PROVEN METHODS And Strategies To Winning WORLD Series Texas HOLD'em Poker Tournament

The beginning When playing Texas Hold'em poker every player is dealt two cards face down these are called your hole cards Then there is a round of betting where you can Check Bet or Fold This stage of the game is known as pre flop and what you should do is dependent on those hole cards or starting hand When all the betting has finished three shared cards are dealt face up in the middle of the table This is called the flop The flop The middle After this there is another round of betting then a fourth shared card called the turn is dealt The turn There is another round of betting then a final shared card called the river and a final round of betting The river Your best Texas Hold'em hands will be made by using your hole cards and the five cards in the middle to make the best possible five card poker hand Not sure what the best Texas Hold'em poker hands are You can visit the poker hand rankings page for more information So for example if you have 9 9 and the shared cards are 9 9 A 5 2 you have four of a kind If the shared cards were J Q K 7 2 you would only have two nines Sometimes the best texas hold em hand is made by the five shared cards on their own If they were 10 10 10 10 A and you had 9 9 your hole cards would not play as there is a four of a kind of higher value already showing The end There are two ways a hand can end One is when the players in a hand turn over their hole cards and the player with the best hand wins This is known as a showdown The other is that someone will bet enough that everyone else folds This is how most hands end in Texas Hold'em and that's the magic of the game you don't always need the best hand to win Now let's recap Okay let's go over how a Texas Hold'em poker hand works using only poker slang and see if you can keep up Firstly you are dealt your hole cards Then there is a round of betting Then the players remaining see a flop Then there is another round of betting Then you see a turn card Then another round of betting Then a final river card Then one more round of betting The best five card hand wins Clear Excellent If not have a read of our Poker Glossary Comfortable with the rules so far Ok Then Here's a few Tips To be a truly great Texas Hold'em Poker player you need to be able to read your opponents ascertaining when they are bluffing and then they really have a solid hand But learning some basic strategies and general rules will go a long way toward making sure you can at least hold your own in a friendly game Two Things to Always Remember It may seem silly to be reminded of the following fundamental facts but it's surprising how often players get swept up in the excitement of the game and forget the basics 1 The two cards you hold are the only cards that set you apart from the other players and give you the chance to win 2 All of the face up cards are

community cards shared by you and every other player It s vital that you focus on what those cards could mean to someone else at least as much as you focus on what they mean to you In particular keep your eyes open for your opponents straight and flush possibilities Usually the first decision you make in a hand of Texas Hold Em Poker happens with your only knowledge being what your two cards are When you look at your cards be careful not to reveal anything with your reaction facial or otherwise Taking a sharp breath no matter how quietly you do it can tell a wily opponent all he needs to know to have an advantage over you How do you know if your cards are good Tags Tags Texas HOLDEM Poker Solitaire Gambling Blackjack Card Games Frontier Gambling G.
