committed to the expression of his personal concerns as an artist and a printmaker He has tested the limits of the medium in order to achieve on the one hand subtle nuances unique to particular techniques and on the other the vast billboard scale that is his signature style This book traces Rosenquist s entire career from his early work as a sign painter to the creation of what is thought to be the world s largest print Time Dust completed in 1992 An important historical text by Constance Glenn explores such contemporary issues as the role of the mass media the appropriation of its techniques and imagery and the origin and demand for multiple images as well as presenting in depth the artist s evolution as painter and printmaker The 150 colorplates include in addition to landmark paintings numerous examples of previously unpublished sketches and prints as well as many of Rosenquist s famous works such as the great installation print F 111 The book includes a catalogue raisonne of the artist s 229 prints and an extensive bibliography
