipline of art history and has found a global audience With translations in twenty four languages and many reprints Wölfflin's work may be the most widely read and translated book of art history ever This new English translation appearing one hundred years after the original publication returns readers to Wölfflin's 1915 text and images It also includes the first English translations of the prefaces and afterword that Wölfflin himself added to later editions Introductory essays provide a historical and critical framework referencing debates engendered by *Principles* in the twentieth century for a renewed reading of the text in the twenty first

Principles of Art History Heinrich Wölfflin, 1970 **Principles of Art History**, 1929 **Principles of Art History** Heinrich Wölfflin, 1952 **Past Looking** Michael Ann Holly, 2018-09-05 Michael Ann Holly asserts that historical interpretation of the pictorial arts is always the intellectual product of a dynamic exchange between past and present Recent theory emphasizes the subjectivity of the historian and the ways in which any interpretation betrays the presence of an interpreter In *Past Looking* she challenges that view arguing that historical objects of representational art are actively engaged in prefiguring the kinds of histories that can be written about them Holly directs her attention to early modern works of visual art and their rhetorical roles in legislating the kind of tales told about them by a few classic cultural commentaries of the nineteenth and twentieth centuries Burckhardt's synchronic vision of the Italian Renaissance Wölfflin's exemplification of the Baroque Schapiro's and Freud's dispute over the meanings of Leonardo's art and Panofsky's exegesis of the disguised symbolism of Northern Renaissance painting

The Visual Turn Angela Dalle Vacche, 2003 This collection of essays demonstrates the usefulness of looking at cinema with the analytical methods provided by art theory The Visual Turn is a dialogue between art historians and film theorists from the silent period to the aftermath of World War II

Methods and Theories of Art History Anne D'Alleva, 2005 This is an analysis of complex forms of art history It covers a broad range of approaches presenting individual arguments controversies and divergent perspectives The book begins by introducing the concept of theory and explains why it is important to the practice of art history
