Radiohead and more From the places themselves how they got their names what s happened there through the ages to the poems and parodies that it s inspired this is a beautifully evocative tribute to one of Britain s and Radio 4 s best loved broadcasts **Lost Sounds** Alan Renton,2001-04 Lost Sounds visits a number of lighthouses at different times over the last 130 years to reveal the philanthropic scientific and romantic story of the fog signal how it came about how the machinery worked and for the mariner and the keeper what it sounded like The development of fog signals complemented the expansion of lighthouse construction worldwide from the last quarter of the 19th century and represented the attempt to provide a vital navigation aid to mariners when the beam of light from the lighthouse lens was obscured by fog Lost Sounds reveals the practical development of sound signals from the early percussion instruments to the later succession of compressed air sirens and diaphones through to the last remaining electric emitters But it is much more than that it is a record of another part of maritime history **Coade Stone** Howell G.
