Great Britain. Foreign Office. Library, 1972. [A Subject Index to Current Literature](#) Australian Public Affairs Information Service, **Minority Governments in Comparative Perspective** Bonnie N Field, Shane Martin, 2022-09-29. Approximately one third of parliamentary democracies are or are typically ruled by a minority government, a situation where the party or parties represented at cabinet do not between them hold a majority of seats in the national legislature. Minority governments are particularly interesting in parliamentary systems where the government is politically responsible to parliament and can be removed by it and needs majority support in the parliament to legislate. The chapters in this volume explore and analyse the formation, functioning and performance of minority governments: what we term the 'why, how and how well'. The volume begins with overviews of the concept of and puzzles surrounding minority governments in parliamentary systems and establishes the current terms of the debate. In the thirteen chapters that follow, leading country experts present in-depth case studies that provide rich contextualized analyses of minority governments in different settings. The final chapter draws broader comparative-based conclusions from the country studies that push the literature forward and outline directions for future research on minority governments.
