**Democratic Philosophy and the Politics of Knowledge** Richard T. Peterson, 2010-11-01      **The Politics of Aid** Lindsay Whitfield, 2009 The volume examines negotiations between rich countries and African governments over what should happen with money given as aid Describing the history of aid talks the volume presents eight studies of the strategies of negotiation tried by particular African countries      *Archaeological Theory and the Politics of Cultural Heritage* Laurajane Smith, 2004-08-02 This is a much needed survey of how relationships between indigenous peoples and the archaeological establishment have got into difficulties and a pointer towards how things could move forward      **Derrida, Responsibility and Politics** Morag Patrick, 2018-10-26 Published in 1997 Jacques Derrida's deconstructive method or deconstructionism is renowned as a species of anarchic free play an antifoundationalism which can only end in a ruinous irrationalism and thereby the denial of all possibility of discrimination or judgement In this book Morag Patrick argues that far from having abandoned critique Derrida's questioning of Western metaphysics responds to an ethical injunction to a duty to recall the necessary incalculability of moral and political responsibility In the first part of the study Patrick examines the philosophical background to and the basic features of deconstruction Derrida is located in a tradition of thinkers for whom the question of the possibility of philosophy is fundamental The deconstructive endeavour is then explained as an attempt to secure a question that would further and transform thinking a question that would no longer be philosophy's question Patrick maintains that Derrida's strategy to this end is not anarchic but rather adheres to strict protocols of reading Subsequently the ethical and political implications of this manner of reading are pursued It is shown that if Derrida undermines the certainty with which we may assume moral and political responsibilities if he establishes the essential excessiveness of responsibility he does so in order to effect judgement and not to annul it      **Making of an African Giant** Dan Mou, 2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that such character defects may indeed exist in some of Nigerian leaders However these are not the main reasons for their dismal performance regarding the welfare of the citizens The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groups local and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensify Nigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then that Nigeria can realistically be restored to the possibility of becoming an African

Giant     The Beginning of Politics Kirsi Pauliina Kallio, Jouni Hakli, 2016-02-05 The conventional wisdom according to which children's lives should be safe from adult concerns tends to situate them categorically outside the political. Thus understood, children become political agents when they reach maturity and eligibility to formal participation. Alternatively, political skills and competences may be seen to develop gradually through political socialization. Both views are challenged in recent scholarship on youthful politics beyond the formal adult-centered political world. This book considers politics as it appears and unfolds in children and young people's everyday lives. The collection problematizes several key concepts in the research field and introduces a relational reading of youthful political agency based on social, spatial, and political theorization. The chapters engage with youthful realities in Sri Lanka, Palestine, Sweden, New Zealand, the US, and the UK, revealing a variety of ways in which children and youth are important political actors in their own right. The book also includes an extensive literary review on the study of children and young people's politics in the past decade. This book was originally published as a special issue of *Space and Polity*.

*Thailand: History, Politics and the Rule of Law* James Wise, 2019-04-15 This introductory book on Thai politics and the rule of law explains why chronically unstable Thailand struggles to mediate and adjudicate its political disputes. It focuses on the continuities between the pre-1932 and post-1932 periods. Since the shift to constitutional monarchy in 1932, the power of the monarch and military has endured, the legislature, electorate, and until recently, judiciary have been comparatively powerless, and constitutions and laws have been comparatively unimportant. Historical continuities are also evident in the persistence of hierarchical thinking and ethno-nationalism, both of which have inhibited open debates about governance. And the rule of law does not always apply owing to different principles underlying western and traditional Siamese law and the emergence of a distinctively Thai legal culture and consciousness. Thailand's governance was re-cast ambitiously in the 1890s, 1932, and 1997. Since 1997, governing Thailand and developing Thailand's economy have become harder. So political disputes have become more acute, and the absence of a national consensus on dispute settlement mechanisms more obvious. Until governance is again re-cast, Thailand's political instability and cycle of coups will continue.

**Malaysia's State Formation** Abdillah Noh, 2024-01-26 This book comes up with the Contested Leviathan Framework to describe the essence of Malaysia's political economy. The framework is developed from tracing Malaysia's political economy over approximately 157 years (1800-1957) and tested against the many issues confronting post-colonial Malaysia. Using concepts of timing, sequence, path dependence, and increasing returns, the book explains that Malaysia's political economy is the result of deep institutional processes, not a contrived act that was hatched at the point of independence. The book explains that whilst British administration made short-term rational choices, it failed to take into consideration the path-dependent nature of policy choices and their long-term unintended consequences that preserved Malaysia's terms of reference and produced autonomous communities with mutually exclusive political, economic, and social institutions. These institutional qualities made it imperative for actors at some point to embark on some form of power-sharing arrangement. Applying the

Contested Leviathan Framework the book explains that recent events the first electoral turnover in 2018 and the formation of a unity government in 2022 have done little to dismantle the character of Malaysia's political economy a state that still sees political economic and social life along ethnic imperatives driven by mutually exclusive institutions and interests A valuable read for scholars of Malaysian history and politics as well as for scholars of postcolonial state formation and public policy more broadly

**Karl Popper and Africa: Knowledge, Politics and Development** Oseni Taiwo Afisi, 2021-09-13 This book provides a diverse contextualization of Popper's critical rationalism concerning knowledge and his generalized attitude of criticism on appropriate social and political reforms in contemporary Africa The book evaluates how best to address contemporary political problems especially in politically very troubled parts of the world To address these contemporary problems especially as it relates to Africa the authors found the political philosophy of Popper as suitable The discussion of Popper's political philosophy engages us directly with all the particularities of socio economic and political problems within contemporary Africa In other words it presents the truth of the present socio political reality in Africa where the question of what kinds of political ideas and concepts can be offered as appropriate to a political environment which so greatly faces facets of developmental issues Although the issues and events that informed the writings of Popper's *The Poverty of Historicism* as well as *The Open Society and Its Enemies* were among others the rise of fascism and communism in Europe the inventiveness of this work is how happily scholars in non liberal societies such as in Africa can pick up Popper's insights and usefully work with them to offer appropriate social reforms for their society This volume is a critical juxtaposition of Popper's ideas in a bid to make good sense of social and intellectual conditions in Africa particularly as it relates to the scale and speed of social change that is needed in most African nations that are often ridden by corruption The book is suitable for studies in political philosophy economic and development studies African Studies and Indigenous Knowledge systems

*Perspectives on New Gambia* Seedy Drammeh, 2018-01-08 *Perspectives on New Gambia* is a detailed chronicle of the ebb and flow of The Gambia's first ever democratic transition of power The First Republic was brought to an end in a bloodless military coup on Friday 22 July 1994 that led to the political ascendancy of the then young military officer Lieutenant Yahya Jammeh After two years in charge as a military leader he ran for President in 1996 and went on to win three successive presidential terms until Friday 2 December 2016 when he was defeated at the polls by an opposition coalition led by Adama Barrow Although Yahya Jammeh initially conceded defeat and later retracted his concession he finally gave up power on Friday 20 January 2017 In between these two monumental shifts The Gambia tottered on the brink threatening to tip over into an abyss This book is a living witness to the mood and flavour of that turbulent moment in the political evolution of The Gambia Divided into four interrelated sections *Perspectives on New Gambia* traces the history of Coalition 2016 explores the political impasse and post election peace in The Gambia critically examines the first 100 Days of the Coalition Government discusses public expectations and proffers strategic recommendations for re building The Gambia

**Language and Collective Mobilization** Nadra O. Hashim, 2009-06-16 *Language and Collective Mobilization* analyzes the origins of communal conflict in five phases of Zanzibar's modern history. The first phase examines the implementation of British colonial control focusing on the conversion of Zanzibar's subsistence farming economy to a cash crop plantation complex. This first phase of colonial rule disrupted a variety of indigenous political and social institutions which traditionally promoted peace and stability. During subsequent phases of colonial rule, the British government devised political, economic, and educational policies that promoted elite Arab rule at the expense of the majority Swahili-speaking population. Colonial authorities rendered illegal any attempts by Swahilis to organize political resistance, a rule which exacerbated anti-Arab animosity. Colonial rule ended in 1964 when Swahili-speaking Zanzibaris led a violent revolution against English command and Arab control. Having forced a variety of wealthy Arab and Indian communities off the island, Swahili revolutionaries allowed a small number of Indian merchants and a few Shirazi farmers to remain. Less than twenty years after the revolution, in this fifth phase of Zanzibar's political history, partisan conflict between the Shirazi and Swahili populations threatens to unleash a new rash of violence. The social climate mirrors the first phase of British rule where economic stratification deepens and political tensions grow. The analysis offered in this book will find an audience in students, scholars, journalists, and policymakers interested in understanding so-called ethnic conflict in Africa. *Zizek's Politics* Jodi Dean, 2012-12-06 A critical introduction to the political thought of one of the most important original and enigmatic philosophers writing today, *Zizek's Politics* provides an original interpretation and defence of the Slovenian philosopher's radical critique of liberalism, democracy, and global capital. *Civil Society Narratives of Violence and Shaping the Transitional Justice Agenda in Zimbabwe* Chenai G. Matshaka, 2022-08-01 In *Civil Society Narratives of Violence and Shaping the Transitional Justice Agenda in Zimbabwe*, Chenai G. Matshaka shows the shaping of the transitional justice agenda in Zimbabwe from a civil society perspective. Based on the understanding that transitional justice approaches are seen through the lenses by which the violence and conflict is understood, Matshaka explores the complexities that arise when particular narratives of violence dominate the agenda. This book contributes to a discussion on how narratives intervene in the trajectory of a transitional justice process of a society in ways that may be beneficial or detrimental to breaking cycles of injustice and domination.

Derrida: Ethics Under Erasure Nicole Anderson, 2012-03-01 A new way of thinking about ethics from a Derridean perspective, exploring the positive ethical implications of Derrida's work for representation and practice. **The Rise of Political Islam in Turkey** Kayhan Delibas, 2014-12-19 Turkey officially a secular state, voted in an Islamist party in 2002.

2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP s success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and become popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those researching modern Turkey and the growth of Islamist politics throughout the Middle East and North Africa

**The Politics of Feeling** Ben Anderson, Anna J. Secor, 2025-09-23 How today's dominant political forms right wing populism progressivism and liberalism offer differentiated responses to shared conditions of uncertainty

*The Politics of Feeling* argues that politics has become a matter of political feelings in an age of uncertainty The uncertainties of the post 2008 period have transformed the political arena and made the question of how people feel central to the formation of political affiliations and divisions The book identifies three competing political forms in the US and the UK today right wing populism progressivism and contemporary liberalism It argues that rather than naming coherent programs of political thought these popular political forms are operating as arrangements or modes of attachment and political intensity Each one suggests a different way of remembering the past imagining the future and making the present politically meaningful Each one elevates some affective orientations over others and thereby etches differences of race class and gender within its structure *The Politics of Feeling* is a critique of the living edge of politics where feelings emerge gather intensity or dissolve in the continual making and remaking of the politics of the present

*Nepal in Transition* D P Tripathi, 2012-04-10 Nepal's democracy struggle has been continuing for more than six decades Since it could not sustain a stable democratic framework even after several attempts in the past many scholars are stating that Nepal is in permanent transition Once again however it has bagged enormous success in the field of political transformation in 2006 through a highly successful but peacefully organised movement with participation of people from all fields in large numbers But it could not deconstruct the position of the transition as it has failed to institutionalise the recently gained achievements by making a new constitution even after five years The only positive thing is that Nepali people along with various political parties are still trying hard to resolve vital conflicting issues through dialogue and come up with a new democratic constitution though they have already missed three deadlines
