The Comprehensive History of England Charles MacFarlane, 1858

Private Power and Global Authority A. Claire Cutler, 2003-08-14

Transnational merchant law which is mistakenly regarded in purely technical and apolitical terms is a central mediator of domestic and global political legal orders. By engaging with literature in international law, international relations, and international political economy, the author develops the conceptual and theoretical foundations for analyzing the political significance of international economic law. In doing so, she illustrates the private nature of the interests that this evolving legal order has served over time. The book makes a

sustained and comprehensive analysis of transnational merchant law and offers a radical critique of global capitalism
