**Vital Notes for Nurses** Hugh McKenna, Oliver Slevin, 2011-11-28 *Vital Notes for Nurses* Nursing Models Theories and Practice provides a concise accessible introduction to the development application and evaluation of nursing theories and clearly outlines their relevance to everyday nursing practice. It encourages the reader to view theories from a broader conceptual base enabling them to be more objective when it comes to clinical practice. Suitable for nursing students and newly qualified nurses, the authors explore the relationship between nursing theories and practice specifically analysing their origins, development, selection and use. It discusses how nursing theories evolve, how they relate to nursing roles, how to select a nursing theory relevant to your practice and how to evaluate theories critically. **Key Features** Clearly examines the relationship between nursing theory, clinical practice and nursing roles. Written in a clear accessible style which assumes no prior knowledge. Useful to all nursing students on the common foundation programme as well as newly qualified nurses. Each chapter includes features such as activities, case studies and learning objectives. In the *Vital Notes for Nurses* series.

**Financial Petroleum Cultures** Harry Pitt Scott, 2025-08-31 *Financial Petroleum Cultures* draws upon literature, film, architecture, photography, infrastructure, advertisements and financial reports to explore how financial narratives shape the future of energy and climate. Using frameworks from the energy, environmental and economic humanities, the book argues that financial representations dominate contemporary petroleum cultures. It focuses on the competing narratives of finance, celebratory and critical, determining how energy is perceived, imagined and used. Encompassing critiques of ideology and infrastructure, this book offers a new understanding of the political visions enabled and constrained by the financial sector in an increasingly volatile world.

*Exploring Education at Postgraduate Level* Anne O'Grady, Vanessa Cottle, 2015-09-25 There is a growing demand for educational professionals to develop a more critical understanding of the key and emerging debates in education so that they can better meet the challenges and demands placed upon them. *Exploring Education at Postgraduate Level* represents a range of perspectives from educational experts to academic researchers and highlights the key issues surrounding contemporary education. Organised into three parts and drawing on key issues in education theory, policy and practice, the book considers areas such as SEN, evaluating learning, ESOL and gender. Featuring reflective questions, case studies and summaries of core ideas, the chapters include: Troublesome learning journey; Applying educational thinkers to contemporary educational practice; Values production through social and emotional learning; Policy research in defence and ad hocery; We are all critically reflective now; The politics of critical reflection in higher education and in the workplace; Developing critical thought about SEN; The refuge of relativism. Aimed at supporting students on Masters level courses, this accessible but critically provocative text is an essential resource for those wishing to develop a more critical understanding of the role, purpose and function of educational systems and practices.

The Evolution of Suicide C A Soper, 2018-07-23 A fascinating read Contrary to what the title might suggest this is an upbeat exploration of suicide with a positive message Jeanine Connor Therapy Today December 2018 This thought provoking volume offers a distinctly human evolutionary analysis of a distinctly human phenomenon suicide Its pain and brain model posits animal adaptations as the motivator for suicidal escape and specific human cognitive adaptations as supplying the means while also providing a plausible explanation for why only a relatively small number of humans actually take their own lives The author hypothesizes two types of anti suicide responses active and reactive mechanisms prompted by the brain as suicide deterrents Proposed as well is the intriguing prospect that mental disorders such as depression and addiction long associated with suicidality may serve as survival measures Among the topics covered Suicide as an evolutionary puzzle The protection against suicide

afforded to animals and young children Suicide as a by product of pain and human cognition Why psychodynamic defenses regulate the experiencing of painful events Links between suicidality and positive psychology The anti suicide role of spiritual and religious belief In raising and considering key questions regarding this most controversial act The Evolution of Suicide will appeal to researchers across a range of behavioral science disciplines At the same time the book s implications for clinical intervention and prevention will make it useful among mental health professionals and those involved with mental health policy

**Law Books Published** ,1999      **Explorations and Entanglements** Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16

Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific s overlapping cultural circuits and complex oceanic transits
