once a set of institutions the division of public authority between two or more constitutionally defined orders of government and a set of ideas which underpin such institutions As an idea federalism points us to issues such as shared and divided sovereignty multiple loyalties and identities and governance through multi level institutions Seen in this more complex way federalism is deeply relevant to a wide range of issues facing contemporary societies Global forces economic and social are forcing a rethinking of the role of the central state with power and authority diffusing both downwards to local and state institutions and upwards to supranational bodies Economic restructuring is altering relationships within countries as well as the relationships of countries with each other At a societal level the recent growth of ethnic and regional nationalisms most dramatically in Eastern Europe and the former Soviet Union but also in many other countries in western Europe and North America is forcing a rethinking of the relationship between state and nation and of the meaning and content of citizenship *Rethinking Federalism* explores the power and relevance of federalism in the contemporary world and provides a wide ranging assessment of its strengths weaknesses and potential in a variety of contexts Interdisciplinary in its approach it brings together leading scholars from law economics sociology and political science many of whom draw on their own extensive involvement in the public policy process Among the contributors each writing with the authority of experience are Tommaso Padoa Schioppa and Jacques Pelkmans on the European Union Paul Chartrand on Aboriginal rights Samuel Beer on

North American federalism Alan Cairns on identity and Vsevolod Vasiliev on citizenship after the breakup of the Soviet Union The themes refracted through these different disciplines and political perspectives include nationalism minority protection representation and economic integration The message throughout this volume is that federalism is not enough rights protection and representation are also of fundamental importance in designing multi level governments From Bourassa to Bourassa L. Behiels,2004-03-10 Convinced that education was one of the essential keys to the renewal and growth of their communities revitalized Francophone organizations and leaders lobbied for constitutional entrenchment of official bilingualism and of a mandated Charter right to education in their own language including the right to governance over their own schools and school boards Having achieved their objectives in the 1982 Charter of Rights and Freedoms Francophone provincial and national leaders learned the techniques of micro constitutional politics to convince the Ontario Alberta and Manitoba provincial governments to implement full and unfettered school governance by and for Francophone minority communities These communities received the backing of Canada s Supreme Court which gave a collectivist and remedial interpretation to the Charter s official language minority education rights section 23 The Canadian government assisted the Francophone minority in two ways it made funds available to Francophone organizations and parents via the Court Challenges program and it signed lucrative financial agreements with the provinces to help defray the additional costs of establishing French

language schools and school boards While the Francophone minority communities were pursuing implementation of their section 23 Charter rights they found themselves drawn into the mega constitutional negotiations and ratification procedures surrounding the controversial Meech Lake Constitutional Accord 1987 90 and the omnibus Charlottetown Consensus Report 1990 92 During the Quebec Provincial Round their Charter rights remained intact when the Meech Lake Accord failed to obtain ratification During the Canada Round they managed to obtain recognition of their conception of a pan Canadian cultural and linguistic duality which helped minimize the constitutional and political impact of the Quebec government's insistence upon a territorial conception of duality that is an asymmetrical Canada Quebec federation When Canadians rejected the Charlottetown deal neither conception achieved formal constitutional recognition Nevertheless Canada's Francophone minority communities were regenerated by the intertwined developments of constitutional renewal and their winning of school governance A new vigorous Francophone pan Canadian national community emerged one capable of ensuring the survival of its constituents communities well into the twenty first century

The Symbolic State Karlo Basta, 2021-11-15 The nation state is a double sleight of hand naturalizing both the nation and the state encompassing it No such naturalization is possible in multinational states To explain why these countries experience political crises that bring their very existence into question standard accounts point to conflicts over resources security and power This book turns the spotlight on institutional symbolism When minority nations in multinational states press for more self government they are not only looking to protect their interests They are asking to be recognized as political communities in their own right Yet satisfying their demands for recognition threatens to provoke a reaction from members of majority nations who see such changes as a symbolic repudiation of their own vision of politics Secessionist crises flare up when majority backlash reverses symbolic concessions to minority nations Through a synoptic historical sweep of Canada Spain Yugoslavia and Czechoslovakia *The Symbolic State* shows us that institutions may be more important for what they mean than for what they do A major contribution to the study of comparative nationalism and secession comparative politics and social theory *The Symbolic State* is particularly timely in an era when the power of symbols exemplified by Brexit the Donald Trump presidency and the rise of the Black Lives Matter movement is reshaping politics

Newfoundland and Labrador Sean Cadigan, 2017-06-22 Published to coincide with the sixtieth anniversary of Newfoundland and Labrador joining Canada Sean T Cadigan has written the book that will surely become the definitive history of one of North America's most distinct and beautiful regions The site of the first European settlement by Vikings one thousand years ago a former colony of England and known at various times as Terra Nova and Newfoundland until its official name change to Newfoundland and Labrador in 2001 this easternmost point of the continent has had a fascinating history in part because of its long held position as the gateway between North America and Europe Examining the region from prehistoric times to the present Newfoundland and Labrador is not only a comprehensive history of the province but an illuminating portrait of the Atlantic world and European

colonisation of the Americas Cadigan comprehensively details everything from the first European settlements the displacement and extinction of the indigenous Beothuk by European settlers the conflicts between settlers and imperial governance to the Royal Newfoundland Regiment's near annihilation at the Battle of the Somme the rise of Newfoundland nationalism Joey Smallwood's case for confederation and the modernization and economic disappointments instigated by joining Canada Paying particular attention to the ways in which Newfoundland and Labrador's history has been shaped by its environment this study considers how natural resources such as the Grand Banks the disappearance of cod and off shore oil have affected the region and its inhabitants Richly detailed compelling and written in an engaging and accessible style Newfoundland and Labrador brings the rich and vibrant history of this remarkably interesting region to life **Lions or**

Jellyfish Raymond B. Blake, 2015-01-01 Asked in 2010 about his pugnacious approach to federal provincial relations Newfoundland premier Danny Williams declared I would rather live one more day as a lion than ten years a jellyfish He was only the latest in a long line of Newfoundland premiers who have fought for that province's interests on the national stage From Joey Smallwood and the conflict over Term 29 of the Act of Union to Williams and his much publicized clashes with Paul Martin and Stephen Harper Newfoundland and Labrador's politicians have often expressed a determination to move beyond a legacy of colonialism and assert greater control over the province's own affairs Lions or Jellyfish examines the history of these federal provincial clashes with both clarity and wit Written by a noted expert on Newfoundland politics and intergovernmental affairs in Canada this book studies a vital but frequently overlooked aspect of modern Canadian federalism Eugene Forsey Helen Forsey, 2012-04-07 Born in Grand Bank Newfoundland Eugene Alfred Forsey 1904 1991 became one of Canada's foremost constitutional experts and served in the Senate from 1970 to 1979 Legendary for his sharp wit and his distinctive view of Canadian society Forsey brought deep research high principle and irascible tenacity to the cause of constitutional democracy justice and equality for all Those themes resound through this book Raised a Conservative Forsey converted to social democracy as a young academic in the 1930s He spent the following decades working for the labour movement and the Co-operative Commonwealth Federation now the New Democratic Party and calling governments to account in speeches articles and letters to the editor As a senator he sat as a Trudeau Liberal but soon resumed his more natural role as non-partisan critic and gadfly Whether delivering his urgent messages in labour halls university classrooms broadcasting studios or the Senate chamber Forsey entertained even as he educated Pub website *Clyde Wells* Claire
