Prior To Meaning The Protosemantic And Poetics New:

Prior to Meaning Steve McCaffery, 2001 *Prior to Meaning* collects a decade of writing on poetry language and the theory of writing by one of the most innovative and conceptually challenging poets of the last twenty five years In essays that are wide ranging richly detailed and novel in their surprising juxtapositions of disparate material Steve McCaffery works to undo the current bifurcation between theory and practice to show how a poetic text might be the source rather than the product of the theoretical against which it must be read

Prior to Meaning the Protosemantic and Poetics Stephen McCaffery, 1997

The Elsewhere Adam Zachary Newton, 2005-08-03 *The Elsewhere* Or midbar biblical Hebrew for both wilderness and speech A place of possession and dispossession loss and nostalgia But also a place that speaks Ingeniously using a Talmudic interpretive formula about the disposition of boundaries Newton explores narratives of place flight border and beyond The writers of *The Elsewhere* are a disparate company of twentieth century memoirists and fabulists from the Levant Palestine Israel Egypt and East Central Europe Together their texts cunningly paired so as to speak to one another in mutually revelatory ways narrate the paradox of the near distance

The Testimonies of Russian and American Postmodern Poetry Alben Lutzkanova-Vassileva, 2016-06-30 This book challenges the belief in the purely linguistic nature of contemporary poetry and offers an interpretation of late twentieth century Russian poetry as a testimony to the unforeseen annulment of communist reality and its overnight displacement by a completely unfathomable post totalitarian order Alben Lutzkanova Vassileva argues that because of the sudden invalidation of a reality that had been largely seen as unattained and everlasting this shift remained secluded from the mind and totally resistant to cognition thus causing a collectively traumatic psychological experience The book proceeds by inquiring into a school of contemporary American poetry that has been likewise read as cut off from reality Executing a comparative analysis Vassileva advances a new understanding of this poetry as a testimony to the overwhelming and traumatic impact of contemporary media which have assailed the mind with far more signals than it can register digest and furnish with semantic weight

Signs of the Americas Edgar Garcia, 2020-01-23 Indigenous sign systems such as pictographs petroglyphs hieroglyphs and khipu are usually understood as relics from an inaccessible past That is far from the truth however as Edgar Garcia makes clear in *Signs of the Americas* Rather than being dead languages these sign systems have always been living evolving signifiers responsive to their circumstances and able to continuously redefine themselves and the nature of the world Garcia tells the story of the present life of these sign systems examining the contemporary impact they have had on poetry prose visual art legal philosophy political activism and environmental thinking In doing so he brings together a wide range of indigenous and non indigenous authors and artists of the Americas from Aztec priests and Amazonian shamans to Simon Ortiz Gerald Vizenor Jaime de Angulo Charles Olson Cy Twombly Gloria Anzald a William Burroughs Louise Erdrich Cecilia Vicu a and many others From these sources Garcia depicts the culture of a modern interconnected hemisphere revealing that while these signs of the Americas have suffered

expropriation misuse and mistranslation they have also created their own systems of knowing and being These indigenous systems help us to rethink categories of race gender nationalism and history Producing a new way of thinking about our interconnected hemisphere this ambitious energizing book redefines what constitutes a world in world literature *I, You, and the Word "God"* Sarah Zhang, 2016-11-03 *I You and the Word God* introduces the approach of lyrical ethics inspired by Emmanuel Levinas's ethical phenomenological philosophy Through the optics of lyrical ethics the reader discovers how the ancient erotic poems of the Song of Songs bear ethical and theological significance for contemporary readers Levinas's intertwined concepts oneself qua sensibility otherness perceived through responsibility and transcendence embodied in one's love for the other reveal themselves as lyrical colors woven into the fabric of Song 4 1 7 5 2 8 and 8 6 More importantly Levinas's understanding that poetic language breaks the tautology of logocentric discourse and gestures to the outside of consciousness provides the theoretical ground for the listener to solicit meaningfulness from the Song Through this lyrical reading of the selected poetic units the book demonstrates that the traditional interpretive methods of representative description narrative paraphrase and thematic distillation fail to encounter the otherness of poetry In contrast lyrical ethics pays attention to that which transcends consciousness the awakening of the reader's subjectivity the saying underlying the said the sound of the sense and the invisibility of the visible The Song so caressed reveals in human love the purposelessly purposive encounter with God Modernism in Practice Leith Morton, 2004 Postwar modernist verse has been rarely discussed in English language works on Japanese literature despite the fact that it has been the dominant mode of poetic expression in Japan since World War II Now readers of modern Japanese poetry in translation have gained an impressive intellectual and linguistic companion in their enjoyment of modern Japanese verse *Modernism in Practice* combines close readings of individual Japanese postwar poets and poetry with historical and critical analysis Five of the seven chapters concentrate on the life and work of such outstanding poets as Soha Sakon Ishigaki Rin Ito Hiromi Asabuki Ryoji and Tanikawa Shuntaro Several of these writers have only come into prominence in recent decades so this work also serves to acquaint readers with contemporary Japanese verse A significant dimension of this volume is the detailed and extensive treatment afforded two important areas of postwar Japanese verse the poetry of women and of Okinawa *Modernism in Practice* is noteworthy not only as an introduction to postwar Japanese poets and their times but also for the numerous poems that appear in translation throughout the volume many for the first time in book form **Hart Crane** Brian M. Reed, 2006-04-02 This volume studies the relation between globalization and inequalities in emerging societies by linking Area and Global Studies aiming at a new theory of inequality beyond the nation state and beyond Eurocentrism **RE: Reading the Postmodern** Robert David Stacey, 2011-01-14 It would be difficult to exaggerate the worldwide impact of postmodernism on the fields of cultural production and the social sciences over the last quarter century even if the concept has been understood in various even contradictory ways An interest in postmodernism and postmodernity has been especially strong in Canada in

part thanks to the country's non monolithic approach to history and its multicultural understanding of nationalism which seems to align with the decentralized plural and open ended pursuit of truth as a multiple possibility as outlined by Jean Fran ois Lyotard In fact long before Lyotard published his influential work *The Postmodern Condition* in 1979 Canadian writers and critics were employing the term to describe a new kind of writing RE *Reading the Postmodern* marks a first cautious step toward a history of Canadian postmodernism exploring the development of the idea of the postmodern and debates about its meaning and its applicability to various genres of Canadian writing and charting its decline in recent years as a favoured critical trope Published in English

Poetics of Liveliness Ada Smailbegović, 2021-10-29 Can poetry act as an aesthetic amplification device akin to a microscope through which we can sense minute or nearly imperceptible phenomena such as the folding of molecules into their three dimensional shapes the transformations that make up the life cycle of a silkworm or the vaporous movements that constitute the ever shifting edges of clouds We tend to think of these subjects as reserved for science but as Ada Smailbegović argues twentieth and twenty first century writers have intermingled scientific methodologies with poetic form to reveal unfolding processes of change Their works can be envisioned as laboratories within which the methodologies of experimentation natural historical description and taxonomic classification allow poetic language to register the rhythms and durations of material transformation *Poetics of Liveliness* moves across scales to explore the realms of molecules fibers tissues and clouds It investigates works such as Christian B k's insertion of a poetic text into the DNA code of living bacteria in order to generate a new poem in the shape of a protein molecule Jen Bervin's considerations of silk fibers and their use in biomedicine Gertrude Stein's examination of brain tissues in medical school and its subsequent influence on her literary taxonomies of character and Lisa Robertson's studies of nineteenth century meteorology and the soft architecture of clouds In their attempt to understand physical processes unfolding within lively material worlds Smailbegović contends these poets have developed a distinctive materialist poetics Structured as a poetic cosmology akin to Lucretius's *On the Nature of Things* which begins at the atomic level and expands out to the vastness of the universe *Poetics of Liveliness* provides an innovative and surprising vision of the relationship between science and poetry
