Prison Writings [of] Régis Debray Régis Debray, 1973 **The Anthropological Turn** Jacob Collins, 2020-04-24 A close look at post 1968 French thinkers R gis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist In The Anthropological Turn Jacob Collins traces the development of what he calls a tradition of political anthropology in France over the course of the 1970s After the social revolution of the 1960s brought new attention to identities and groups that had previously been marginal in French society the country entered a period of stagnation the economy slowed the political system deadlocked and the ideologies of communism and Catholicism lost their appeal In this time of political cultural and economic indeterminacy political anthropology as Collins defines it offered social theorists grand narratives that could give greater definition to the social by anchoring its laws and histories in the deep and sometimes archaic past Political anthropologists sought to answer the most basic of questions what is politics and what constitutes a political community Collins focuses on four influential yet typically overlooked French thinkers R gis Debray Emmanuel Todd Marcel Gauchet and Alain de Benoist who from Left to far Right represent different political leanings in France Through a close and comprehensive reading of their work he explores how key issues of religion identity citizenship and the state have been conceptualized and debated across a wide spectrum of opinion in contemporary France Collins argues that the stakes have not changed since the 1970s and rival conceptions of the republic continue to vie for dominance Political and cultural issues of the moment the burkini for example become magnified and take on the character of an anthropological threat In this respect he shows how the anthropological turn as it figures in the work of Debray Todd Gauchet and Benoist is a useful lens for viewing the political and social controversies that have shaped French history for the last forty years [The Human Tradition in Modern France](#) K. Steven Vincent, Alison Klairmont-Lingo, 2000-10-01 The Human Tradition in Modern France gives a human perspective of the history of France from 1789 to the present revealed in essays that highlight individuals and intriguing events that too often have been lost under labels and statistics Students will gain an understanding of the humor and passion in French history from these new original essays by well established scholars This collection also relates the individuals events and controversies to current historiographical debates The Human Tradition in Modern France is an excellent supplementary text for courses on French history and is also useful for courses in world history and Western Civilization *Prison Writing of Latin America* Joey Whitfield, 2018-07-26 What happens inside Latin American prisons How does the social organisation of prisoners relate to the political structures beyond the walls Is it possible to resist corrupt penal regimes In Prison Writing of Latin America Joey Whitfield turns to those best placed to answer these questions people who have been imprisoned themselves Drawing on a century of material produced by Latin American prisoners from Mexico Cuba Costa Rica Colombia Peru Bolivia and Brazil Whitfield weaves readings of novels memoirs and testimonial texts with social and political analysis Rather than distinguishing between dictatorial and democratic periods of government he shows

that from the point of view of the prisoner all states are authoritarian in nature In the face of oppression however prisoners both political and criminal have found ways not only to resist but also to create alternative communities both real and imagined sometimes in collaboration with each other

Warriors and Scribes James Dunkerley, 2000 Anglo America has possessed neither a uniform imperialist vocation nor the consistent capacity to impose it

[Screening the Red Army Faction](#) Christina Gerhardt, 2018-07-12 *Screening the Red Army Faction* Historical and Cultural Memory explores representations of the Red Army Faction RAF in print media film and art locating an analysis of these texts in the historical and political context of unfolding events In this way the book contributes both a new history and a new cultural history of post fascist era West Germany that grapples with the fledgling republic's most pivotal debates about the nature of democracy and authority about violence its motivations and regulation and about its cultural afterlife Looking back at the history of representations of the RAF in various media this book considers how our understanding of the Cold War era of the long sixties and of the RAF is created and re created through cultural texts
