Politics Moves Online Michael Cornfield, 2004 The popularization of the Internet has shepherded a revolution in business and personal communication But how has online technology been used in mainstream American politics In *Politics Moves Online* Michael Cornfield provides a comprehensive guide to how the Internet has been used in political campaigns He shows for example how candidates such as George Bush and John McCain in 2000 as well as political action committees and the media struggled to figure out how to fit the Internet into their ongoing operations Through a series of insightful cases he examines how candidates use the Web as a campaign tool and as a fund raising mechanism and how voters use the Internet to gather information and become more knowledgeable voters He finds that while many political pundits have argued that the Internet can be a revolutionary force in politics citizens and politicians alike have yet to find innovative uses that go beyond conventional political operations

Democracy for Hire Dennis W. Johnson, 2016-10-18 Though they work largely out of the public eye, political consultants, image merchants, and kingmakers to candidates play a crucial role in shaping campaigns. They persuaded Barry Goldwater to run for president, groomed former actor Ronald Reagan for the California governorship, helped derail Bill Clinton's health care initiative, and carried out the swiftboating of John Kerry. As Dennis Johnson argues in this sweeping history of political consulting in the United States, they are essential to modern campaigning, often making positive contributions to democratic discourse, and yet they have also polarized the electorate with their biting messages. During the nineteenth and early twentieth centuries, political campaigns were run by local political parties, volunteers, and friends of candidates, but as party loyalties among voters began to weaken and political parties declined as sources of manpower and strategy, professional consultants swept in to fill the void. Political consulting emerged as a profession in the 1930s, with publicists Leone Baxter and Clem Whitaker, the husband and wife team who built their business in part with a successful campaign to destroy Upton Sinclair's 1934 bid for governor of California. With roots in advertising and public relations, political consulting has since developed into a highly professionalized business generating hundreds of millions of dollars. In

fact some of the top campaign consulting firms have merged with others to form multinational public relations conglomerates serving not just candidates but also shaping public advocacy campaigns for businesses and nonprofits Johnson an academic who has also worked on campaigns alongside the likes of James Carville and pollster Paul Begala suffuses his history with the stories of the colorful characters who have come to define the profession of consulting from its beginning to the present More than just the story of the making of a political business Democracy for Hire s wide ranging history helps us to better understand the very contours of modern American politics **The Press** Geneva Overholser, Kathleen Hall
