Gutterman, 2006 What are the relationships among religion politics and narratives What makes prophetic

political narratives congenial or hostile to democratic political life David S Gutterman explores the prophetic politics of four twentieth and twenty first century American Christian social movements the Reverend Billy Sunday and his vision of muscular Christianity Dr Martin Luther King Ir and the Civil Rights movement the conservative Christian male organization Promise Keepers and the progressive antipoverty organization Call to Renewal Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States In the process he examines issues about the tense and intricate relationship between religion and politics Jacket Chinua Achebe and the Politics of Narration Thomas Jay Lynn, 2017-07-18 This book examines vital intersections of narration linguistic innovation and political insight that distinguish Chinua Achebe s fiction as well as his non fiction commentaries Each chapter focuses on a different aspect of these intersections Achebe s narrative response to Western authors who have written on Africa his integration of Igbo folklore the political implications of writing African literature in English his use of Nigerian Pidgin and the Nigerian Civil War It also addresses the teaching of Achebe s works Achebe drew on diverse resources to offer searching psychological and political insights that contribute not only a decidedly African political viewpoint to the modern novel but also a more inclusive narrative consciousness Achebe s adaptations of Igbo oral art are intrinsic to his writing s political engagement because they assert the integrity and authority of the African voice in a global order defined by colonialism This book reveals how his work has helped to restructure a global vision of The Politics of Gratitude Mark T. Mitchell, 2012-10-31 Many Americans are longing for alternative politics rooted in Africa strong communities recognition of limits and respect for the natural world These issues are not the possession of one political party Rather they refer to ideas rooted deeply in the best aspects of our common tradition and they represent yearnings that many regardless of political affiliation share This book articulates a cultural and political vision that leads one off the couch and into the garden out of the shopping mall and into the farmers market and away from Washington in the direction of home In this postpartisan call to action political theorist Mark T Mitchell develops the concept of the politics of gratitude which revolves around four ideas creatureliness gratitude human scale and place culminating in a distinctive fruitful view of human nature and community at odds with the prevailing norms of individualism and not so paradoxically statism giantism and hypermobility Going beyond the liberal conservative factionalism that has reduced our political and cultural discourse to clichTs and vitriol he urges us to become responsible stewards of the earth who are committed to family and community and who abide in gratitude taking nothing for granted The result is a political and cultural vision that is at once local limited modest republican green and grateful **Identity, Narrative and Politics** Maureen Whitebrook, 2014-04-04 Identity Narrative and Politics argues that political theory has barely begun to develop a notion of narrative identity instead the book explores the sophisticated ideas which emerge from novels as alternative expressions of political understanding This title uses a broad international selection of Twentieth Century English language works by writers such as Nadine Gordimer and

Thomas Pynchon The book considers each novel as a source of political ideas in terms of content structure form and technique The book assumes no prior knowledge of the literature discussed and will be fascinating reading for students of literature politics and cultural studies Counterfeit Politics David Kelman, 2012-10-20 In Counterfeit Politics David Kelman reassesses the political significance of conspiracy theory Traditionally political theory has sought to banish the paranoid style from the proper domain of politics But if conspiracy theory lies outside the sphere of legitimate politics why do these narratives continue to haunt political life Counterfeit Politics accounts for the seemingly ineradicable nature of conspiracy theory by arguing that all political statements ultimately take the form of conspiracy theory Through careful readings of works by Ernest Hemingway Ricardo Piglia Thomas Pynchon Don DeLillo Jorge Luis Borges Ishmael Reed Jorge Volpi Rigoberta Mench and ngel Rama Kelman demonstrates that conspiracy narratives bear witness to an illegitimate or counterfeit secret that cannot be fully recognized understood and controlled Even though the secret is not authorized to speak this silence is nevertheless precisely what gives the secret its force Kelmangoes on to suggest that all political statements even those that do not seem paranoid are constitutively illegitimate or counterfeit since they always narrate this unresolved play of legitimacy between an official or authorized plot and an unofficial or unauthorized plot a complet In short Counterfeit Politics argues that politics only takes place as conspiracy theory **Ethics, Politics, and Anarcho-Punk Identifications** Edward Anthony Avery-Natale, 2016-03-03 This book explores the complicated negotiations of identity among punks and anarchists living in the Philadelphia Of particular significance is the book s application of theoretical approaches to subcultures youth cultures fashion ethics identification narrativity race and racism gender and sexuality and political and anarchist thought Processing Politics Doris A. Graber, 2012-07-15 How often do we hear that Americans are so ignorant about politics that their civic competence is impaired and that the media are to blame because they do a dismal job of informing the public Processing Politics shows that average Americans are far smarter than the critics believe Integrating a broad range of current research on how people learn from political science social psychology communication physiology and artificial intelligence Doris Graber shows that televised presentations at their best actually excel at transmitting information and facilitating learning She critiques current political offerings in terms of their compatibility with our learning capacities and interests and she considers the obstacles both economic and political that affect the content we receive on the air on cable or on the Internet More and more people rely on information from television and the Internet to make important decisions Processing Politics offers a sound well researched defense of these remarkably versatile media and The Day My Mother Changed Her Name and Other Stories challenges us to make them work for us in our democracy William D.
