Thompson,2011-02-03 Georg Lukacs stands as a towering figure in the areas of critical theory literary criticism aesthetics ethical theory and the philosophy of Marxism and German Idealism. Yet despite his influence throughout the twentieth century his contributions to the humanities and theoretical social sciences are marked by neglect. What has been lost is a crucial thinker in the tradition of critical theory but also by extension a crucial set of ideas that can be used to shed new light on the major problems of contemporary society. This book reconsiders Lukacs' intellectual contributions in the light of recent intellectual developments in political theory aesthetics ethical theory and social and cultural theory. An international team of contributors contend that Lukacs' ideas and theoretical contributions have much to offer the theoretical paucity of the present. Ultimately the book reintegrates Lukacs as a central thinker not only in the tradition of critical theory but also as a major theorist and critic of modernity of capitalism and of new trends in political theory cultural criticism and legal theory.
