Rolling On:

Rolling On Jamie Sumner, 2025-10-07 In this equal parts heartbreaking and heartwarming Kirkus Reviews companion to Jamie Sumner's acclaimed and beloved novels *Roll with It* and *Time to Roll* Ellie finds herself faced with first love and learning to let go. It's the very end of eighth grade and all everyone can talk about is high school everyone except Ellie Cowan. Ellie wants to freeze time. Middle school was epic. She moved to Oklahoma, made her best friends win a baking championship, quit a beauty pageant and dominated Putt Putt golf in her wheelchair. But now her feelings for her best friend Bert are starting to change. When did Bert get so cute? And why are all the other girls suddenly noticing too? As if that isn't enough to deal with, Grandpa's health takes a turn for the worse. So what do you do when you don't know how to hold on or when to let go?

Big Wheels Rolling On Paul W. J. O'Brien, 2021-05-27 *Big Wheels Rolling On* portrays many events that transpired over several decades in the author's life, the majority as an adult. From funny things that happened to dangerous life-threatening situations, the short stories contained in these pages center around real-life interactions with key players that were a part of Paul's life. A canoe trip that went south to a near-death experience while trucking. While flying a near miss with a flock of geese to loneliness and fear in a serious blizzard to fighting a forest fire. It's all here. Yet throughout his life, there is an abiding sense of happiness. Life has been good to Paul, and it shows up in spades. You will enjoy his sense of humor yet feel the depth of the challenges that faced him, which could be and often were just around the next corner.

Rolling on the River Steve Neal, 1999 In these pages you'll meet the state legislator who never met a special interest he did not like, an alderman groveling to a mob boss, and the prosecutor who gained notoriety as a publicity hound. BOOK JACKET Neal's beat is politics, but his interests are rich and varied. He also writes about sports, music, literature, and film with a point of view that is fresh and original. BOOK JACKET

Fields of Wheat, Rolling on Forever Lisa Walsh, 2014-11-26 Family didn't seem to be important when I was a child. It was something we took for granted. When children played, there would be two parents watching, throwing a ball around and joking or sitting around the picnic table. Well, when I was a little child toddling around, what I remember most is my time with my family in Florida: my mom, my dad, my sister Chris, and my brother Mike. Family to me at that time meant having both parents around. I believe one of our favorite places to go was Clearwater, Florida. My Aunt Fran and Uncle Al lived on an outlet of Clearwater Bay, a few blocks away from the Gulf of Mexico. My dad would often take us fishing off my uncle's dock. Uncle Al had a boat that we would ride around in as well, and he would let us drive it, but under adult supervision, of course. Mom and Aunt Fran would stay back and either clean the fish that we caught, a dirty job nobody wanted, or just watch us having fun. Mom always liked being outdoors near the water. Along with boating and fishing, we loved looking at the barnacles that attached to the walls around the bay area and around the posts holding up the dock. Mom seemed to be the one most fascinated with these small and disfigured little creatures. She and the rest of us seemed to enjoy watching these creatures just to pass the time of day.

Wiggins, 1954 An investigation was performed in the Langley high speed 7 by 10 foot tunnel in order to determine the rolling derivatives for swept wing body configurations at angles of attack from 0 degrees to 13 degrees and at high subsonic Mach numbers The wings had sweep angles of 3 6 degrees 32 6 degrees 45 degrees and 60 degrees at the quarter chord line an aspect ratio of 4 a taper ratio of 0 6 and an NACA 65A006 airfoil section parallel to the free stream The results indicate a reduction in the damping in roll derivative at the higher test angles of attack Of the wings tested instability of the damping in roll derivative was experienced over the

screening the Home Fleet During the dramatic Battle of the North Cape in December 1943 he was probably the first man to actually see the Scharnhorst and from his position in the gun director of HMS Scorpion enjoyed a grandstand view of the sinking of the great German battleship his account was so vivid that it formed the basis of the description in the official history Later his ship operated off the American beaches during D Day where two of her sister ships were sunk with heavy loss of life and he ended the war en route for the British Pacific Fleet and the invasion of Japan This incident packed career is recounted with restraint plenty of humour and colourful descriptive power _ his account of broaching and almost capsizing in an Arctic winter storm is as good as anything in the literature of the sea The result makes enthralling reading and as the surviving veterans rapidly decline in numbers this may turn out to be one of the last great eyewitness narratives of the naval war
