Roth, 2005-11-30 Prisons have undoubtedly changed over the years as have penal practices in general though more so in some countries than others Prisons and prison systems have long been an overlooked part of criminal justice research and as a result limited material is available on many institutions This comprehensive encyclopedia provides a historical overview of institutions and systems around the world as well as penal theories prisoner culture and life and notable prisoners and personnel Readers will find a plethora of information including material on such famous prisons as the Tower of London and Alcatraz as well as on such topics as boot camps and parole Other entries include Devil's Island supermaximum prisons Nelson Mandela Pennsylvania system and Amnesty International Numerous appendixes list famous prisoners prison museums prison slang and more The World's Worst Prisons Karen Farrington, 2019-03-28 Incarceration has a long and inglorious history from dungeons in the bowels of castles to oppressive penal colonies in Australia Karen Farrington brings this history up to the 21st century exploring some of the world's worst prisons from Alcatraz to Pollsmoor and the unending battles that rage between convicts and warders Inside the prison walls gangs rule guards devise sadistic punishments and newcomers suffer abuse at the hands of experienced tormentors The World's Worst Prisons is packed with shocking accounts of prison breakouts drug smuggling and life on death row It also explores the politics of incarceration including the harsh labour camps of North Korea and controversies surrounding private management of prisons With prison populations rising each year questions surrounding incarceration are all the more pertinent Whether focusing on punishment containment or rehabilitation the prison system is imperfect and The World's Worst Prisons examines this dysfunction through some of the most dangerous

jails on earth *The Criminals of Lima and Their Worlds* Carlos Aguirre, 2005-01-27 *The Criminals of Lima and Their Worlds* is the first major historical study of the creation and development of the prison system in Peru. Carlos Aguirre examines the evolution of prisons for male criminals in Lima from the conception in the early 1850s of the initial plans to build penitentiaries through the early twentieth century prison reforms undertaken as part of President Augusto Leguía's attempts to modernize and expand the Peruvian state. Aguirre reconstructs the social, cultural, and doctrinal influences that determined how lawbreakers were treated, how programs of prison reform fared, and how inmates experienced incarceration. He argues that the Peruvian prisons were primarily used not to combat crime or to rehabilitate allegedly deviant individuals but rather to help reproduce and maintain an essentially unjust social order. In this sense, he finds that the prison system embodied the contradictory and exclusionary nature of modernization in Peru. Drawing on a large collection of prison and administrative records archived at Peru's Ministry of Justice, Aguirre offers a detailed account of the daily lives of men incarcerated in Lima's jails. In showing the extent to which the prisoners actively sought to influence prison life, he reveals the dynamic between prisoners and guards as a process of negotiation, accommodation, and resistance. He describes how police and the Peruvian state defined criminality and how their efforts to base a prison system on the latest scientific theories imported from Europe and the United States foundered on the shoals of financial constraints, administrative incompetence, corruption, and widespread public indifference. Locating his findings within the political and social mores of Lima society, Aguirre reflects on the connections between punishment, modernization, and authoritarian traditions in Peru.

Prison Industrial Complex For Beginners James Braxton Peterson, 2016-02-10 *Prison Industrial Complex For Beginners* is a graphic narrative project that attempts to distill the fundamental components of what scholars, activists, and artists have identified as the Mass Incarceration movement in the United States. Since the early 1990s, activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex. Like its institutional cousin, the Prison Industrial Complex features a critical combination of political ideology, far-reaching federal policy, and the neo-liberal directive to privatize institutions traditionally within the purview of the government. The result is that corporations have capital incentives to capture and contain human bodies. The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement. It is and has been enhanced and emboldened via the US war on drugs, a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re-enter society successfully. *Prison Industrial Complex For Beginners* is a primer for how these issues emerged and how our awareness of the systems at work in mass
