Winning While Losing Jennifer Green, 2017-05-29 As of right now we are no longer married These were the words I heard from my husband when he came to pick me up at the Ottawa International Airport after a week away He sat me in a corner and said I can't live with you anymore I took away your house key I closed our joint accounts Here is 500 for you to use You can stay at a friend's house or a hotel but you are not coming home You can see the kids tomorrow While this might sound like a scene from a novel or a movie this actually happened to Jennifer Green on Valentine's Day in 2015 In less than 5

minutes she learned that her previous life was over What followed was an almost two year journey from betrayal anger and despair to peace inner strength and a new beginning While often a painful process Jennifer now celebrates the growth that allowed her to realize I was not falling apart I was falling in to place Filled with honesty and insight Winning While Losing The Upside of Heartbreak is a must read book for anyone going through the searing pain of separation divorce or betrayal In it Jennifer shares her own experiences through blogs she wrote during her journey her knowledge as a life coach and tips and exercises to move past the pain into self appreciation mindfulness and gratitude *Men who Win* Steven J. Lawson,1992

happens when those pieces go undetected I Was Broken in All the Right Places encourages us to find purpose among the pieces **Where There's a Will There's a Way** Laurie E. Maguire, 2006 Draws on the wisdom of the Shakespeare to provide comfort empathy encouragement and practical suggestions for dealing with the vast complexities of everyday life identity relationships family loss love death and other universal concepts Life's Dueling Dualities Stephen Michael Soreff MD, 2020-12-04 Life is simple Follow a few maxims and it is easy No In growing up everyone must deal with a series of opposing dual messages For example one hears If you hesitate you lose Good Then one also learns Look before you leap Both are correct What to do And this is only one of life's six contradictions This book identifies the six dual dueling ideas The first is Carpe Diem vs Reflection and Contemplation Or its variation the early bird gets the worm but the second mouse gets the cheese The second is ambivalence which amazingly means simultaneously loving and hating something or someone The third involves following your heart versus the head and we all root for the Hollywood ending The fourth looks at whether it is better to work alone or as part of a group The fifth deals with whether you should follow the rules or challenge them The sixth shows the advantages of having big picture views in your life while also appreciating your daily realities The final chapter Transcendence offers a unique answer and alternative to all the six contradictions As a grandfather a father a psychiatrist a son a brother a wishing to be better golfer a jogger a sailor a hiker an amateur geologist want to be comedian local newspaper reporter and a veteran of School of Hard Knocks the author has wrestled with all six of them and discovered moments of transcendence In this book he shares his observations and philosophy about all of them with his grandchildren and you Based on this book you can make better decisions The book itself is engaging insightful witty and entertaining It is full of examples from history literature and the author's experiences Welcome and enjoy *The Land & the Orchard of Human Species* Babajide M. Ola-Buraimo, 2011-04-12 The analytical views in this book are not in any way serendipity rather they were well thought out and structured as simply received Thus arises the need to initiatively look back at the epoch of our existence on Earth as preceded by the following survival of the fittest search for food where to live sacrifices and rituals to appeal to God brutalism against one another religious sect formation and deforestation due to uncontrollable population increase Improvisation of wooden houses trees of concrete iron and steel have been initiated but in a way they have continually caused global warming to increase very much at a gradual pace as civilization advances through Machine Age mechanized farming industrialization and technological advancements space exploration and globalization of industries and corporate organizations The heat increases at an unusual unprecedented level due to greenhouse gas emission and thus the assumed greenhouse releases a light weight carbon dioxide CO₂ gas into the atmosphere which is speculated to have formed impenetrable blanket The presence of CO₂ is an indicator pointing to a fact that this gas in question had been released in the past and is presently being discharged uncontrollably More so there seems to be no end in sight as the CO₂ continues to be sporadically expunged into the atmosphere The process described above has continued to be expanding through all frontiers

with no end in sight where new neighborhoods are being built Suburbs margining together as new Castles are evolving block by block and concrete plazas are enveloping the Earth so are the vegetative forest of trees are disappearing causing global warming to increase exponentially The increase becomes very much intense at an alarming rate in that it has now been considered to be adversely effective when found to be dangerously impacting the essence and every facet of life Analytical research is hereby required to be conducted by the world s best researchers and scientists in their respective professional fields Necessary wisdom of advice has to be forwarded by religious leaders of all known notable reliable religious groups or denominations Leaders and heads of governments of all Nations that control every facet of life in every part of the globe must guide and monitor purposely to do proper checks and balances with intuition ideology predictions and prophecies contained in this book *The Land the Orchard of Human Species* This is to determine the level of damages caused by humanity thereby putting the Earth s conditions into a scale of ratio prior to civilization and as civilization progresses i e the condition of the Earth from time immemorial as the scientists and archaeologists can determine through lists of records and documentaries Precisely from premedieval periods to present days and age while projecting into the future of the planet Earth in order for us to be just and find peace among ourselves and on Earth If humanity cannot find peace on Earth then we cannot find peace elsewhere because human s trait is like a shadow that trails behind you when you take a walk in the light Source of all lives and the means of energy and growth *I've Lost Everything...Now What?* Tom Morris,2009-10-05 Even though it seems unrecoverable you can grow through loss and what feels like you have lost everything *The 7 Habits of Highly Effective Teens* Sean Covey,2014-05-27 Over 3 million copies sold Adapted from the New York Times bestseller *The 7 Habits of Highly Effective People* *The 7 Habits of Highly Effective Teens* is the ultimate teenage success guide now updated for the digital age Imagine you had a roadmap a step by step guide to help you get from where you are now to where you want to be in the future Your goals your dreams your plans they re all within reach You just need the tools to help you get there That s what Sean Covey s landmark book *The 7 Habits of Highly Effective Teens* has been to millions of teens a handbook to self esteem and success Now updated for the digital age this classic book applies the timeless principles of 7 Habits to the tough issues and life changing decisions teens face Covey provides a simple approach to help teens improve self image build friendships resist peer pressure achieve their goals and appreciate their parents as well as tackle the new challenges of our time like cyberbullying and social media In addition this book is stuffed with cartoons clever ideas great quotes and incredible stories about real teens from all over the world Endorsed by high achievers such as former 49ers quarterback Steve Young and 28 time Olympic medalist Michael Phelps *The 7 Habits of Highly Effective Teens* has become the last word on surviving and thriving as a teen *The Fingers of God* Lisa Michele Neu,2018-02-06 The poems in this book reflect a life time of writing Christian Poetry to inspire teach and lead others to the grace and mercy of our Heavenly Father and to share that God s love does indeed reach down and touch the lives of each one of us in our journey here on earth with all the good bad happy
