**The Politics Of Oil-producer Cooperation** Dag Harald Claes, 2018-05-04 The Politics of Oil Producer Cooperation is a comprehensive study of the behavior of political actors in the international oil market since 1971 In this study Dag Harald Claes seeks to answer the question of what determines the cooperative behavior among oil producing countries and he also shows the benefits of approaching an empirical topic from several levels of analysis Claes provides a case study demonstrating the problems of collective action in international politics and he discusses multi level approaches in studies of international relations and international political economy Language, Politics and Identity in Taiwan Hui-Ching Chang, Richard Holt, 2014-11-20 Following the move by Chiang Kai shek and the Chinese Nationalist Party Kuomintang KMT to Taiwan after losing the Chinese civil war to the Chinese Communist Party CCP in the late 1940s and Chiang s subsequent lifelong vow to reclaim the mainland China has occupied if not monopolized the gaze of Taiwan where its projected images are reflected Whether mirror image shadow or ideal contrast China has been and will continue to be a key reference point in Taiwan s convoluted effort to find its identity Language Politics and Identity in Taiwan traces the intertwined paths of five sets of names Taiwan has used to name China since the KMT came to Taiwan in 1949 the derogatory Communist bandits the ideologically focused Chinese Communists the seemingly neutral geographical designators mainland and opposite shore both shores and the ethnic and national label China with the official designation People s Republic of China In doing so it explores how Taiwanese identities are constituted and reconstituted in the shifting and switching of names for China in the application of these names to alternative domains of Taiwanese life in the waning or waxing of names following tides of history and polity and in the increasingly contested meaning of names Through textual analyses of historical archives and other mediated texts and artifacts the chapters chart Taiwan s identity negotiation over the past half century and critically evaluate key interconnections between language and politics This unique book will be of great interest to students and scholars of Taiwan studies Chinese politics communication studies and linguistics Marketing and Semiotics Jean Umiker-Sebeok, 2012-10-25 No detailed description available for Marketing and Semiotics The Anthropology of Organisations Alberto Corsin Jimenez, 2017-05-15 The Anthropology of Organisations offers a critical overview of the work that for over sixty years anthropologists have been carrying out in and on organisations and of the contribution that this work has made to social theory at large Moving beyond earlier preoccupations with culture and relationality the volume brings together a selection of classic and contemporary articles that cast new light on the relevance of ethnography for organisational and social theory It offers an indispensable resource for students and scholars interested in the politics behind the institutionalisation of social life **Consciousness and inquiry** Frank Manning, 1983-01-01 The papers in this volume were prepared for Consciousness and Inquiry a conference jointly sponsored by the National Museum of Man and the

**The Irish Language in Northern Ireland** Camille C. O'Reilly, 2016-07-27 A topical and authoritative investigation of the Irish language and identity in Northern Ireland The phrase our own language has come to symbolize the importance of the Irish language to Irish identity for many Nationalists in Northern Ireland However different interests compete to have their version of the meaning and importance of the Irish language accepted This book investigates the role of the Irish language movement in the social construction of competing versions of Irish political and cultural identity in Northern Ireland arguing that for some Nationalists the Irish language has become an alternative point of political access and expression

The Meeting H.B. Schwartzman, 2013-06-29 In writing this book I discovered that everyone I talked to had his or her own theory about meetings and yet there is no theory of meetings in the research literature This makes writing about this subject both exciting and hazardous It is always exciting to examine the significance of something that has been ignored but it is hazardous to write about something that everyone already thinks they understand Without recourse to the legitimacy of a research tradition readers are likely to evaluate this study based on their own theory I have tried to take this into account by discussing what might be referred to as American folk theory about meetings see particularly Chapter 3 and also by juxtaposing my own research in an American organization with research in traditional or non Western societies as conducted by anthropologists This juxtaposition throws into relief some of the important differences as well as similarities in views of meetings as well as the form of meetings across cultures It is also the only way that I know to examine how and when one's cultural context is affecting one's theoretical constructions If this book is successful it will challenge what I believe is the most common interpretation of meetings found in American society that is that meetings are a blank slate phenomenon useful as a tool for such functions as making decisions solving problems and resolving conflicts but having no impact on behavior in and of themselves

**Fascism and Neofascism** E. Weitz,A. Fenner,2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day Fascism and Neofascism is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right Fascism and Neofascism spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic

*Masking Terror* Alex Argenti-Pillen,2013-07-17 In Sri Lanka staggering numbers of young men were killed fighting in the armed forces against Tamil separatists The war became one of attrition year after year waves of young foot soldiers were sent to almost certain death in a war so bloody that the very names of the most famous battle scenes still fill people with horror Alex Argenti Pillen describes the social fabric of a rural community that has become a breeding ground and reservoir of soldiers for the Sri Lankan nation state arguing that this reservoir has been created on the basis of a culture of poverty and terror Focusing on the involvement of the pseudonymous village of Udahenagama in the atrocities of the civil war of the late 1980s and the interethnic war against the Tamil guerrillas *Masking Terror* describes the response of women in the rural slums of southern Sri Lanka to the further spread of violence To reconstruct the violent backgrounds of these soldiers she presents the stories of their mothers sisters wives and grandmothers providing a perspective on the conflict between Sinhalese and Tamil populations not found elsewhere In addition to interpreting the impact of high levels of violence on a small community Argenti Pillen questions the effects of trauma counseling services brought by the international humanitarian community into war torn non Western cultural contexts Her study shows how Euro American methods for dealing with traumatized survivors poses a threat to the culture specific methods local women use to contain violence *Masking Terror* provides a sobering introduction to the difficulties and methodological problems field researchers social scientists human rights activists and mental health workers face in working with victims and perpetrators of ethnic and political violence and large scale civil war The narratives of the women from Udahenagama provide necessary insight into how survivors of wartime atrocities reconstruct their communicative worlds and

disrupt the cycle of violence in ways that may be foreign to Euro American professionals      **Muslim Rebels** Jeffrey T. Kenney, 2006-10-12 The Kharijites were the first sectarian movement in Islamic history a rebellious splinter group that separated itself from mainstream Muslim society and set about creating through violence an ideal community of the saved Their influence in the political and theological life of the nascent faith has ensured their place in both critical and religious accounts of early Islamic history Based on the image of sect fostered by the Islamic tradition the name Kharijite defines a Muslim as an overly pious zealot whose ideas and actions lie beyond the pale of normative Islam After a brief look at Kharijite origins and the traditional image of these early rebels this book focuses on references to the Kharijites in Egypt from the 1950s to the 1990s Jeffrey T Kenney shows how the traditional image of the Kharijites was reawakened to address the problem of radical Islamist opposition movements The Kharijites came to play a central role in the rhetoric of both religious authorities whose official role it is to interpret Islam for the masses and the secular state which cynically turns to Islamic ideas and symbols to defend its legitimacy Even those Islamists who defend militant tactics and who are themselves tainted by the Kharijite label become participants in the discourse surrounding Kharijism Although all Egyptians agree that modern Kharijites represent a dangerous threat to society serious debates have arisen about the underlying social political and economic problems that lead Muslims down this destructive path Kenney examines these debates and what they reveal about Egyptian attitudes toward Islamist violence and its impact on their nation Long before 9 11 Egyptians have been dealing with the problem of Islamist violence frequently evoking the Kharijites This book represents an important contribution to Islamic studies and Middle East studies adding to our understanding of how the Islamic past shapes the present discourse surrounding Islamist violence in one Muslim society      *Speaking for the Chief* Kwesi Yankah, 1995-06-22 offers readers profound insights and useful information on the power of the word in African societies Research in African Literatures I would recommend *Speaking for the Chief* not only to students of West African culture by whom it should be greatly welcomed but also to anyone interested in issues surrounding specific genres of discourse in relation to cultural organization Journal of American Folklore Drawing on the interdisciplinary modes of sociolinguistics political anthropology and the ethnography of speech Yankah allows the reader to hear a little known and even less studied voice integral to Akan chiefly power This book deserves the serious attention of Akan and Africanist scholars alike Choice an unprecedented opportunity to understand West African oratory from the point of view of a native Akan speaker who is also a gifted linguist and ethnographer Yankah shows with elegance the connections between verbal strategies and the cultural organization of West African social systems Alessandro Duranti This study is clearly important in ethnographic terms But it equally throws new light on more general aspects of verbal and political processes will stimulate both specialists and students far beyond the confines of its specific ethnographic setting American Anthropologist an immensely valuable book which deserves a wide and appreciative readership Journal of African History      **Nationalist Exclusion and Ethnic Conflict** Andreas

Wimmer,2002-06-06 Andreas Wimmer argues that nationalist and ethnic politics have shaped modern societies to a far greater extent than has been acknowledged by social scientists The modern state governs in the name of a people defined in ethnic and national terms Democratic participation equality before the law and protection from arbitrary violence were offered only to the ethnic group in a privileged relationship with the emerging nation state Depending on circumstances the dynamics of exclusion took on different forms Where nation building was successful immigrants and ethnic minorities are excluded from full participation they risk being targets of xenophobia and racism In weaker states political closure proceeded along ethnic rather than national lines and leads to corresponding forms of conflict and violence In chapters on Mexico Iraq and Switzerland Wimmer provides extended case studies that support and contextualise this argument Heroes of the Age David B. Edwards,1996-10-02 Edwards contends that Afghanistan s troubles derive less from foreign forces and the ideological divisions between groups than they do from the moral incoherence of Afghanistan itself **Anthropology and Political Science** Myron J. Aronoff,Jan Kubik,2013 What can anthropology and political science learn from each other The authors argue that collaboration particularly in the area of concepts and methodologies is tremendously beneficial for both disciplines though they also deal with some troubling aspects of the relationship Focusing on the influence of anthropology on political science the book examines the basic assumptions the practitioners of each discipline make about the nature of social and political reality compares some of the key concepts each field employs and provides an extensive review of the basic methods of research that bridge both disciplines ethnography and case study Through ethnography participant observation reliance on extended case studies and the use of anthropological concepts and sensibilities a greater understanding of some of the most challenging issues of the day can be gained For example political anthropology challenges the illusion of the autonomy of the political assumed by political science to characterize so called modern societies Several chapters include a cross disciplinary analysis of key concepts and issues political culture political ritual the politics of collective identity democratization in divided societies conflict resolution civil society and the politics of post Communist transformations **Bureaucrats and Bleeding Hearts** Tess Lea,2008 This is an anthropological study of the culture of public health governance in the Northern Territory of Australia It asks what it takes to become a helping white bureau professional in Australias post colonial frontier someone who passionately cares about and resolutely strives toward improved health for Indigenous people and how their determination to help is sustained in the face of a self declared history of failure Provided by publisher **Disorderly Discourse** Charles L. Briggs,1996 This volume contains eight essays that are at the intersection of two important areas within linguistics conversational analysis and the use of narrative in the creation mediation and resolution of conflict The contributors e plore these issues in a variety of cultures and languages *Symbolic Immortality* Sergei Kan,2015-12-01 Decades after its initial publication Symbolic Immortality retains its status as the most comprehensive analysis of the mortuary practices of the Tlingit Indians of southeastern Alaska or any other indigenous

culture of the Northwest Coast This updated and expanded edition furthers our understanding of the potlatch koo ex as a total social phenomenon with emotional and religious as well as economic and sociopolitical dimensions The result is a major contribution to both Northwest Coast ethnology and theoretical literature on the anthropology of death
