**Languages of Belief and Early Sociology in Nineteenth-Century France** Michiel Van Dam,2024-09-27 This book presents a new reading of the history of French social science and religion through an investigation of early sociology s techniques for narrating the category of belief The author argues that by looking at the history of social sciences in this manner we gain a deeper understanding of both our present debates on post secularity as well as our modernist past both of which were thoroughly shaped by their reflections and critiques on the notion of belief yet failed to enter into any sort of meaningful communication with each other This book seeks to rectify this failure by introducing the concept of belief languages an anthropological framework designed to historicize different discussions on belief and allow for their comparative description and analysis

*Borders of Belief* Gregory J. Goalwin,2022-07-15 Why have modern nationalists built religious identity as the foundational signifier of nationality in an increasingly secular world The cases of 20th century Ireland and Turkey reveal the answer religious nationalism is not a knee jerk reaction to secular modernization but a tool that forges new and independent national identities

*Political Belief in France, 1927-1945* Caroline Campbell,2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league

for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization s fearsome reputation as a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their socialagenda as a religious and patriotic duty a reflection of the individual s responsibility to make personal sacrifices on behalf of their vision for France s Christian civilization The Croix de Feu PSF s ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism *Political Belief in France 1927 1945* contributes to the fields of French history gender studies the history of fascism and the history of empire

*Global Capitalist Crisis and the Second Great Depression* Armando Navarro,2012 This book provides a comprehensive political economic and historical analysis of the events and circumstances from the 1920s to 2010 that impacted the rise of today s Global Capitalist Crises Global Economic Crises and the U S s Second Great Depression It argues that liberal capitalism is a failed political and economic system in dire need of systemic change into either social democracy or democratic socialism via the creation of a New Movement

**Religion and Political Culture in Britain and Ireland** David Hempton,1996-01-26 The main theme of this book is religion and identity not only national identity but also regional and local identities David Hempton penetrates to the heart of vigorous religious and political cultures both elite and popular in the eighteenth and nineteenth centuries He brings to life a diverse and variegated spectrum of religious communities in all of the British Isles With so much new British history really an extended version of old English history Hempton has devoted more attention to the Celtic fringes especially Ireland It is an exercise in comparative history but he also shows how richly coloured is the religious history of these islands He demonstrates that even in their cultural distinctiveness the various religious traditions have had more in common than is sometimes imagined The book arises from the 1993 Cadbury Lectures at the University of Birmingham

**Political Repression in 19th Century Europe** Robert Justin Goldstein,2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested

itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries The Postsecular Restoration and the Making of Literary Conservatism Corrinne Harol,2022-12-22 Corrinne Harol reveals how secularization catalysed conservative writers to respond and thereby contribute impactfully to literary history The Nineteenth Century ,1881 *Religion, Secularization and Political Thought* James E. Crimmins,2013-05-02 The increasing secularization of political thought between the mid seventeenth and mid nineteenth centuries has often been noted but rarely described in detail The contributors to this volume consider the significance of the relationship between religious beliefs dogma and secular ideas in British political philosophy from Thomas Hobbes to J S Mill During this period Britain experienced the advance of natural science the spread of education and other social improvements and reforms in the political realm These changes forced religion to account for itself and to justify its existence both as a social institution and as a collection of fundamental articles of belief about the world and its operations This book originally published in 1990 conveys the crucial importance of the association between religion secularization and political thought The Conservative Aesthetic Stephen J. Mexal,2021-05-20 The Conservative Aesthetic Theodore Roosevelt Popular Darwinism and the American Literary West offers an alternative origin story for American conservatism tracing it to a circle of writers artists and thinkers in the late nineteenth century who yoked popular understandings of Darwin to western literary aesthetics That circle included writer Owen Wister artist Frederic Remington entertainer William Buffalo Bill Cody historian Frederick Jackson Turner and a young Theodore Roosevelt The book explores how their lives and their writing intertwined with their conservative sensibilities For them going west was akin to time travel a retrogression into an earlier and hardier age It was through those retrogressions into the American state of nature they imagined that society could discover its finest and fittest citizens Such a society would be the modern realization of Thomas Jefferson s century old dream of a natural aristocracy There was a new conservatism rooted not in a history of European monarchy but rather in stories about American individualism and the frontier west updated for the age of Darwin **A Gladstone Bibliography** ,1889 Political Religion Beyond Totalitarianism J. Augusteijn,P. Dassen,M. Janse,2013-01-29 The success of fascist and communist regimes has long been explained by their ability to turn political ideology into a type of religion These innovative essays explore the notion that all forms of modern mass politics including democracies need a form of sacralization to function Politics and the Irish Working Class, 1830-1945 Donal Ó Drisceoil,F. Lane,2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political

scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class Nineteenth Century and After, 1927 The Routledge History of Religion and Politics in the United States Since 1775 Cara Lea Burnidge, Lauren Frances Turek, 2024-12-30 Drawing together history and recent historiography this volume offers a reference work for understanding how religion influenced politics and how politics shaped religion in the United States from the American Revolution through to the present day The book brings together some of the most well regarded scholars in history religious studies American studies political science and other disciplines working in this field providing a groundbreaking transdisciplinary history of this topic It explores the major themes and historiographical trends that animate current scholarship ensuring that readers come away with a thorough picture of the field how it has evolved and where future scholars might take us This unique approach is well suited to students and scholars of both U S history and religious studies and encourages interdisciplinary analysis for the fields of religion and politics *Novelists in Conflict* Martin Hurcombe, 2021-11-01 This volume represents the first in depth English language study of the French combat novel of the Great War an immensely popular genre at the time which includes influential texts such as Henri Barbusse's *Le Feu* and Roland Dorgelès's *Les Croix de bois* It explores through these works and less well known but equally popular patriotic novels of the period the effect that experiencing war has upon the writer's understanding of the world arguing that in their depiction of conflict these writers demonstrate a decidedly complex and modernist understanding of humanity's place in the world In particular the author examines the French combat novel's evocation of a world where a sense of the Absurd vies with the novelist's desire to re-impose order through a particular political understanding of the Great War itself be it in the form of revolutionary socialism French nationalism or humanism In this way this volume contends ideology becomes a force for responding to and countering the sense of contingency that characterises the human experience of combat It will be of interest to scholars of twentieth century French fiction and thought **Uncollected Writings** Richard Wollheim, 2025-10-16 Richard Wollheim 1923-2003 is best known as a path breaking philosopher of art and of mind but his work on political philosophy is a major third strand of his writing This volume of previously uncollected papers ranges over a number of topics but several themes recur a concern for the workings of democracy a robust defence of individual liberty great respect for individuality and individual differences and the vital roles of education and culture There are also studies of the thought of John Stuart Mill Bertrand Russell and Isaiah Berlin Wollheim's distinctive voice is a constant wit verve sophistication erudition and subtlety The originality and penetration of his thinking is apparent throughout He is always to be seen thinking things through for himself often in reaction to the great philosophers sometimes though relatively rarely with the assistance of contemporaries but always with

the determination of getting to the bottom of things with a distinctive approach that remains full of fresh insights

**Religion, Culture and Politics in Iran** Joanna de Groot, 2000-08-01 This book offers a new interpretation to the social history of religion in Iran from the 1870s to the 1970s It aims to situate the revolutionary upheavals of 1977-82 in an extensive narrative context of historical developments over the preceding century and to relate the religious elements in that history to other social and cultural issues In the author's analysis Iran's revolution was complex and contingent on a range of factors rather than a simple or inevitable outcome of the nature of the Iranian state or the nature of religion in Iran The focus of the argument is on the human responses of Iranians to their experiences and problems in all their diversity and on the rich variety and complexity of relationships between religion and other aspects of life thought and culture in the daily life of Iranians
