Medieval Manuscript Production in the Latin West Eltjo Buringh, 2011 Drawing on statistical techniques and samples this book offers an estimate of medieval production rates of manuscripts in the Latin West Such information is a helpful production indicator for a period of which we have so little other quantitative data **Devastating Losses** William Feigelman, John Jordan, John McIntosh, Beverly Feigelman, 2012-06-20 This book fills a critical gap in our scientific understanding of the grief response of parents who have lost a child to traumatic death and the psychotherapeutic strategies that best facilitate healing It is based on the results of the largest study ever conducted of parents surviving a child s traumatic death or suicide The book was conceived by William and Beverly Feigelman following their own devastating loss of a son and written from the perspective of their experiences as both suicide survivor support group participants and facilitators It intertwines data insight and critical learning gathered from research with the voices of the 575 survivors who participated in the study The text emphasizes the sociological underpinnings of survivors grief and provides data that vividly documents their critical need for emotional support It explains how bereavement difficulties can be exacerbated by stigmatization and by the failure of significant others to provide expected support Also explored in depth are the ways in which couples adapt to the traumatic loss of a child and how this can bring them closer or render their relationship irreparable Findings suggest that with time and peer support affiliations most traumatically bereaved parents ultimately demonstrate resilience and find meaningful new roles for themselves helping the newly bereaved or engaging in other humanitarian acts Key Features Offers researchers clinicians and parent survivors current information on how parents adapt

initially and over time after the traumatic loss of a child Presents data culled from the largest survey ever conducted 575 individuals of parents surviving a child s suicide or other traumatic death Investigates the ways in which stigmatization complicates and prolongs the grieving process Addresses the tremendous value of support groups in the healing process Explores how married couples are affected by the traumatic loss of their child **Loss, Survive, Thrive** Meryl Hershey Beck,2019-11-22 No one is prepared for the loss of a child No one It feels completely unnatural for children to predecease their parents Although it is not widely known each year there are over 135 000 under 40 year old deaths in the U S alone And according to one study 19% of parents outlive their children often carrying the weight of horrendous grief to their own graves Isolated and alone is how parents often describe the grief process Well meaning friends and family members usually rush to their side in the beginning Once the floral arrangements have wilted and the dinners from caring friends diminish there isn t really much that can be said to bring comfort to a suffering parent especially if those friends haven t experienced it themselves Unfortunately when these caring friends do bring up the loss quite often they say the wrong things Loss Survive Thrive offers a lifeline of hope Each chapter is an inspirational story written by a parent who also experienced the agony of losing a child reclaimed his her vitality and is now living a fulfilling life Every story is authentic and heartfelt designed to uplift and inspire The collective authors reach out through the pages to virtually hold hands with those who are suffering We the contributors have all been there We know their pain and we know about survival And now through our stories we offer comfort and support in helping them get through the toughest time of their lives Bereaved parents share an unspeakable bond And Loss Survive Thrive imparts insight from what s likely the only voices that grieving parents can hear others who have walked in their shoes This book is a giant step toward healing the grieving heart *Life after Loss* Bob Deits,2008-08-04 The grief and recovery classic fully revised and updated Loss is overwhelming After a loved one s death a divorce an injury or disease or another major life change recovery often seems daunting if not impossible Life after Loss is the go to resource for anyone who has suffered a major loss With great compassion and insight Bob Deits provides essential wisdom and practical exercises for navigating the uncertain terrain of grief and recovery Now in its sixth edition this guide is fully updated with new advice on catastrophic losses guidance on using technology to foster connections and maintain support networks and reflections from Deits ongoing counseling and his firsthand experiences After a destabilizing change Life after Loss helps you to find positive ways to put together a life that is necessarily different but equally meaningful
