Epistemic Decolonization D.A. Wood, 2020-07-28 European colonization played a major role in the acquisition formation and destruction of different ways of knowing Recently many scholars and activists have come to ask Are there ways in which knowledge might be decolonized Epistemic Decolonization examines a variety of such projects from a critical and philosophical perspective The book introduces the unfamiliar reader to the wide variety of approaches to the topic at hand providing concrete examples along the way It argues that the predominant contemporary approach to epistemic decolonization leads one into various intractable theoretical and practical problems The book then closely investigates the political and scientific work of Frantz Fanon and Amílcar Cabral demonstrating how their philosophical commitments can help lead one out of the practical and theoretical issues faced by the current predominant orientation and concludes by forging links between their work and that of some contemporary feminist epistemologists

*Critique of Political Decolonization* Bernard Forjuur, 2023-05-24 What is political independence As a political act what was it sanctioned to accomplish Is formal colonialism over or a condition in the present albeit mutated and evolved In *Critique of Political Decolonization* Bernard Forjuur challenges what in normative scholarship has become a persistent conflation of two different concepts political decolonization and political independence This scholarly volume is an antinormative and critical refutation of the decolonial accomplishment of political independence or self determination in Ghana He argues that political independence is insufficiently a decolonial claim because it is framed within the context of a country where a permanent colonial settlement was never deemed necessary for the consolidation of future colonial political obligations So while territorial dissolution was politically engineered by Ghanaians the colonial merely reconstitutes itself in different legal and ideological forms Forjuur offers new methodological theoretical and conceptual approaches to engaging the questions of colonialism political independence political decolonization justice and freedom and constructs multiple conceptual bridges between traditional disciplinary fields of inquiry including politics history law African studies economic history critical theory and philosophy and political theory Using the Ghanaian experience as a rich case study Forjuur rethinks what colonialism and decolonization mean and asserts that decolonization is primarily a question of justice

Webb-Gannon,2021-06-30 That Indonesia s ongoing occupation of West Papua continues to be largely ignored by world governments is one of the great moral and political failures of our time West Papuans have struggled for more than fifty years to find a way through the long night of Indonesian colonization However united in their pursuit of merdeka freedom in its many forms what holds West Papuans together is greater than what divides them Today the Morning Star glimmers on the horizon the supreme symbol of merdeka and a cherished sign of hope for the imminent arrival of peace and justice to West Papua Morning Star Rising The Politics of Decolonization in West Papua is an ethnographically framed account of the long bitter fight for freedom that challenges the dominant international narrative that West Papuans quest for political independence is fractured and futile Camellia Webb Gannon s extensive interviews with the decolonization movement s original architects and its more recent champions shed light on complex diasporic and intergenerational politics as well as social and cultural resurgence In foregrounding West Papuans perspectives the author shows that it is the body politic s unflagging determination and hope rather than military might or influential allies that form the movement s most unifying and powerful force for independence This book examines the many intertwining strands of decolonization in Melanesia Differences in cultural performance and political diversity throughout the region are generating new fruitful trajectories Simultaneously Black and Indigenous solidarity and a shared Melanesian identity have forged a transnational grassroots power base from which the movement is gaining momentum Relevant beyond its West Papua focus this book is essential reading for those interested in Pacific studies Native and Indigenous studies development studies activism and decolonization

The Rise and Fall of Modern Empires, Volume III Sarah Stockwell,2017-03-02 Few aspects of the history of modern empires are of such significance as their economics and politics These factors are inextricably linked in many analyses have generated extensive historiographical debate and are currently the subject of some of the freshest and liveliest scholarship The articles and chapters which are brought together in this volume relate not only to the European colonial empires but also to the Napoleonic Russian and Japanese empires The collection is strongly comparative in approach with the articles arranged into thematic sections on the place of politics and economics in the rise and fall of modern empires the causal relationship between modern empires and colonial global and metropolitan economic transformations and the technologies of

rule which provided the frameworks through which colonial economies were managed and rights defined The collection reflects new approaches as well as the continuing importance of issues addressed in an older historiography and the thematic arrangement produces useful juxtapositions of older and newer literatures The substantial introduction explores the themes and identifies key historiographical trends in relation to each

*Liberal Ideals and the Politics of Decolonisation* H. Kumarasingham, 2020-11-25 *Liberal Ideals and the Politics of Decolonisation* explores the subject of liberalism and its uses and contradictions across the late British Empire especially in the context of imperial dissolution and subsequent state building The book covers multiple regions and issues concerning the British Empire and the Commonwealth in particular the period ranging from the late nineteenth century to the late twentieth century Original intellectual contributions are offered along with new arguments on critical issues in imperial history that will appeal to a wide range of scholars including those outside of history *Liberal Ideals and the Politics of Decolonisation* exposes commonalities contradictions and contexts of different types of liberalism that animated the late British Empire and its rulers radicals subjects and citizens as they attempted to forge new states from its shadow and understand the impact of imperialism This book examines the complexities of the idea and quest for self government in the last stages of the British Empire It also argues the importance of the political intellectual and empirical aspects of liberalism to understand the process of decolonisation The chapters in this book were originally published in a special issue of *The Journal of Imperial and Commonwealth History*

**Political Theories of Decolonization** Margaret Kohn, Keally McBride, 2011-03-16 *Political Theories of Decolonization* provides an introduction to some of the seminal texts of postcolonial political theory The difficulty of founding a new regime is an important theme in political theory and the intellectual history of decolonization provides a rich albeit overlooked opportunity to explore it Many theorists have pointed out that the colonized subject was a divided subject This book argues that the postcolonial state was a divided state While postcolonial states were created through the struggle for independence they drew on both colonial institutions and reinvented pre colonial traditions *Political Theories of Decolonization* illuminates how many of the central themes of political theory such as land religion freedom law and sovereignty are imaginatively explored by postcolonial thinkers In doing so it provides readers access to texts that add to our understanding of contemporary political life and global political dynamics

*Decolonizing Politics* Robbie Shilliam, 2021-02-18 Political science emerged as a response to the challenges of imperial administration and the demands of colonial rule While not all political scientists were colonial cheerleaders their thinking was nevertheless framed by colonial assumptions that influence the study of politics to this day This book offers students a lens through which to decolonize the main themes and issues of political science from human nature rights and citizenship to development and global justice Not content with revealing the colonial legacies that still inform the discipline the book also introduces students to a wide range of intellectual resources from the post colonial world that will help them think through the same themes and issues more expansively *Decolonizing Politics* is a much needed

critical guide for students of political science It shifts the study of political science from the centers of power to its margins where the majority of humanity lives Ultimately the book argues that those who occupy the margins are not powerless Rather marginal positions might afford a deeper understanding of politics than can be provided by mainstream approaches

*The Politics of Decolonial Investigations* Walter D. Mignolo, 2021-07-09 In *The Politics of Decolonial Investigations* Walter D Mignolo provides a sweeping examination of how coloniality has operated around the world in its myriad forms from the sixteenth century to the twenty first Decolonial border thinking allows Mignolo to outline how the combination of the self fashioned narratives of Western civilization and the hegemony of Eurocentric thought served to eradicate all knowledges in non European languages and praxes of living and being Mignolo also traces the geopolitical origins of racialized and gendered classifications modernity globalization and cosmopolitanism placing them all within the framework of coloniality Drawing on the work of theorists and decolonial practitioners from the Global South and the Global East Mignolo shows how coloniality has provoked the emergence of decolonial politics initiated by delinking from all forms of Western knowledge and subjectivities The urgent task Mignolo stresses is the epistemic reconstitution of categories of thought and praxes of living destituted in the very process of building Western civilization and the idea of modernity The overcoming of the long lasting hegemony of the West and its distorted legacies is already underway in all areas of human existence Mignolo underscores the relevance of the politics of decolonial investigations in and outside the academy to liberate ourselves from canonized knowledge ways of knowing and praxes of living

Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997 This book is the ninth in a series of volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author's view that future scholarship about

the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires
