Planets on Tables Bonnie Costello, 2018-07-05 Poets have long been drawn to the images and techniques of still life Artists and poets alike present intimate worlds where time is suspended in the play of form and color and where history disappears amid everyday things The genre of still life with its focus on the domestic sphere seemed to some a retreat from the political and economic pressures of the last century Yet many American artists and writers found in the arrangement of local objects a way to connect the individual to larger public concerns Indeed the debates over still life reveal just what is at stake in the long standing quarrel over poetry s meaning and usefulness By exploring literary works of still life by Wallace Stevens William Carlos Williams Elizabeth Bishop and Richard Wilbur as well as the art of Joseph Cornell the eminent critic Bonnie Costello considers how exchanges between the arts help to establish vital thresholds between the personal and public realms In her view Stevens and Williams bring the turmoil of history into their struggle for local aesthetic order Bishop studies history in the intimate objects and arrangements she finds in her travels Cornell an artist inspired by poetry and loved by poets links his dream boxes to contemporary events and Richard Wilbur seeks to mend a broken postwar world within the hospitable spheres of art and home In Planets on Tables Costello describes a period when some of America s greatest poets and artists found in still life a way to contemplate the good in the midst of confusion to bring the distant near and to resist rather than escape the pressures of their times

Buffer Zone Connie Suttle,2018-04-28 A full moon hung over the Mississippi s dark waters meaning this was the time for hunters to arrive and take whatever they could capture A device would be clamped to the backs of our necks and we d never be able to shift back to human again It was how they justified their enslavement of us that we were only animals instead of sentient humans The Krelk had killed more than two thirds of the human population too but they made the excuse that they d thought them animal as well until their High Council wherever that was decided otherwise When I heard the first yelp even underground I couldn t breathe Was that a shifter Few shifters could take on a Krelk and their weapons and either survive or avoid being stunned That s how we were captured frozen and only barely able to breathe while we were caged tagged and hauled away from the buffer zone Another yelp followed quickly by a third This was no shifter the Krelk were the ones screaming Terrified but still curious I dipped into the watery entrance and slowly made my way out of my cave to peek at the river bank above my head A dead Krelk dropped into the water nearby making me jump and squeak in terror An otter Someone leaned down to look at me Not a Krelk I knew their scent This I d never scented someone like this before I scrabbled backward afraid of this newcomer too even if he did appear humanoid Don t be afraid I killed all of them I backed all the way into the water and scrambled to swim to my cave before he could grab me Once there I refused to come out I understand he said loud enough that I could still hear him Be safe I ll patrol farther down tonight I listened my heart beating so rapidly I feared it would burst while his footsteps light as they were faded as he walked southward He d killed six Krelk and I d never heard one of their weapons fire Who could do that
