Rowe, Graduate School of Design (Cambridge, MA), 1989 *Rodolfo Machado and Jorge Silvetti* Rowe, 1989 *Unprecedented Realism* K. Michael Hays, Rodolfo Machado, Jorge Silvetti, 1995 For almost two decades the work of Rodolfo Machado and Jorge Silvetti has remained at the forefront of theoretical production Their rigorously detailed and exquisitely drawn projects characterize an attitude of aesthetic realism towards materials construction function and the cultural role of architecture Yet the conditions they address and the effects they produce are unprecedented Their projects synthesize seemingly incompatible images uses and typologies *Unprecedented Realism* is not an illustration of theory Rather what emerges is a constructive theory of architecture that understands the process of design itself as a distinct mode of knowledge as theoretical research that is still irreducibly architectural *Unprecedented Realism* presents both buildings and urban infrastructures Steps of Providence RI Entrance for Cranbrook Bloomfield Hills Mich Carnegie Mellon University Center Pittsburgh Pershing Square Los Angeles and Times Square New York City Along with the analytic text of K Michael Hays the volume includes critical essays by Alan Colquhoun George Baird Fars el Dahdah and Rodolphe el Khoury please see the Table of Contents [Making the Metropolitan Landscape](#) Jacqueline Tatom, Jennifer Stauber, 2009-05-07 Bringing together for the first time many well known and emerging voices in urban design theory and practice this volume argues for a progressive and engaged design practice which fully relates to the complexity and diversity of American cities [Civic Realism](#) Peter G. Campbell Hall ,2000 **Towards a Dialogical History of Modern Architecture** Jorge Francisco Liernur,2024-07-15 The book challenges three perspectives on the modern architectural canon explanations that disregard impacts and effects beyond the North Atlantic monologic superficial modifications that simply add Other figures to the canon and views that reject the canon itself Instead it recognizes the canon s significance in comprehending architecture while seeking to uncover its presumed Western centric integrity through a shift from a monological to a dialogical approach This approach integrates concepts of identity and Otherness as dialectically articulated and mutually interrelated In essence the book s main thesis contends that the canon s historiographic construction overlooked the existence of Otherness specifically neglecting the world beyond the North Atlantic nucleus of the West By examining a global context to comprehend the canon formation the book proposes a more accurate understanding of the history of modern architecture Recognizing that this task cannot emanate from a single hegemonic center it presents the prospect of a coral type architectural history This narrative should and could encompass voices from diverse cultures to explore the particular circumstances of the world intertwined with each piece or figure transiently integrated into that canon As a result the ideal readers of this book position themselves within multiple settings keen on engaging in a critical global conversation about modern architectural discourse It will be of interest to researchers and students of architecture architectural history and cultural studies *Bibliographic Guide to Art and Architecture* New York Public Library.
