Prisoners Of The Nuclear Dream:

Prisoners of the Nuclear Dream M. V. Ramana, C. Rammanohar Reddy, 2003 In This Book Some Of South Asia S Best Minds Address Questions On The Political Scientific Strategic Economic And Environmental Aspects Of India S Decision To Proceed With The Nuclear Weapons Programme The Contributors Include Kanti Bajpai Admiral L Ramdas Amartya Sen Amulya Reddy And Jean Dreze While Much Has Been Said In India In Defense Of The Nuclear Tests Of 1998 There Is Also A Strong Body Of Opinion Which Questions India S Decision To Become A Nuclear Weapon State The Essays In This Book Are Representative Of This Critique They Have Been Written For The General Reader Concerned About The Important Issue Of The Production Of Weapons Of Mass Destruction In South Asia

The Nuclear Shadow over South Asia, 1947 to the Present Kaushik Roy, 2017-03-02 This collection of seminal articles illustrates the reasons for the spiraling nuclear race in the Asian subcontinent and introduces the principal debates in the field Authors discuss whether the acquisition of nuclear weapons by the South Asian powers has raised the likelihood of a nuclear war in the subcontinent or reduced the chance of a conventional war breaking out They examine whether a small nuclear arsenal or a nuclear triad as declared by India is suitable for bringing stability to the region as well as the risk of an accidental nuclear conflagration The first section charts the evolution of nuclear programmes on the basis of realpolitik and the second section analyses nuclear policies on the basis of religious and cultural ethos A few essays turn the spotlight on the role of external powers in accelerating decelerating and mediating the ongoing nuclear tension between India and Pakistan

Visions of Peace Takashi Shogimen, Vicki A. Spencer, 2016-02-17 Visions of Peace Asia and the West explores the diversity of past conceptualizations as well as the remarkable continuity in the hope for peace across global intellectual traditions Current literature prompted by September 11 predominantly focuses on the laws and ethics of just wars or modern ideals of peace Asian and Western ideals of peace before the modern era have largely escaped scholarly attention This book examines Western and Asian visions of peace that existed prior to c 1800 by bringing together experts from a variety of intellectual traditions The historical survey ranges from ancient Greek thought early Christianity and medieval scholasticism to Hinduism classical Confucianism and Tokugawa Japanese learning before illuminating unfamiliar aspects of peace visions in the European Enlightenment Each chapter offers a particular case study and attempts to rehabilitate a forgotten conception of peace and reclaim its contemporary relevance Collectively they provide the conceptual resources to inspire more creative thinking towards a new vision of peace in the present Students and specialists in international relations peace studies history political theory philosophy and religious studies will find this book a valuable resource on diverse conceptions of peace

Jihadists and Weapons of Mass Destruction Gary Ackerman, Jeremy Tamsett, 2009-02-03 Explores the Nexus Formed When Malevolent Actors Access Malignant Means Written for professionals academics and policymakers working at the forefront of counterterrorism efforts Jihadists and Weapons of Mass Destruction is an authoritative and comprehensive work addressing the threat of weapons of

mass destruction WMD in the hands of jihadists India Jean Drèze, Amartya Sen, 2002 This book explores the role of public action in eliminating deprivation and expanding human freedoms in India The analysis is based on a broad and integrated view of development which focuses on well being and freedom rather than the standard indicators of economic growth The authors place human agency at the centerstage and stress the complementary roles of different institutions economic social and political in enhancing effective freedoms **The Power of Promise** M V Ramana, 2012-12-15 Nuclear power has been held out as possibly the most important source of energy for India And the dream of a nuclear powered India has been supported by huge financial budgets and high level political commitment for over six decades Nuclear power has also been presented as safe environmentally benign and cheap Physicist and writer M V Ramana offers a detailed narrative of the evolution of India's nuclear energy programme examining different aspects of it and the claims of success made on its behalf In *The Power of Promise* he makes a historically nuanced and compelling argument as to why the nuclear energy programme has failed in the past and why its future is dubious Ramana shows that nuclear power has been more expensive than conventional forms of electricity generation that the ever present risk of catastrophic accidents is heightened by observed organizational inadequacies at nuclear facilities and that existing nuclear fuel cycle facilities have been correlated with impacts on public health and the environment He offers detailed information and analysis that should serve to deepen the debate on whether India should indeed embark on a massive nuclear programme **Pakistan in Regional and Global Politics** Rajshree Jetly, 2012-04-27 Pakistan is at currently at the centre of regional and global geo strategic issues as a frontline state in the global war on terrorism It is seeking to project itself as a modern Islamic state that can engage both the Islamic bloc and the western world in the post 9 11 era This book addresses some questions under the broad rubric of International Relations and Security It focuses on four themes Pakistan and global security Pakistan's international relations politics and identity in Pakistan and economic development of Pakistan Leading international experts have contributed articles within the framework of these themes The Palgrave Handbook of Environmental Labour Studies Nora Räthzel, Dimitris Stevis, David Uzzell, 2021-08-30 In this comprehensive Handbook scholars from across the globe explore the relationships between workers and nature in the context of the environmental crises They provide an invaluable overview of a fast growing research field that bridges the social and natural sciences Chapters provide detailed perspectives of environmental labour studies environmental struggles of workers indigenous peoples farmers and commoners in the Global South and North The relations within and between organisations that hinder or promote environmental strategies are analysed including the relations between workers and environmental organisations NGOs feminist and community movements Hinduism and the Ethics of Warfare in South Asia Kaushik Roy, 2012-10-15 This book challenges the view common among Western scholars that precolonial India lacked a tradition of military philosophy It traces the evolution of theories of warfare in India from the dawn of civilization focusing on the debate between Dharmayuddha Just War and

Kutayuddha Unjust War within Hindu philosophy This debate centers around four questions What is war What justifies it How should it be waged And what are its potential repercussions This body of literature provides evidence of the historical evolution of strategic thought in the Indian subcontinent that has heretofore been neglected by modern historians Further it provides a counterpoint to scholarship in political science that engages solely with Western theories in its analysis of independent India s philosophy of warfare Ultimately a better understanding of the legacy of ancient India s strategic theorizing will enable more accurate analysis of modern India s military and nuclear policies The Routledge History of Global War and Society Matthew S. Muehlbauer, David J. Ulbrich, 2018-02-21 The Routledge History of Global War and Society offers a sweeping introduction to the most significant research on the causes experiences and impacts of war throughout history This collection of twenty seven essays by leading historians demonstrates how war and society studies have dramatically expanded the chronological geographic and thematic breadth of the field of military history Each chapter addresses the ways in which recent scholarship has integrated cultural ethical environmental medical and ideological factors to explain both conventional conflicts and genocide terrorism and other forms of mass violence The broad scope of the collection makes it the perfect primer for scholars and students seeking to understand the complex interactions of warfare and those affecting and affected by conflict
