## Politics Of Backwardness In Hungary:

**The Politics of Backwardness in Hungary, 1825-1945** Andrew C. Janos, 2012-01-20 Why did Hungary a country that shared much of the religious and institutional heritage of western Europe fail to replicate the social and political experiences of the latter in the nineteenth and early twenties centuries The answer the author argues lies not with cultural idiosyncracies or historical accident but with the internal dynamics of the modern world system that stimulated aspirations not easily realizable within the confines of backward economics in peripheral national states The author develops his theme by examining a century of Hungarian economic social and political history During the period under consideration the country witnessed attempts to transplant liberal institutions from the West the corruption of these institutions into a neo corporatist bureaucratic state and finally the rise of diverse Left and Right radical movements as much in protest against this institutional corruption as against the prevailing global division of labor and economic inequality Pointing to significant analogies between the Hungarian past and the plight of the countries of the Third World today this work should be of interest not only to the specialist on East European politics but also to students of development dependency and center periphery relations in the contemporary world *The Emperor and the Peasant* Kenneth Janda, 2018-01-12 There was more to World War I than the Western Front This history juxtaposes the experiences of a monarch and a peasant on the Eastern Front Franz Josef I emperor of Austria Hungary was the first European leader to declare war in 1914 and was the first to commence firing Samuel Mozolak was a Slovak laborer who sailed to New York and fathered twins taken as babies and U S citizens to his home village before being drafted into the Austro Hungarian army and killed in combat The author interprets the views of the war of Franz Josef and his contemporaries Kaiser Wilhelm II and Tsar Nicholas II Mozolak s story depicts the life of a peasant in an army staffed by aristocrats and also illustrates the pattern of East European immigration to America *The Politics of Retribution in Europe* István Deák, Jan T. Gross, Tony Judt, 2009-11-06 The presentation of Europe s immediate historical past has quite dramatically changed Conventional depictions of occupation and collaboration in World War II of wartime resistance and post war renewal provided the familiar backdrop against which the chronicle of post war Europe has mostly been told Within these often ritualistic presentations it was possible to conceal the fact that not only were the majority of people in Hitler s Europe not resistance fighters but millions actively co operated with and many millions more rather easily accommodated to Nazi rule Moreover after the war those who judged former collaborators were sometimes themselves former collaborators Many people became innocent victims of retribution while others among them notorious war criminals escaped punishment Nonetheless the process of retribution was not useless but rather a historically unique effort to purify the continent of the many sins Europeans had committed This book sheds light on the collective amnesia that overtook European governments and peoples regarding their own responsibility for war crimes and crimes against humanity an amnesia that has only recently begun to dissipate as a result of often painful searching across the continent In inspiring

essays a group of internationally renowned scholars unravels the moral and political choices facing European governments in the war's aftermath how to punish the guilty how to decide who was guilty of what how to convert often unspeakable and conflicted war experiences and memories into serviceable even uplifting accounts of national history In short these scholars explore how the drama of the immediate past was and was not successfully overcome Through their comparative and transnational emphasis they also illuminate the division between eastern and western Europe locating its origins both in the war and in post war domestic and international affairs Here as in their discussion of collaborators trials the authors lay bare the roots of the many unresolved and painful memories clouding present day Europe Contributors are Brad Abrams Martin Conway Sarah Farmer Luc Huyse L szl Karsai Mark Mazower and Peter Romijn as well as the editors Taken separately their essays are significant contributions to the contemporary history of several European countries Taken together they represent an original and pathbreaking account of a formative moment in the shaping of Europe at the dawn of a new millennium

The Civic Foundations of Fascism in Europe Dylan Riley, 2019-01-15 Drawing on a Gramscian theoretical perspective and developing a systematic comparative approach The Civic Foundations of Fascism in Europe challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes just like mass democracies depended on well organised rather than weak and atomised civil societies In making this argument the book focuses on three crucial cases of interwar authoritarianism Italy Spain and Romania selected because they are all counterintuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe Civic Foundations argues that in all three cases fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony Riley then traces the specific form that this crisis took depending on the form of civil society developed autonomous as in Italy elite dominated as in Spain or state dominated as in Romania in the nineteenth century **Central and East European Politics** Sharon L.

Wolchik, Jane Leftwich Curry, 2011 A useful text and reference book These essays are at their best in serving both area study and political sociology Slavic Review **Opening up Hungary to the World Market** Jochen Lorentzen, 2016-07-27 This book describes the opening of the Hungarian economy from the early This book describes the opening of the Hungarian economy from the early 1980s to the current transition It analyses the management of external debt and international competitiveness and shows that the dismal economic performance of the country was only partially homemade Assurances by the international financial community that uninterrupted debt service would guarantee access to international capital markets as well as protectionist western trade practices contributed considerably to Hungary's difficulties in credit management and export performance **Central and East European Politics** Zsuzsa Csergo, Daina S. Eglitis, Paula M. Pickering, 2021-06-22 Now in a fully revised and updated edition this essential text provides a comprehensive introduction to Central and Eastern Europe including the Baltics and Ukraine Broad but nuanced it offers a reader friendly overview of the

globally and regionally significant changes and challenges the region faces Divided into two parts the book first presents thematic chapters on key issues including nationalism and challenges to democratic institutions and practices the contentious politics of memory debates over demography and migration in a region with a shrinking population and Russian efforts to retain regional influence through hard and soft power The case study chapters that follow highlight key political developments after communism as well as providing a strong foundation for readers on regional history and the political and economic experiences of the communist years Each covers the foundational topics of political history political competition economic development social problems relationships with European institutions and threats to good governance For students and specialists alike this book will be an invaluable resource on this dynamic region of Europe **A History of The Gypsies**

**of Eastern Europe and Russia** D. Crowe,2016-09-23 In this fully updated edition with a new foreword by Andre Liebich David M Crowe provides an overview of the life history and culture of the Gypsies or Roma from their entrance into the region in the Middle Ages up until the present drawing from previously untapped East European Russian and traditional sources *Blood Inscriptions* Hillel J. Kieval,2022-02-15 Although the Enlightenment had seemed to bring an end to the widely held belief that Jews murdered Christian children for ritual purposes charges of the so called blood libel were surprisingly widespread in central and eastern Europe on either side of the turn to the twentieth century Well over one hundred accusations were made against Jews in this period and prosecutors and government officials in Germany Austria Hungary and Russia broke with long established precedent to bring six of these cases forward in sensational public trials In *Blood Inscriptions* Hillel J Kieval examines four cases the prosecutions that took place at Tiszaeszl r in Hungary 1882 83 Xanten in Germany 1891 92 Poln in Austrian Bohemia 1899 1900 and Konitz then Germany now in Poland 1900 1902 to consider the means by which discredited beliefs came to seem once again plausible Kieval explores how educated elites took up the accusations of Jewish ritual murder and considers the roles played by government bureaucracies the journalistic establishment forensic medicine and advanced legal practices in structuring the investigations and trials The prosecutors judges forensic scientists criminologists and academic scholars of Judaism and other expert witnesses all worked hard to establish their epistemological authority as rationalists Kieval contends Far from being a throwback to the Middle Ages these ritual murder trials were in all respects a product of post Enlightenment politics and culture Harnessed to and disciplined by the rhetoric of modernity they were able to proceed precisely because they were framed by the idioms of scientific discourse and rationality *Central and Southeast European Politics since 1989* Sabrina P. Ramet,2010-02-18 The only textbook to provide a complete introduction to post 1989 Central and Southeast European politics this dynamic volume provides a comprehensive account of the collapse of communism and the massive transformation that the region has witnessed It brings together 23 leading specialists to trace the course of the dramatic changes accompanying democratization The text provides country by country coverage identifying common themes and enabling students to see which are shared throughout the area

giving them a sense of its unity and comparability whilst strengthening understanding around its many different trajectories. The dual thematic focus on democratization and Europeanization running through the text also helps to reinforce this learning process. **Hungary's Negotiated Revolution** Rudolf L. Tökés, 1996-09-28  
 In this book first published in 1996 Rudolf Tökés offers a comprehensive overview of the rise and fall of the Kádár regime in Hungary between 1957 and 1990. The approach is interdisciplinary reviewing the regime's record with emphasis on politics, macroeconomic policies, social change and the ideas and personalities of political dissidents and the regime's successor generation. The study provides a fully documented reconstruction of the several phases of the ancien régime's road from economic reform to political collapse based on interviews with former top party leaders and transcripts of the Party Central Committee. Tökés gives an in-depth account of the personalities and issues involved in Hungary's peaceful transformation from one party state to parliamentary democracy and a comprehensive assessment of Hungary's post-Communist politics, economy and society.

*The Aftermath of Defeats in War* Ibrahim M. Zabad, 2019-03-30  
 This book sets out to explain the variation in nations' reactions to their defeats in war. Typically we observe two broad reactions to defeat: an inward-oriented response that accepts defeat as a reality and utilizes it as an opportunity for a new beginning and an outward-oriented one that rejects defeat and invests national energies in restoring what was lost, most likely by force. This volume argues that although defeats in wars are humiliating experiences, those sentiments do not necessarily trigger aggressive nationalism, empower radical parties and create revisionist foreign policy. Post-defeat radicalization will be actualized only if it is filtered through three variables: national self-images (inflated or realistic), political parties (strong or weak) and international opportunities and constraints. The author tests this theory on four detailed case studies: Egypt 1967, Turkey, Ottoman Empire, Hungary and Bulgaria, WWI and Islamic fundamentalism.

*The Politics of Multiculturalism in the New Europe* Tariq Modood, Pnina Werbner, 1997-08  
 On multiculturalism

*Liberal Professions and Illiberal Politics* Mária M. Kovács, 1994  
 Kovács's main emphasis is on the interwar period when unemployment, expansion of the welfare system and competition for state jobs during the Great Depression combined with crass anti-Semitism on the part of engineers and medical associations radically altered previously liberal policies of open entry and equal educational opportunity.

**Politics in Color and Concrete** Krisztina Fehérváry, 2021-12-22  
 A historical anthropology of material transformations of homes in Hungary from the 1950s to the 1990s. Material culture in Eastern Europe under state socialism is remembered as uniformly gray, shabby and monotonous: the worst of postwar modernist architecture and design. *Politics in Color and Concrete* revisits this history by exploring domestic space in Hungary from the 1950s through the 1990s and reconstructs the multi-textured and politicized aesthetics of daily life through the objects, spaces and colors that made up this lived environment. Krisztina Fehérváry shows that contemporary standards of living and ideas about normalcy have roots in late socialist consumer culture and are not merely

products of postsocialist transitions or neoliberalism This engaging study decenters conventional perspectives on consumer capitalism home ownership and citizenship in the new Europe A major reinterpretation of Soviet style socialism and an innovative model for analyzing consumption Katherine Verdery The Graduate Center City University of New York Politics in Color and Concrete explains why the everyday is important and shows why domestic aesthetics embody a crucially significant politics Judith Farquhar University of Chicago The topic is extremely timely and relevant the writing is lucid and thorough the theory is complex and sophisticated without being overly dense or daunting I thoroughly enjoyed reading it Brad Weiss College of William and Mary

**Austria - Hungary - Poland - Russia** Herbert A. Strauss, 2011-09-06 No detailed description available for Austria Hungary Poland Russia

*Everyday Nationalism in Hungary* Alexander Maxwell, 2019-09-23 This book examines Hungarian nationalism through everyday practices that will strike most readers as things that seem an unlikely venue for national politics Separate chapters examine nationalized tobacco nationalized wine nationalized moustaches nationalized sexuality and nationalized clothing These practices had other economic social or gendered meanings moustaches were associated with manliness wine with aristocracy and so forth The nationalization of everyday practices thus sheds light on how patriots imagined the nation s economic social and gender composition Nineteenth century Hungary thus serves as the case study in the politics of everyday nationalism The book discusses several prominent names in Hungarian history but in unfamiliar contexts The book also engages with theoretical debates on nationalism discussing several key theorists Various chapters specifically examine how historical actors imagine relationship between the nation and the state paying particular attention Rogers Brubaker s constructivist approach to nationalism without groups Michael Billig s notion of banal nationalism Carole Pateman s ideas about the nation as a national brotherhood and Tara Zahra s notion of national indifference

*Jews, Nazis and the Cinema of Hungary* David Frey, 2017-02-28 Between 1929 and 1942 Hungary s motion picture industry experienced meteoric growth It leapt into Europe s top echelon trailing only Nazi Germany and Italy in feature output Yet by 1944 Hungary s cinema was in shambles internal and external forces having destroyed its unification experiments and productive capacity This original cultural and political history examines the birth unexpected ascendance and wartime collapse of Hungary s early sound cinema by placing it within a complex international nexus Detailing the interplay of Hungarian cultural and political elites Jewish film professionals and financiers Nazi officials and global film moguls David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism

**Nationalist Politics and Everyday Ethnicity in a Transylvanian Town** Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania s cultural and political center Yet heated nationalist rhetoric has

evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker s groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life

Karl Polanyi Gareth Dale,2016-05-31 Karl Polanyi 1886 1964 was one of the twentieth century s most original interpreters of the market economy His penetrating analysis of globalization s disruptions and the Great Depression s underlying causes still serves as an effective counterargument to free market fundamentalism This biography shows how the major personal and historical events of his life transformed him from a bourgeois radical into a Christian socialist but also informed his ambivalent stance on social democracy communism the New Deal and the shifting intellectual scene of postwar America The book begins with Polanyi s childhood in the Habsburg Empire and his involvement with the Great War and Hungary s postwar revolution It connects Polanyi s idealistic radicalism to the political promise and intellectual ferment of Red Vienna and the horror of fascism The narrative revisits Polanyi s oeuvre in English German and Hungarian includes exhaustive research in five archives and features interviews with Polanyi s daughter students and colleagues clarifying the contradictory aspects of the thinker s work These personal accounts also shed light on Polanyi s connections to scholars Christians atheists journalists hot and cold warriors and socialists of all stripes Karl Polanyi *A Life on the Left* engages with Polanyi s biography as a reflection and condensation of extraordinary times It highlights the historical ruptures tensions and upheavals that the thinker sought to capture and comprehend and in telling his story engages with the intellectual and political history of a turbulent epoch
