Application for Development ,1990 **Three Days of the Condor Or Fifty Shades of Dry** Randy Lippincott,2013-09 This is a trilogy about three separate epic climbs Climbs that are difficult enough by themselves but were made more grueling by the common thread of life threatening heat The insidious sun sucking energy water and even your willpower from a well conditioned man made the hard climbs a more arduous task Included in these stories are many other true to life adventures and narrow escapes for the author Three Days of the Condor talks about camaraderie and the accomplishment of doing something difficult that few could accomplish According to Jeff Lowe There is a certain purity in engaging in what some would call a useless activity When the climber confronts the overhang he does so with the knowledge that no material gain will result from the competition of the task He is confident that when he is done the satisfaction will outweigh the effort I have always returned to the mountains for introspection It must be at least partially genetic for man to seek the high ground for protection exploration or an attempt at communion with a higher power Occasionally the only reason is because it s there but even Mallory expanded on this when he explained It is the struggle of life itself forever upward What we get from this adventure is sheer joy But if we can look down on ourselves from above from the proverbial mountaintop often we may be more objective if not more rational The ensuing vignettes recount the pursuit of my pilgrimage my coming of age It seemed

like my endeavor for the exceptional view and my own independence truly a phenomenal golden period in my life I learned how I felt about my own survival when on many of those summits In these stories I strive to return to those times and mountains in search of truth on the rocky temples This is the visionary perspective I seek These accounts of rock climbing are more than about climbing rocks it is about that one thing in life that truly sets you free
