from a review by Peter C Neligan MB in Plastic and Reconstructive Surgery. This is exactly what the editors of Plastic and reconstructive surgery Approaches and Techniques set out to achieve in producing this excellent textbook. It is truly an international effort at all levels as the editors from Australia Ross D Farhadieh, the UK Neil W Bulstrode and Canada Sabrina Cugno have joined forces to recruit over 130 international contributors and produce a resource of over 1100 pages that provides a well organized and thorough yet succinct text of the essentials of current plastic surgery. Many of the contributors are world renowned experts; however, there is also a new generation of young rising stars whose contributions are equally good, providing a new fresh and contemporary feel from the Foreword by Julian J Pribaz, Professor of Surgery, Harvard Medical School.
