visited every country included in the titles of the eleven volumes of the two series of which the present volume is the last published He has been abroad twice for the sole purpose of obtaining the materials for these books his object being to produce books that would instruct as well as amuse The story of the incendiaries and of the young Spanish officer of the Tritonia interwoven with the incidents of travel is in accordance with the plan adopted in the first and followed out in every subsequent volume of the two series Doubtless the book will have some readers who will skip the lectures of the professor and the travel talk of the surgeon and others who will turn unread the pages on which the story is related but we fancy the former will be larger than the latter class If both are suited the author need not complain though he especially advises his young friends to read the historical portions of the volume because he thinks that the maritime history of Portugal for instance ought to interest them more than any story he can invent The titles of all the books of this series were published ten years ago The boys and girls who read the first volume are men and women now and the task the author undertook then will be finished in one more volume With the hope that he will live to complete the work begun so many years ago the author once more returns his grateful acknowledgments to his friends old and young for the favor they have extended to this series
