Lost Armies:

Forgotten Armies Christopher Alan Bayly, Timothy Norman Harper, 2005 In the early stages of the Second World War the vast crescent of British ruled territories stretching from India to Singapore appeared as a massive Allied asset It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis Yet within a few weeks in 1941-42 a Japanese invasion had destroyed all this sweeping suddenly and decisively through south and southeast Asia to the Indian frontier and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today's Asian world More than a military history this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare nationalist insurgency disease and famine It breathes life into the armies of soldiers civilians laborers businessmen comfort women doctors and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles from tropical plantations to the Himalayas Drawing upon a vast range of Indian Burmese Chinese and Malay as well as British American and Japanese voices the authors make vivid one of the central dramas of the twentieth century the birth of modern south and southeast Asia and the death of British rule *U. Jones, Sharon Monteith, 2002-11-01 Taking Albert Murray's South to a Very Old Place as a starting point contributors to this exciting collection continue the work of critically and creatively remapping the South through their freewheeling studies of southern literature and culture Appraising representations of the South within a context that is postmodern diverse widely inclusive and international the essays present multiple ways of imagining the South and examine

both new places and old landscapes in an attempt to tie the mythic southern balloon down to earth In his foreword an insightful discussion of numerous Souths and the ways they are perceived Richard Gray explains one of the key goals of the book to open up to scrutiny the literary and cultural practice that has come to be known as regionalism Part I Surveying the Territory theorizes definitions of place and region and includes an analysis of southern literary regionalism from the 1930s to the present and an exploration of southern popular culture In Mapping the Region essayists examine different representations of rural landscapes and small towns cities and suburbs as well as liminal zones in which new immigrants make their homes Reflecting the contributors transatlantic perspective Making Global Connections challenges notions of southern distinctiveness by reading the region through the comparative frameworks of Southern Italy East Germany Latin America and the United Kingdom and via a range of texts and contexts from early reconciliation romances to Faulkner s fictions about race to the more recent parody of southern mythmaking Alice Randall s *The Wind Done Gone* Together these essays explore the roles that economic racial and ideological tensions have played in the formation of southern identity through varying representations of locality moving regionalism toward a new place in southern studies
