Prison Or Paradise? A. James Rudin, Marcia R. Rudin, 1980 **Prison Or Paradise?** Arnold James Rudin, Marcia R. Rudin, 1980 Understanding New Religious Movements John A Saliba, 2004-09-08 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible **America's Alternative Religions** Timothy Miller, 1995-01-01 This is a source of reliable information on the most important new and alternative religions covering history theology impact on the culture and current status It includes a chapter on the Branch Davidians *Perspectives on New Religious Movements* John A. Saliba, 2016-10-06 This book provides a dispassionate analysis of new religious movements charting their growth and examining them from a variety of perspectives sociological psychological legal and theological Saliba then questions whether or not membership harms those who join these new movements and assesses the charge that they brainwash their adherents *The Complete Handbook for College Women* Carol Weinberg, 1994-07 Designed to give women a head start as they enter college and to be a resource guide throughout the college years **Agents of Discord** Susan E. Darnell, 2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In *Agents of Discord* Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They

offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto **The Theater of God** Robert Paul Roth,2004-12-10 This exploration in creative theology aims to discover what will happen to Christian doctrine if the category of story is substituted for all the philosophical metaphors and scientific models that have been previously used to give intellectual shape to the gospel As a systematic theologian Robert Paul Roth constructs an ontology of story and applies it to the doctrines of the church **Krishna Consciousness in the West** David G. Bromley,Larry D. Shinn,1989 Scholars of comparative religion theology philosophy History sociology and psychology and members of the Hare Krishna movement discuss the history theology and organization of the International Society for Krishna Consciousness and public reaction to the movement in America The Cultic Milieu Jeffrey Kaplan,Heléne Lööw,2002 In 1972 a period of social upheaval much like today sociologist Colin Campbell posited a cultic milieu An underground region where true seekers test hidden forgotten and forbidden knowledge Ideas and allegiances within the milieu change as individuals move between loosely organized groups but the larger milieu persists in opposition to the dominant culture Jeffrey Kaplan and Helene Loow find Campbell s theory especially useful in coming to grips with the varied oppositional groups of today
