Rhetorical Analysis Douglas Mark Ponton, 2020-04-02 This book builds on the consolidated research field of Political Discourse Analysis and attempts to provide an introduction suitable for adoption amongst a readership wishing to understand some of the principles underlying such research and above all to appreciate how the tools of discourse analysis might be applied to actual texts It summarises some of the work that has been done in this field by authorities such as Halliday Fairclough Wodak Chilton Van Dijk Martin Van Leeuwen and others to provide the would be analyst with practical ideas for their own research Naturally this would not be the first time that such a handbook or introductory reference book has been proposed Fairclough himself recently produced one however his work simply entitled Political Discourse Analysis inevitably includes theoretical insights from his own research The beginning analyst can at times experience a sense of bewilderment at the mass of theoretical writing in linguistics in the search for some practical usable tools I explain a variety of such tools demonstrating their usefulness in application to the analysis of a number of political speeches from different historical periods and diverse social contexts The author's hope is that would be students of political rhetoric of whatever level and from a variety of research areas will be able to pick up this book and find tools and techniques that will assist them in actual work on texts Naturally it is also hoped that they will be inspired to follow up the suggestions for further reading which they will find in the bibliography

Political Language and Metaphor Terrell Carver, Jernej Pikalo, 2008-03-04 Until a century ago a metaphor was just a mere figure of speech but since the development of discourse analysis a metaphor has become more than merely incidental to the content of the arguments or findings Students and scholars in political studies know the importance of metaphors in electoral and policy related politics coming across metaphors that are knowingly or unknowingly influencing our perception of politics This book is the first to develop new methodological approaches to understand and analyse the use of metaphor in political science and international relations It does this by Combining theory with case studies in order to advance substantive work in politics and international relations that focuses on metaphor Expands the range of empirical case studies that employ this category descriptively and also in explanatory logic Advances research that investigates the role of metaphor in empirical and discourse based methodologies thus building on results from other disciplines notably linguistics and hermeneutic philosophy This innovative study will be of interest to students and researchers of politics international relations and communication studies
