Prison Law Text And Materials:

Prison Law Stephen Livingstone, Tim Owen, 1993 The law governing the administration of prisons and prisoners rights is not separate from the mainstream of English law It consists of a body of rules and regulations drawn from other recognized legal categories including constitutional civil liberties and administrative law Because this area of law has not been well defined work in this domain has been complicated and plagued with problems of access to materials and the full process of the law Prison Law analyzes the relevant law and conveniently brings together the essential legal texts in this emerging field of law providing an important reference for students and practitioners Beatson, Matthews and Elliott's Administrative Law Text and Materials Mark Elliott, Jack Beatson, Martin Matthews, 2011-01-27 Beatson Matthews Elliott's Administrative Law combines extracts from key cases articles and other sources with detailed commentary Aimed at undergraduates studying administrative law it provides comprehensive coverage of the subject **Tort Law: Text and Materials** Mark Lunney, Ken Oliphant, 2013-08 The fifth edition of Lunney and Oliphant's market leading tort law text provides a complete authoritative guide to the subject The book combines clear overviews of the law with well chosen extracts from cases and materials supported by insightful commentary Prison Law Stephen Livingstone, Tim Owen, 1993 **Prisoners' Rights** John Kleinig, 2017-07-05 This volume brings together a selection of the most important published research articles from the ongoing debate about the moral rights of prisoners The articles consider the moral underpinnings of the debate and include framework discussions for a theory of prisoners rights as well as several international documents which detail the rights of prisoners including women prisoners Finally detailed analysis of the moral bases for particular rights relating to prison conditions covers areas such as health solitary confinement recreation work religious observance library access the use of prisoners in research and the disenfranchisement of prisoners **The Politics of Accountability in the Modern State** Matthew Flinders, 2017-10-05 This title was first published in 2001 In this compelling work Matthew Flinders examines how far alternative forms of accountability have evolved and the extent to which they remedy the current shortcomings of the parliamentary system Adopting a pluralistic perspective this exploration of the accountability of the core executive is clearly grounded in research methodology thus ensuring the book makes a valid incisive contribution to the literature Features include A detailed study of the location of power and mechanisms of accountability in modern government which challenges the largely prosaic existing literature Useful summaries of the key tensions and trends within constitutional infrastructure A new and refreshing approach to the study of central government Insightful critiques of major governmental policies This intriguing volume will be of interest to undergraduates post graduates and lecturers for courses on legislative studies central government reform public administration British politics and research methods *Prison Architecture* Leslie Fairweather, Sean McConville, 2013-05-13 Current and future prison designs are examined in this book within the government's prison building programme and the confines of current penal philosophies and legislation America has led the

way in prison design with two main types of architecture predominating radial layouts outside cells with windows and linear blocks inside cells with grilles Now new generation prisons central association surrounded by small groups of cells look set to become the fashion But are they a better answer and should they be copied worldwide before we know Architects and administrators show in this book the designs of these new generation prisons and assess their impact Most countries in central Europe also have a rising crime rate and a demand for new prisons Contributions from significant architects from the UK Europe and America comment on these issues Other topics within the book are setting current prison architecture and design against an historical setting looking at penal ideas and prison architecture and design in the post war period the psychological effects of the prison environment the influence of technology and design on security management and how prison architecture and design can be more flexible and innovative
