Organization Of African Unity An Analysis Of Its Role:

Organization of African Unity, 1963 **The Organization of African Unity** Gino J. Naldi, 1999-12-5 Protection of the Environment **Visions of African Unity** Matteo Grilli, Frank Gerits, 2021-02-09 This collection of essays analyzes different iterations of African unity exploring the political and cultural visions that informed projects aimed at African unification It explores the cultural economic and non state aspects of the Organisation of African Unity OAU as the principal institution dedicated to the cooperation of African states from its establishment in 1963 to its transformation into the African Union AU in 2000 as well as how ideas of African unity shaped the Cold War and African liberation struggles Bringing together contributors from a diverse range of disciplinary backgrounds across Africa Europe and the US this book investigates the ideological origins and historiography of Pan African and unification projects and considers how African intellectuals leaders and populations engaged with these ideas **The African Union** Omar Alieu Touray, 2016-12-01 This book offers a comprehensive analysis of the African Union during the organization's first ten years of existence It takes the reader through the various intergovernmental processes that preceded and followed the establishment of the Union and through the workings of key organs such as the Assembly of Heads of State the Council of Ministers the Pan African Parliament and the Commission The study argues that the African Union represented a rational choice of its member states who saw it as a means to advancing their individual and collective preferences for liberation peace and security good governance and socio economic development It maintains that the African Union did not only make marked progress in a number of areas the Union also established norms that had transformational effects on military and political elites at country and regional levels However like in most agent principal relations the autonomy of the Union was limited in many ways and this affected the Union's effectiveness in such areas as human and socio economic development as well as in sustaining peace support operations At a more general level the study argues that the African Union offers clear insights into integration as a multidimensional process that no single theoretical tradition can explain in a comprehensive manner The author's response to such a theoretical limitation is fusionism an integrated approach that amalgamates various analytical traditions in order to provide a better explanation of the processes of international integration The detailed analysis and bold proposals will undoubtedly make the study appealing not only to specialists in African Studies but equally to a broader spectrum of international relations and development scholars **The African Union (AU)** Konstantinos D. Magliveras, Gino J. Naldi, 2024-01-18 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the structure competence and management of the African Union AU provides substantial and readily accessible information for lawyers academics and policymakers likely to have dealings with its activities and data No other book gives such a clear uncomplicated description of the organization's role its rules and how they are applied its place in the framework of international law or its relations with other organizations The monograph proceeds logically from the organization's genesis

and historical development to the structure of its membership its various organs and their mandates its role in intergovernmental cooperation and its interaction with decisions taken at the national level Its competence its financial management and the nature and applicability of its data and publications are fully described Systematic in presentation this valuable time saving resource offers the quickest easiest way to acquire a sound understanding of the workings of the African Union AU for all interested parties Students and teachers of international law will find it especially valuable as an essential component of the rapidly growing and changing global legal milieu

The Regional Law of Refugee Protection in Africa Marina Sharpe, 2018-07-19 This book analyses the legal framework for refugee protection in Africa including both refugee and human rights law as well as treaty and institutional elements The regime is addressed in two parts Part One analyses the relevant treaties the 1951 Convention relating to the Status of Refugees the 1969 Organization of African Unity Convention Governing the Specific Aspects of Refugee Problems in Africa and the 1981 African Charter on Human and Peoples Rights The latter two regional instruments are examined in depth This includes the first fulsome account of the African Refugee Conventions drafting an interpretation of its unique refugee definition and original analysis of the relationships between the three treaties Significant attention is devoted to the systemic relationship between the international and the regional refugee treaties and to the discrete relationships of conflict and complementary relationships between the two refugee instruments as well as to the relationships between the African Refugee Convention and African Charter Part Two focuses on the institutional architecture supporting the treaty framework The Organization of African Unity is addressed in a historical sense and the contemporary roles of the African Union the African Commission on Human and Peoples Rights and the current and contemplated African human rights courts are examined This book is the first devoted to the legal framework for refugee protection in Africa

Regional Organisations and the Development of Collective Security Ademola Abass, 2004-12 This book examines the development of collective security by regional organisations particularly after the Cold War It analyses the various constitutional developments that have occurred within regional arrangements such as ECOWAS African Union SADC OAS and NATO and critically analyses how these developments have propelled regional organisations to depart from the normative framework of regional arrangement contained in Chapter VIII of the UN Charter Through a comprehensive examination of practice the book evaluates the impact of regional organisations newly asserted powers to authorise enforcement action and determine when situations within member states warrant their intervention It inquires into the legal justifications for these developments both from within the UN Charter and regional treaties and practice and asks whether consensual intervention that is the use of force by regional organisations on the basis of their members consent contravenes or constitutes an exception to the prohibition of the use or threat of force under Article 2 4 of the Charter The book also analyses the regime of complementarity between the UN and regional organisations

Globalization and Challenges to Building Peace Ashok Swain, Ramses Amer, Joakim Öjendal, 2008 Although

globalization creates new wealth and encourages technological innovations it has also failed to support and promote sustainable human development and thus can be accused of generating anguish and deprivation This has already resulted in growing civil unrest and in some cases contributed to armed conflicts in the developing world However peace and conflict research has hitherto somehow overlooked the influence of increasing globalization on the formation and management of such emerging conflicts This impressive edited volume asks the question what concrete measures exist which can be effective in addressing the causes of conflict and building peace in an increasingly interdependent world *The Break-up of Yugoslavia and International Law* Peter Radan, 2004-01-14 The demise of the former Yugoslavia was brought about by various secessionist movements seeking international recognition of statehood This book provides a critical analysis from an international law perspective of the break up of Yugoslavia Although international recognition was granted to the former Yugoslav republics of Slovenia Croatia Bosnia Hercegovina and Macedonia the claims of secessionist movements that sought a revision of existing internal federal borders were rejected The basis upon which the post secession international borders were accepted in international law involved novel applications of international law principles of self determination of peoples and uti possidetis This book traces the developments of these principles and the historical development of Yugoslavia's internal borders

International Human Rights Law in Africa Frans Viljoen, 2012-03-29 This book provides a comprehensive and analytical overview of human rights law in Africa It examines the institutions norms and processes for human rights realization provided for under the United Nations system the African Union and sub regional economic communities in Africa and explores their relationship with the national legal systems of African states Since the establishment of the African Union in 2001 there has been a proliferation of regional institutions that are relevant to human rights in Africa These include the Pan African Parliament the Peace and Security Council the Economic Social and Cultural Council and the African Peer Review Mechanism of the New Partnership for Africa's Development This book discusses the links between these institutions It further examines the case law stemming from Africa most important human rights instrument the African Charter on Human and Peoples Rights which entered into force on 21 October 1986 This new edition contains a new chapter on the African Children's Rights Committee as well as full coverage of new developments and instruments such as the Convention on the Rights of Persons with Disabilities the Convention on Enforced Disappearances and the African Charter on Democracy Elections and Governance Three cross cutting themes are explored throughout the book national implementation and enforcement of international human rights law legal and other forms of integration and the role of human rights in the eradication of poverty The book also provides an introduction to the relevant human rights concepts

The Power of Interdependence D. Kuranga, 2012-07-25 The Power of Interdependence offers a convincing challenge to the dominant view among many observers of global affairs that individual countries exert sole control over the international system Author David Oladipupo Kuranga advances an alternative possibility that in fact the influence of nations is now matched and at times

is overtaken by that of supranational organizations Drawing on detailed accounts and insider data relating to multinational interventions in select African countries this book reveals a dramatic shift in the global order and gives a rare look at the inner workings of coercive diplomacy

Postcolonialism Robert J. C. Young, 2016-03-03 This key new introduction by one of the leading exponents in the field explains in clear and accessible language the historical and theoretical origins of post colonial theory Acknowledging that post colonial theory draws on a wide often contested range of theory from different fields Young analyzes the concepts and issues involved explains the meaning of key terms and interprets the work of some of the major writers concerned to provide an ideal introductory guide for those undergraduates or academics coming to post colonial theory and criticism for the first time

West Africa's Security Challenges Adekeye Adebajo, Ismail O. D. Rashid, 2004 Provides a context for understanding West Africa's security dilemmas highlighting the link between failures of economic development governance and democratization on the one hand and military insecurity and violent conflicts on the other

Indigeness in Africa Felix Mukwiza Ndahinda, 2011-04-27 With a Foreword by Prof Asbjørn Eide a former Chairman of the UN Working Group on Indigenous Populations Chairman of the UN Working Group on Minorities President of the Advisory Committee on National Minorities of the Council of Europe Following the internationalization of the indigenous rights movement a growing number of African hunter gatherers pastoralists and other communities have channelled their claims for special legal protection through the global indigenous rights movement Their claims as the indigenous peoples of Africa are backed by many international actors such as

indigenous rights activists donors and some academia However indigenous identification is contested by many African governments some members of non claimant communities and a number of anthropologists who have extensively interacted with claimant indigenous groups This book explores the sources as well as the legal and political implications of indigenous identification in Africa By highlighting the quasi inexistence of systematic and discursive rather than activist studies on the subject matter the analysis questions the appropriateness of this framework in efforts aimed at empowering claimant communities in inherently multiethnic African countries The book navigates between various disciplines in trying to better capture the phenomenon of indigenous rights advocacy in Africa The book is valuable reading for academics in law and all other social sciences such as anthropology sociology history political science as well as for economists It is also a useful tool for policy makers legal practitioners indigenous rights activists and a wide range of NGOs Dr Felix Mukwiza Ndahinda is Associate Professor at the International Victimology Institute Tilburg INTERVICT Tilburg University The Netherlands

The International Criminal Court and Africa Charles Chernor Jalloh,Ilias Bantekas,2017-10-06 Africa has been at the forefront of contemporary global efforts towards ensuring greater accountability for international crimes But the continent's early embrace of international criminal justice seems to be taking a new turn with the recent resistance from some African states claiming that the emerging system of international criminal law represents a new form of imperialism masquerading as international rule of law This book analyses the relationship and tensions between the International Criminal Court ICC and Africa It traces the origins of the confrontation between African governments both acting individually and within the framework of the African Union and the permanent Hague based ICC Leading commentators offer valuable insights on the core legal and political issues that have confused the relationship between the two sides and expose the uneasy interaction between international law and international politics They offer suggestions on how best to continue the fight against impunity using national ICC and regional justice mechanisms while taking into principled account the views and interests of African States *International Organizations under Pressure* Klaus Dingwerth,Antonia Witt,Ina Lehmann,Ellen Reichel,Tobias Weise,2019-02-14 International organizations like the United Nations the International Monetary Fund or the European Union are a defining feature of contemporary world politics In recent years many of them have also become heavily politicized In this book we examine how the norms and values that underpin the evaluations of international organizations have changed over the past 50 years Looking at five organizations in depth we observe two major trends Taken together both trends make the legitimization of international organizations more challenging today First people based legitimacy standards are on the rise international organizations are increasingly asked to demonstrate not only what they do for their member states but also for the people living in these states Second procedural legitimacy standards gain ground international organizations are increasingly evaluated not only based on what they accomplish but also based on how they arrive at decisions manage themselves or coordinate with other organizations in the field In sum the study thus documents how the

list of expectations international organizations need to fulfil to count as legitimate has expanded over time The sources of this expansion are manifold Among others they include the politicization of expanded international authority and the rise of non state actors as new audiences from which international organizations seek legitimacy

Rethinking the Color Line Charles A. Gallagher, 2022-01-20 *Rethinking the Color Line* helps make sense of how race and ethnicity influence aspects of social life in ways that are often made invisible by culture politics and economics Charles A Gallagher has assembled a collection of readings that are theoretically informed and empirically grounded to explain the dynamics of race and ethnicity in the United States Students will be equipped to confidently navigate the issues of race and ethnicity examine its contradictions and gain a comprehensive understanding of how race and ethnic relations are embedded in the institutions that structure their lives User friendly without sacrificing intellectual or theoretical rigor the Seventh Edition has been thoroughly updated to reflect the current debates and the state of contemporary U S race relations

A World Beyond Borders David MacKenzie, 2010-11-01 This short and well written overview provides essential information on the history of international organizations IOs with particular focus on the League of Nations the development of the United Nations and the UN system Starting at the beginning of the twentieth century when there were very few international organizations in existence *A World Beyond Borders* traces the growth of IOs through to the close of the century when there were literally thousands at the heart of the international system Following this chronological order the book examines how international organizations became the major legal moral and cultural forces that they are today involved in all aspects of international relations including peacekeeping disarmament peace resolution human rights diplomacy and environmentalism This book is the first in the Canadian Historical Association University of Toronto Press International Themes and Issues Series which is dedicated to publishing concise focused overviews of topics that are of international significance in the study of history
