## **Role Of Customary Law In Sustainable Development:**

**The Role of Customary Law in Sustainable Development** Peter Orebech, Fred Bosselman, Jes Bjarup, David Callies, Martin Chanock, Hanne Petersen, 2005 For many nations a key challenge is how to achieve sustainable development without a return to centralized planning Using case studies from Greenland Hawaii and northern Norway this 2006 book examines whether bottom up systems such as customary law can play a critical role in achieving viable systems for managing natural resources Customary law consists of underlying social norms that may become the acknowledged law of the land The key to determining whether a custom constitutes customary law is whether the public acts as if the observance of the custom is legally obligated While the use of customary law does not always produce sustainability the study of customary methods of resource management can produce valuable insights into methods of managing resources in a sustainable way

**Indigenous Peoples, Customary Law and Human Rights - Why Living Law Matters** Brendan Tobin, 2014-08-27 This highly original work demonstrates the fundamental role of customary law for the realization of Indigenous peoples human rights and for sound national and international legal governance The book reviews the legal status of customary law and its relationship with positive and natural law from the time of Plato up to the present It examines its growing recognition in constitutional and international law and its dependence on and at times strained relationship with human rights law The author analyzes the role of customary law in tribal national and international governance of Indigenous peoples lands resources and cultural heritage He explores the challenges and opportunities for its recognition by courts and alternative dispute resolution mechanisms including issues of proof of law and conflicts between customary practices and human rights He throws light on the richness inherent in legal diversity and key principles of customary law and their influence in legal practice and on emerging notions of intercultural equity and justice He concludes that Indigenous peoples rights to their customary legal regimes and states obligations to respect and recognize customary law in order to secure their human rights are principles of international customary law and as such binding on all states At a time when the self determination land resources and cultural heritage of Indigenous peoples are increasingly under threat this accessible book presents the key issues for both legal and non legal scholars practitioners students of human rights and environmental justice and Indigenous peoples themselves

*Marine Environmental Governance* Erika Techera, 2013-03 *Marine Environmental Governance From International Law to Local Practice* considers the relationship between international environmental law and community based management of marine areas Focusing on small island states in which indigenous populations have to a large extent continued to maintain traditional lifestyles this book takes up the question of how indigenous customary law and state based legislation can be reconciled in the implementation of international environmental law Including a range of case studies as well as detailed comparative analysis it pursues an interdisciplinary approach to legal pluralism in practice that will be of considerable interest to environmental lawyers legal anthropologists conservation biologists and those working in the area of

community based conservation      Research Handbook on International Environmental Law Fitzmaurice, Malgosia, Brus, Marcel, Merkouris, Panos, Rydberg, Agnes, 2021-11-12 This thoroughly updated and revised second edition of this foundational Handbook combines practical and theoretical analyses to cover a wide array of cutting edge issues in international environmental law IEL It provides a comprehensive view of the complexity of IEL both as a field in its own right and as part of the wider system of international law      **Comparative Perspectives on Communal Lands and Individual Ownership** Lee Godden, Maureen Tehan, 2010-02-26 A collection of critical debates analyses and evaluations of changing models of property as the vehicle governing access to land and resources      *Traditional Knowledge, Traditional Cultural Expressions, and Intellectual Property Law in the Asia-Pacific Region* Christoph Antons, 2009-01-01 Among the many contentious matters thrown up by the relentless march of economic globalization those forms of knowledge variously known as indigenous or traditional remain seriously threatened despite numerous transnational initiatives and highly publicized debate It is not proving easy to bring these holistic worldviews into accordance with the technical terms and classifications of intellectual property law The contributions in this volume contrast efforts to find solutions and workable models at the international and regional level with experiences on the ground Legal policies related to indigenous knowledge in settler societies such as Australia and New Zealand are compared with those in densely populated neighbouring countries in Asia where traditional knowledge is often regarded as national heritage While many of the chapters are written by lawyers using an interdisciplinary approach other chapters introduce the reader to perspectives from disciplines such as legal sociology and anthropology on controversial issues such as the understandings of art culture tradition customary law and the opportunities for traditional cultural knowledge and traditional cultural expressions in an Internet environment Experienced observers of the international debate and regional experts discuss international model laws as well as legislation at regional and national level and the role of customary law Topics covered include the following and much more the concept of farmers rights biodiscovery and bioprospecting traditional knowledge as a commodity encounters between different legalities geographical indications registration requirements sanctions remedies and dispute resolution mechanisms the ongoing fragmentation and loss of traditional knowledge and systems of data collection      *Sustainable Development, International Law, and a Turn to African Legal Cosmologies* Godwin Eli Kwadzo Dzah, 2024-05-15 This original book analyses and reimagines the concept of sustainable development in international law from a non Western legal perspective Built upon the intersection of law politics and history in the context of Africa its peoples and their experiences customary law and other legal cosmologies this ground breaking study applies a critical legal analysis to Africa s interaction with conceptualising and operationalising sustainable development It proposes a turn to non Western legal normativity as the foundational principle for reimagining sustainable development in international law It highlights eco legal philosophies and principles in remaking sustainable development where ecological integrity assumes a central focus in the reimagined conceptualisation and

operationalisation of sustainable development While this pioneering book highlights Africa as its analytical pivot its arguments and proposals are useful beyond Africa Connecting global discourses on nature the environment rights and development Godwin Eli Kwadzo Dzah illuminates our current thinking on sustainable development in international law

**Natural Resources and the Green Economy**, 2012-09-28 Considering that natural resources or green capital are the drivers of globalisation this book focuses on the link between investment trade and natural resource management in the context of the growing economic inequalities between states It argues that there is a need to pay attention to the environmental and social conflicts arising out of economic globalisation and the response of regulatory and institutional mechanisms to the challenges of rapid resource depletion This book will provide the readers a better understanding of the overlapping legal regimes disagreement and diversities of legal processes and the benefits and risks associated with sustainable management of the natural resource sector

*Global Perspectives on Long Term Community Resource Management* Ludomir R. Lozny, Thomas H. McGovern, 2019-06-21 Communal level resource management successes and failures comprise complex interactions that involve local regional and increasingly global scale political economic and environmental changes shown to have recurring patterns and trajectories The human past provides examples of long term millennial and century scale successes followed by undesired transitions collapse and rapid failure of collaborative management cooperation on the decadal scale Management of scarce resources and common properties presents a critical challenge for planners attempting to avoid the tragedy of the commons in this century Here anthropologists human ecologists archaeologists and environmental scientists discuss strategies for social well being in the context of diminishing resources and increasing competition The contributors in this volume revisit tragedy of the commons also referred to as drama or comedy of the commons and examine new data and theories to mitigate pressures and devise models for sustainable communal welfare and development They present twelve archaeological historic and ethnographic cases of user managed resources to demonstrate that very basic community level participatory governance can be a successful strategy to manage short term risk and benefits The book connects past present future by presenting geographically and chronologically spaced out examples of communal level governance strategies and overviews of the current cutting edge research The lesson we learn from studying past responses to various ecological stresses is that we must not wait for a disaster to happen to react but must react to mitigate conditions for emerging disasters

Abate,2019-10-24 Identifies the common vulnerabilities of the voiceless and demonstrates how the law can evolve to protect their interests more effectively *Culture in the Domains of Law* René Provost,2017-02-02 What does it mean for courts and other legal institutions to be culturally sensitive What are the institutional implications and consequences of such an aspiration To what extent is legal discourse capable of accommodating multiple cultural narratives without losing its claim to normative specificity And how are we to understand meetings of law and culture in the context of formal and informal legal processes when demands are made to accommodate cultural difference The encounter of law and culture is a polycentric relation but these questions draw our attention to law and legal institutions as one site of encounter warranting further investigation to map out the place of culture in the domains of law by relying on the insights of law anthropology politics and philosophy *Culture in the Domains of Law* seeks to examine and answer these questions resulting in a richer outlook on both law and culture **The Future of African Customary Law** Jeanmarie Fenrich,Paolo Galizzi,Tracy E. Higgins,2011-07-18 Customary laws and traditional institutions in Africa constitute comprehensive legal systems that regulate the entire spectrum of activities from birth to death Once the sole source of law customary rules now exist in the context of pluralist legal systems with competing bodies of domestic constitutional law statutory law common law and international human rights treaties This book promotes discussion and understanding of customary law and explores its continued relevance in sub Saharan Africa The volume considers the characteristics of customary law and efforts to ascertain and codify customary law and how this body of law differs in content form and status from legislation and common law It also addresses a number of substantive areas of customary law including the role and power of traditional authorities customary criminal law customary land tenure property rights and intestate succession and the relationship between customary law human rights and gender equality Possibility of Politics in India Akshat Jain,2025-09-01 This book is an attempt to find new ways of interdisciplinary theorisation about this moment when both the unitary idea of the Indian nation and the bureaucratic dream of a centralised Indian state are falling apart At this juncture the Indian state has two choices Either it can recognise the political nature of the struggles confronting it and radically re imagine itself or it can wage a losing war against the democratic aspirations of people It is essential that political movements in the subcontinent let go of their differences and organise together to agitate for modernisation By bringing these disparate struggles together this book explores the possibility of an alliance between them such that they are able to inform each other against a colonial state Taken together this book is thus an experiment in politics rather than being about specific events The chapters in this book were originally published in various Taylor Francis journals *The Human Right to a Healthy Environment* John H. Knox,Ramin Pejan,2018-06-28 This book considers and clarifies many different facets of the international human right to a healthy environment
