Rights in Divided Societies Colin Harvey, Alex Schwartz, 2012-07-20 This collection examines the role and value of

rights in divided and post conflict societies approaching the subject from a comparative and theoretical perspective Societies emerging from violent conflict often opt for a bill of rights as part of a wider package of constitutional reform Where conflict is fuelled by longstanding ethno national divisions these divisions are often addressed through group differentiated rights Recent constitutional settlements have highlighted the difficulties in drafting a bill of rights in divided post conflict societies where the aim of promoting unity is frequently in tension with the need to accommodate difference In such cases a bill of rights might be a rallying point around which both minorities and the majority can articulate a common vision for a shared society Conversely a bill of rights might provide merely another venue in which to play out familiar conflicts further dividing an already divided society The central questions that animate the collection are 1 Can constitutional rights provide a basis for unity and a common human rights culture in divided societies If so how 2 To what extent should divided societies opt for a universalistic package of rights protections or should the rights be tailored to the specific circumstances of a divided society providing for special group sensitive protections for minorities 3 Is a divided society more or less likely to adopt a bill of rights 4 How does the judiciary figure in the management or resolution of ethno national conflict 5 What are the general theoretical and philosophical issues at stake in a rights based approach to the management or resolution of ethno national divisions or other conflicts **Bulletin of the Centre for the Independence of Judges and Lawyers** ,1985

Democratic Consolidation and Constitutional Endurance in Asia and Africa Tom Gerald Daly,Dinesha Samararatne,2024-02-15 A well articulated response to the growing scholarly conversation on democratic backsliding and resilience this essay collection considers recent democratising events in Ethiopia The Gambia Malaysia Maldives Myanmar Sri Lanka and Thailand **Inclusive Governance in South Asia** Nizam Ahmed,2017-10-04 This edited volume explores the state of inclusive governance in South Asia It particularly examines the nature and scope of inclusiveness noticed in the parliament and civil service in Bangladesh India and Nepal and the judiciary in Bangladesh Where previous literature has stressed the need for the inclusion of external stakeholders this volume highlights the importance of the involvement of internal stakeholders This includes insiders such as opposition members and government backbenchers in parliament and specialists in the civil service The main emphasis is on identifying the extent to which insiders in different institutions have the scope to participate in the governing process Furthermore this volume also seeks to assess the implications of inclusiveness exclusiveness for democratic governance By exploring the link between inclusiveness and accountability its contributors are able to draw out the strengths and weaknesses of the existing mechanisms of accountability particularly social accountability This innovative collection will appeal to students and scholars of gender and development studies public policy and administration international relations law and political science **Beyond Regimes** Duara Prasenjit,Elizabeth J. Perry,2020-10-26 For many years China and India have been powerfully shaped by both transnational and subnational circulatory forces This edited volume explores these local and global influences as they play out in the contemporary era The

analysis focuses on four intersecting topics labor relations legal reform and rights protest public goods provision and transnational migration and investment The eight substantive chapters and introduction share a common perspective in arguing that distinctions in regime type democracy versus dictatorship alone offer little insight into critical differences and similarities between these Asian giants in terms of either policies or performance A wide variety of subnational and transnational actors from municipal governments to international organizations and from local NGO activists to a far flung diaspora have been and will continue to be decisive The authors approach China and India through a strategy of convergent comparison in which they investigate temporal and spatial parallels at various critical junctures at various levels of the political system and both inside and outside the territorial confines of the nation state The intensified globalization of recent decades only heightens the need to view state initiatives against such a wider canvas Courts, Law, and Politics in

Comparative Perspective Herbert Jacob, Erhard Blankenburg, Herbert M. Kritzer, Doris Marie Provine, Joseph Sanders, 1996-01-01 This comprehensive book compares the intersection of political forces and legal practices in five industrial nations the United States England France Germany and Japan The authors eminent political scientists and legal scholars investigate how constitutional courts function in each country how the adjudication of criminal justice and the processing of civil disputes connect legal systems to politics and how both ordinary citizens and large corporations use the courts For each of the five countries the authors discuss the structure of courts and access to them the manner in which politics and law are differentiated or amalgamated whether judicial posts are political prizes or bureaucratic positions the ways in which courts are perceived as legitimate forms for addressing political conflicts the degree of legal consciousness among citizens the kinds of work lawyers do and the manner in which law and courts are used as social control mechanisms The authors find that although the extent to which courts participate in policymaking varies dramatically from country to country judicial responsiveness to perceived public problems is not a uniquely American phenomenon **When Courts Do**

Politics Joseph Oloka-Onyango, 2017-06-23 Using the phenomenon of public interest litigation PIL as the primary focus of analysis this book explores the manner in which the judicial branch of government in the three East African states of Kenya Tanzania and Uganda has engaged with questions traditionally off limits to adjudication and court based resolution It is rooted in an incisive investigation of the history of politics and governance in the sub region accompanied by an extensive repertoire of judicial decisions It also provides a critical and informative account of the manner in which courts of law have engaged with State power in a bid to alternatively deliver or subvert justice to the socially marginalized and the politically victimized The focus of the book is on judicial struggles over sexual and gender based discrimination social justice and poverty and the adjudication of presidential elections Employing the device of case deconstruction and analysis the study uncovers the conceptual and structural factors which have witnessed public interest litigation emerge as a critical factor in the struggle for more inclusive and equitable structures of governance and social order Needless to say as judges battle with

time honoured legal precedents received dogmas and contending and often antagonistic societal forces the struggle in the courts is neither straightforward nor necessarily always transformative
