Politics And Society In Early Modern Iraq:

Politics and Society in Early Modern Iraq T. Nieuwenhuis, 2012-12-06 1 This study deals with the Mamliik period in Iraqi history 1750 1831 and more particularly with later Mamliik times 1802 1831 The year 1831 marks the watershed between an era of local rule and one of restored Turkish centralization During the Mamliik period the influence of external powers in Iraq was not excessive after that year direct Turkish rule coincided with growing British influence which increasingly opened the country to the forces of the world market As an object of study the period of local rule is interesting particularly because it formed the background to and in some aspects also the start of the modern history of Iraq The literature available on Mamliik rule and tribal power is scarce and unsatisfying in various ways The best history of Ottoman Iraq is still that of Longrigg which was written in the 1920 s However although based on an admirable range of sources it provides the reader with little more than a political chronology Generally the social and political historian of early modern Iraq is confronted with a lack of information of a very basic kind if indeed he can find any relevant information For example there is hardly any information on the Mamliik institution Only the most scanty evidence exists on the history of the Yanissaris of Baghdad or on the socio political history of the lower orders of the town Again almost nothing is known about the lower orders of the sedentary rural world *The Politics of Regional Trade in Iraq, Arabia, and the Gulf, 1745-1900* Hala Fattah, 1997-06-05 This history of trade in Iraq Arabia and the Gulf basin over the course of 150 years establishes the interconnectedness of the Gulf region by charting the regional ties that bound disparate districts together through long distance trade networks Hala Fattah redraws the parameters of the history of this area tracing the social history of the regional market from its beginnings to its last ditch efforts to stand up to the onslaught of superior firepower more efficient technology and the inexorable rise of the world market *The Sassoons* Joseph Sassoon, 2025-08-12 A spectacular generational saga of the making and undoing of a family dynasty the riveting untold story of the gilded Jewish Bagdadi Sassoons who built a vast empire through global finance and trade cotton opium shipping banking that reached across three continents and ultimately changed the destinies of nations With full access to rare family photographs and archives Engaging compelling well paced and supremely satisfying The New York Times They were one of the richest families in the world for two hundred years from the 19th century to the 20th and were known as the Rothschilds of the East Mesopotamian in origin and for more than forty years the chief treasurers to the pashas of Baghdad and Basra they were forced to flee to Bushir on the Persian Gulf David Sassoon and sons starting over with nothing and beginning to trade in India in cotton and opium The Sassoons soon were building textile mills and factories and setting up branches in shipping in China and expanding beyond to Japan and further west to Paris and London They became members of British parliament were knighted and owned and edited Britain's leading newspapers including The Sunday Times and The Observer And in 1887 the exalted dynasty of Sassoon joined forces with the banking empire of Rothschild and were soon joined by marriage fusing together two of the

biggest Jewish commerce and banking families in the world Against the monumental canvas of two centuries of the Ottoman Empire and the changing face of the Far East across Europe and Great Britain during the time of its farthest reach Joseph Sassoosoon gives us a riveting generational saga of the making of this magnificent family dynasty

Minorities and the Modern Arab World Laura Robson,2016-05-18 In the wake of recent upheavals across the Arab world a simplistic media portrayal of the region as essentially homogenous has given way to a new though equally shallow portrayal casting it as deeply divided along ethnic linguistic and religious lines The essays gathered in Minorities and the Modern Arab World seek to challenge this representation with a nuanced exploration of the ways in which ethnic religious and linguistic commitments have intersected to create minority communities in the modern era Bringing together the fields of history political science anthropology sociology and linguistics contributors provide fresh analyses of the construction and evolution of minority identities around the region They examine how the category of minority became meaningful only with the rise of the modern nation state and find that Middle Eastern minority nationalisms owe much of their modern self definition to developments within diaspora populations and other transnational frameworks The first volume to upend the conceptual frame of reference for studying Middle Eastern minority communities in nearly two decades Minorities and the Modern Arab World represents a major intervention in modern Middle East studies

The Making of the Modern Near East 1792-1923 Malcolm Yapp,2014-01-09 This clear and authoritative text surveys the history of the region from the collapse of the Ottoman Empire to the present day It contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp s new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990 91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east

Historical Dictionary of Iraq Beth K. Dougherty,Edmund A. Ghareeb,2013-11-07 The Historical Dictionary of Iraq Second Edition covers the history of Iraq through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Iraq

The Spaces of the Modern City Gyan Prakash,Kevin M. Kruse,2021-06-08 By United Nations estimates 60 percent of the world s population will be urban by 2030 With the increasing speed of urbanization especially in the developing world scholars are now rethinking standard concepts and histories of modern cities The Spaces of the Modern City historicizes the contemporary discussion of urbanism highlighting the local and global breadth of the city landscape This interdisciplinary collection examines how the city develops in the interactions of space and imagination The essays focus on issues such as street design in Vienna the motion picture industry in Los Angeles architecture in Marseilles and Algiers and the kaleidoscopic paradox of post apartheid

Johannesburg They explore the nature of spatial politics examining the disparate worlds of eighteenth century Baghdad nineteenth century Morelia Cold War era West Berlin and postwar Los Angeles They also show the meaning of everyday spaces to urban life illuminating issues such as crime in metropolitan London youth culture in Dakar memory projects in Tokyo and Bombay cinema Informed by a range of theoretical writings this collection offers a fresh and truly global perspective on the nature of the modern city The contributors are Sheila Crane Belinda Davis Mamadou Diouf Philip J Ethington David Frisby Christina M Jim nez Dina Rizk Khoury Ranjani Mazumdar Frank Mort Martin Murray Jordan Sand and Sarah Schrank

Southern Iraq's Marshes Laith A. Jawad, 2021-05-06 The Mesopotamian marshes are important for economic social and biodiversity values and have been home to indigenous human communities for millennia They are regarded as a legendary site This multi authored book contains chapters written by world renowned experts in their field Both basic and applied information are made available making the book a must have for a wide spectrum of users For example an understanding of the natural and the social aspects of the marshes as described here is an obvious prerequisite for a pest management plan in this area Scholars interested in wetlands can use this book as a guide to compare different wetlands areas in Asia The bibliography section contains valuable references to the marsh areas and research in the field This book serves as an up to date comprehensive source of information on different aspects of the southern marshes of Iraq and is aimed at academic scholars environmentalists and decision makers

The Shi'is of Iraq Yitzhak Nakash, 2018-06-26 The Shi is of Iraq provides a comprehensive history of Iraq s majority group and its turbulent relations with the ruling Sunni minority Yitzhak Nakash challenges the widely held belief that Shi i society and politics in Iraq are a reflection of Iranian Shi ism pointing to the strong Arab attributes of Iraqi Shi ism He contends that behind the power struggle in Iraq between Arab Sunnis and Shi is there exist two sectarian groups that are quite similar The tension fueling the sectarian problem between Sunnis and Shi is is political rather than ethnic or cultural and it reflects the competition of the two groups over the right to rule and to define the meaning of nationalism in Iraq A new introduction brings this book into the new century and illuminates the role that Shi is could play in postwar Iraq

Rivers of the Sultan Faisal Husain, 2021 In the early sixteenth century a series of military campaigns between the Mediterranean Sea and Persian Gulf brought the entirety of the Tigris and Euphrates rivers under Ottoman control This book offers a history of this rare political unification of the longest rivers in West Asia and its impact on the Ottoman state provincial society and the environment

Historical Dictionary of Iraq Edmund A. Ghareeb, Beth Dougherty, 2004-03-18 Iraq the land of Hamurabi and Harun al Rashid has played a long and unique role in the history of human civilization The oldest civilization known to man evolved on the shores of its twin rivers the Tigris and the Euphrates The great cities of antiquity Uruk Ur Akkad Babylon Basra Mawsil and Baghdad were major centers of high culture and political power for much of the course of human history This reference begins with the earliest civilizations and covers the many periods that followed ranging from the history of ancient Mesopotamia to the Abbasid

Empire to present day Iraq Included are a historical overview a country profile a review of the economy oil fauna and political institution coverage of the Iran Iraq War and coverage of the Kuwait invasion and the second Gulf War and other conflicts The major ethnic groups such as the Kurds the Turkumans and the Assyrians Islam and Muslim sects Christianity and Christian sects as well as other religious groups are profiled Dictionary entries also highlight the main political religious and ideological parties groups and organizations major historical personalities languages literature and cultural elements A broad range of topics both ancient and modern are dealt with throughout the introduction and the dictionary and a comprehensive bibliography complements this extensive historical reference *Democracy in Iraq* Benjamin

Isakhan,2016-05-13 This book proposes a significant reassessment of the history of Iraq documenting democratic experiences from ancient Mesopotamia through to the US occupation Such an analysis takes to task claims that the West has a uniquely democratic history and a responsibility to spread democracy across the world It also reveals that Iraq has a democratic history all of its own from ancient Middle Eastern assemblies and classical Islamic theology and philosophy through to the myriad political parties newspapers and protest movements of more recent times This book argues that the democratic history of Iraq could serve as a powerful political and discursive tool where the Iraqi people may come to feel a sense of ownership over democracy and take pride in endorsing it This could go a long way towards mitigating the current conflicts across the nation and in stabilizing and legitimating its troubled democracy Taking an interdisciplinary approach and referring to some of the most influential critical theorists to question ideological assumptions about democracy and its history this book is useful to those interested in political and legal history human rights and democracy **Iraq's Sunni**

India and the Islamic Heartlands Gagan D. S. Sood,2016-03-29 Based on the chance survival of a remarkable cache of documents India and the Islamic Heartlands recaptures a vanished and forgotten world from the eighteenth century spanning much of today s Middle East and South Asia Gagan D S Sood focuses on ordinary people traders pilgrims bankers clerics brokers and scribes among others who were engaged in activities marked by large distances and long silences By elucidating their everyday lives in a range of settings from the family household to the polity at large Sood pieces together the connective tissue of a world that lay beyond the sovereign purview Recapturing this obscured and neglected world helps us better understand the region during a pivotal moment in its history and offers new answers to old questions concerning early modern Eurasia and its transition to colonialism *Ottoman Land Reform in the Province of Baghdad* Keiko

Kiyotaki,2019-05-15 In *Ottoman Land Reform in the Province of Baghdad* Keiko Kiyotaki traces the Ottoman reforms of tax farming and land tenure and establishes that their effects were the key ingredients of agricultural progress These modernizing reforms are shown to be effective because they were compatible with local customs and tribal traditions which the Ottoman governors worked to preserve Ottoman rule in Iraq has previously been considered oppressive and blamed with

failure to develop the country Since the British mandate government's land and tax policies were little examined the Ottoman legacy has been left unidentified This book proves that Ottoman land reforms led to increases in agricultural production and tax revenue while the hasty reforms enacted by the mandate government ignoring indigenous customs caused new agricultural and land problems *Islamic Societies to the Nineteenth Century* Ira M. Lapidus, 2012-10-22 First published in 1988 Ira Lapidus *A History of Islamic Societies* has become a classic in the field enlightening students scholars and others with a thirst for knowledge about one of the world's great civilizations This book based on fully revised and updated parts one and two of this monumental work describes the transformations of Islamic societies from their beginning in the seventh century through their diffusion across the globe into the challenges of the nineteenth century The story focuses on the organization of families and tribes religious groups and states showing how they were transformed by their interactions with other religious and political communities The book concludes with the European commercial and imperial interventions that initiated a new set of transformations in the Islamic world and the onset of the modern era Organized in narrative sections for the history of each major region with innovative analytic summary introductions and conclusions this book is a unique endeavour The Ottoman Administration of Iraq, 1890-1908 Gökhan Çetinsaya, 2006-09-07 This is a study of the nature of Ottoman administration under Sultan Abdulhamid and the effects of this on the three provinces that were to form the modern state of Iraq The author provides a general commentary on the late Ottoman provincial administration and a comprehensive picture of the nature of its interaction with provincial society In drawing on sources of the Ottoman archives bringing together and analyzing an abundance of complex documents this book is a fascinating contribution to the field of Middle Eastern studies The Caliphate at War Ahmed Hashim, 2018-02-01 ISIS's astonishing and unexpected military victories in 2014 and 2015 redrew the geopolitical map of the Middle East Media attention focused on the organisation's savage treatment of its enemies and its ability to attract foreign fighters but as this dispassionate book demonstrates it also made important innovations in strategy ideology and governance Ahmed S Hashim argues that by focusing their ideology first and foremost on extreme anti Shia sectarianism rather than on Western infidels ISIS founders were able to present themselves as the saviours of what they saw as the embattled Sunni nation in Iraq This enabled them to win the support of Sunni communities Moreover ISIS stunning ability to take major cities was a result of its innovative tactics It sowed terror in advance of its attacks by using targeted assassinations to kill key city leaders and its decentralised regional command structure facilitated an unusual degree of coordination between small assault units At the same time the organisation made a serious effort to engage in state building and population control By going beyond the often starkly unpleasant current affairs of the Islamic State *The Caliphate at War* undertakes an essential investigation into the successes of the group to better understand how the movement has survived thrived and reshaped the Middle East **The Colonial and Postcolonial Middle East** Bailey Maxim, 2016-12-15 *A History of Islamic Societies* Ira M. Lapidus, 2002-08-22 Ira Lapidus classic

history of the origins and evolution of Muslim societies revised and updated for this second edition first published in 2002
