Politics And Protestant Theology An Interpretation Of Tillich Barth Bonhoeffer And Brunner:

Politics And Protestant Theology Rene De Visme Williamson, Craig M. Kibler, 2005 Focusing on the way in which theological concepts apply to politics this book evaluates contemporary political thought and behavior by measuring it against the ideas of four great theologians of the 20th century **Politics and Protestant Theology** Rene D.

Williamson, 1976-01-01 **Hope in Barth's Eschatology** John C. McDowell, 2017-11-22 This title was first published in 2000 Hope in Barth's Eschatology presents a critical investigation and survey of Karl Barth's writings particularly his Church Dogmatics IV 3 in order to locate the character and nature of hope within Barth's eschatology Arguing that Barth with his form of hope that refuses to shy away from the dark themes of the tragic vision could be seen to undermine certain tragic sensibilities necessary for a healthy account of hope John McDowell locates Barth within the context of larger traditions of theological thinking and influential accounts of Christian hope examining the work of Steiner MacKinnon Pannenberg Rahner Moltmann and others Addressing the relative neglect that Barth commentators have paid to eschatological themes McDowell maintains that to miss what Barth is doing in his eschatology is to seriously misunderstand Barth's broader theological sense This book offers a significant contribution to the ongoing task of understanding Barth's theology whilst developing a way of reading hope and eschatology that ultimately places some critical questions at Barth's door **Pacifism, Just War, and**

Tyrannicide David M. Gides, 2012-03-02 Dietrich Bonhoeffer's perplexing and controversial shift from admitted pacifism to tyrannicide has been the source of scholarly and popular inspiration and criticism How could an admitted Christian pacifist be involved in a plot to assassinate a political figure Is there a way to understand and explain this phenomenon comprehensive enough to encompass all relevant data One that takes into account the nuances of Bonhoeffer's theology and all of the elements of his complex historical and personal contexts This study attempts to offer an explanation by linking Bonhoeffer's political thinking and action with his understanding of the church world relationship and by evaluating the changes in that thought action dyad as his life progressed What emerges is a portrait of a bold and visionary thinker and political agent whose church world theology while discontinuous is consistent enough to be authentic and yet flexible enough to meet the extraordinary challenges presented by Nazism and its intrusion into the churches Gides suggests that it is actually Bonhoeffer's malleable church world thinking that ultimately distinguishes him from his theological and ecclesial contemporaries and even from the mass of German church persons and citizenry it allowed him to confront evil by reaching beyond the constraints of traditional Lutheran thinking *Aquinas Among the Protestants* Manfred Svensson, David

VanDrunen, 2017-09-25 *AQUINAS AMONG THE PROTESTANTS* This major new book provides an introduction to Thomas Aquinas's influence on Protestantism The editors both noted commentators on Aquinas bring together a group of influential scholars to demonstrate the ways that Anglican Lutheran and Reformed thinkers have analyzed and used Thomas through the centuries Later chapters also explore how today's Protestants might appropriate the work of Aquinas to address a

number of contemporary theological and philosophical issues The authors set the record straight and disavow the widespread impression that Aquinas is an irrelevant figure for the history of Protestant thought This assumption has dominated not only Protestant historiography but also Roman Catholic accounts of the Reformation and Protestant intellectual life The book opens the possibility for contemporary reception engagement and critique and even intra Protestant relations and includes Information on the fruitful appropriation of Aquinas in Anglican Lutheran and Reformed theologians over the centuries Important essays from leading scholars on the teachings of Aquinas New perspectives on Thomas Aquinas s position as a towering figure in the history of Christian thought Aquinas Among the Protestants is a ground breaking and interdenominational work for students and scholars of Thomas Aquinas and theology more generally **In the Days of**

Caesar Amos Yong, 2010-09-14 In the Days of Caesar is a constructive political theology formulated in sustained dialogue with the Pentecostal and charismatic renewal one of the most vibrant religious movements at the beginning of the twenty first century Amos Yong here argues that the many tongues practices and gifts of renewal Christianity offer up new resources for thinking about how Christian community can engage and transform the social political and economic structures of the world Yong has three goals here First he seeks to correct stereotypes of Pentecostalism both political and theological Secondly he aims to provoke Pentecostals to reflect theologically from out of the depths of their own Pentecostalism rather than merely to adopt some framework for theological or political self understanding Finally Yong shows that a distinctively Pentecostal form of theological reflection is not a parochial activity but has constructive potential to illuminate Christian belief and practice This book s engagement with political theology from a Pentecostal perspective is the first of its kind

Anthropomorphic Depictions of God Zulfiqar Ali Shah, 2012-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths as viewed through the texts of the Hebrew Bible the New Testament and the Qur an Throughout history Christianity and Judaism have tried to make sense of God While juxtaposing the Islamic position against this the author addresses the Judeo Christian worldview and how each has chosen to framework its encounter with God to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and absorption of Hellenistic philosophy Shah also examines Islam s heavily anti anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism As secularism debates whether God is dead the issue of anthropomorphism has become of immense importance The quest for God especially in this day and age is partly one of intellectual longing To Shah anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre modern

anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what God is and represents causing the soul to detract from a sense of the sacred and thereby belief in Him *Beyond "Holy Wars"* Christoffer H.

Grundmann,2014-04-23 The 9 11 al Qaeda attacks on the U S in 2001 shocked the world not only because of their viciousness but also because of the disillusionment that holy wars are a phenomenon of the past Holy wars rather are a reality in today s world too threatening global peace like never before In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interregligious dialogue First he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate the religiously embedded primarily Jewish philosophy of encounter and dialogical thinking with its personalistic nature comes into focus here as uniquely suited for such communication Even though interreligious encounter implies risk Christians cannot but engage in it fearlessly says Grundmann because they trust that the risen Christ will reveal himself anew as the one he really is wherever and whenever Christians take part in dialogue with people of other faiths **Catalog**

The University Bookman, a Quarterly Review ,1975 **Creation, Eschaton, and Ethics** Douglas James Schuurman,1991 This incisive study concerns the ways in which theological claims about creation s original and final perfection shape social ethics Schuurman argues that prominent 20th century theologians Emil Brunner and Jurgen Moltmann wrongly envision the eschaton as radically discontinuous with creation and that this discontinuity coheres with serious inadequacies in their social ethics His thesis is that continuity between creation and eschaton is necessary if Christian social ethics is to avoid dualistic understandings of love and justice personal and impersonal values church and world revolutionism and conservatism Schuurman establishes theological groundwork for a social ethic that calls for

continuous transformation of social institutions and structures

The Confessing Church, Conservative Elites, and the Nazi State Shelley Baranowski, 1986 Examines the close relationship between aristocratic Prussian landowners and the leadership of the Confessing Church and shows the limits of German conservative elite opposition to Nazism. It contends that the opposition of the Confessing Church to the Nazi regime was highly ambiguous and argues that the so-called church struggle was but a special case of class struggle.

The Church and Secularisation Michael S. Northcott, 1989 Secularist theologies and new patterns of urban ministry and mission were major features of the response of the church to secularisation in the nineteen sixties. Michael Northcott describes the development of industrial mission and urban ministry in two major conurbations, Sunderland and Teesside in the North East of England. The book explores the interaction of theologies of the secular with the ideologies and ministry structures of the Church of England and the effects of secularisation on traditional ministry structures and religious affiliation. A significant case study of the relationship between ideologies of ministry and mission and the structures of the church in urban society, the book also examines the secularisation thesis, the social witness of the church, and the contemporary dialogue between sociology and theology.

Church and State in Historical Perspective James E. Wood, 2005-05-30 The subject of church and state is one intimately associated with the history of Christianity and Western civilization. However, the subject is one that is by no means limited to any one religious tradition, civilization, or period of history. Rather, it is a subject that has historical and universal significance to all cultures and religious traditions throughout the world. It is simply undeniable that religion has been and remains a powerful force in the making and shaping of cultures, civilizations, nations, and empires. For this reason, this volume addresses the broader perspectives of religion and the state in the ancient world as well as in the biblical world of Judaism and Christianity and in other religious traditions than Christianity. Attention is given to general works on church and state that treat the subject broadly, not limited to any particular nation, religious tradition, or single aspect of church-state relations. Additionally, there is material on major topics integrally related to church and state such as civil disobedience, civil religion, liberation theology, patriotism, and nationalism. Finally, sources are included on religion in international affairs and interfaith relations, both necessarily linked to the subject of church and state as well as religion and the economic order, religion and human rights, and the effect of religion on war and peace.

Faces in the Clouds Stewart Elliott Guthrie, 1995-04-06 Religion is universal human culture. No phenomenon is more widely shared or more intensely studied, yet there is no agreement on what religion is. Now, in *Faces in the Clouds*, anthropologist Stewart Guthrie provides a provocative definition of religion in a bold and persuasive new theory. Guthrie says religion can best be understood as systematic anthropomorphism, that is, the attribution of human characteristics to nonhuman things and events. Many writers see anthropomorphism as common or even universal in religion, but few think it is central. To Guthrie, however, it is fundamental. Religion, he writes, consists of seeing the world as humanlike.

As Guthrie shows people find a wide range of humanlike beings plausible Gods spirits abominable snowmen HAL the computer Chiquita Banana We find messages in random events such as earthquakes weather and traffic accidents We say a fire rages a storm wreaks vengeance and waters lie still Guthrie says that our tendency to find human characteristics in the nonhuman world stems from a deep seated perceptual strategy in the face of pervasive if mostly unconscious uncertainty about what we see we bet on the most meaningful interpretation we can If we are in the woods and see a dark shape that might be a bear or a boulder for example it is good policy to think it is a bear If we are mistaken we lose little and if we are right we gain much So Guthrie writes in scanning the world we always look for what most concerns us livings things and especially human ones Even animals watch for human attributes as when birds avoid scarecrows In short we all follow the principle better safe than sorry Marshalling a wealth of evidence from anthropology cognitive science philosophy theology advertising literature art and animal behavior Guthrie offers a fascinating array of examples to show how this perceptual strategy pervades secular life and how it characterizes religious experience Challenging the very foundations of religion Faces in the Clouds forces us to take a new look at this fundamental element of human life *The Academic Reviewer*, 1977
