Politics Of Democratization Changing Authoritarian Regimes In Sub-Saharan Africa:

Politics of Democratization Emeka Nwokedi, 1995 As organized groups took to the streets in a large number of the sub-Saharan states beginning in the late 1980s in protest against both the precarious socioeconomic conditions and the stifling one party state apparatus prevalent in the region this unprecedented mass discontent appeared set to herald the dawn of a new political era by forcing a shift from authoritarianism towards democracy The unfolding events were welcomed and supported by the international donor community eager to further extend the frontiers of liberalism This book focusses on these processes of political reform in a representative group of sub-Saharan states where the democratization process has proved to be innovative mediocre chaotic and highly deceptive as the case may be By capturing these processes as an intra-elitist struggle for political power the book underscores the significance of each strategy of democratization the calculations which underlie the pressures for and the resistance to reform as well as the methods of expressing these as were made evident in the moves by all the major political players Above all the external inputs into this democratization and their conditionality are analyzed in the light of both their underlying interests and the outcomes of this politicized reform process

Democratic Transitions in East Africa F. Wafula Okumu, 2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond

The Transition to Democratic Governance in Africa John Mukum Mbaku Esq. Julius O. Ihonvbere, 2003-04-30 Africa is currently experiencing sociopolitical and economic changes of unprecedented proportions New leaders institutions discourses and methods of political organization and action are shaping a new future Through a case study approach this essay collection provides a comprehensive analysis of the history trajectory actors institutions contradictions failures and opportunities in contemporary efforts at democratization in Africa While presenting the dynamics of democracy and democratization in several African countries they also look at critical issues in Africa's transition projects from political parties and elections through constitutions and constitutionalism to new structures of power and politics A provocative analysis for scholars students researchers and policy makers involved with African political and economic development

Democracy and Political Change in Sub-Saharan Africa John A. Wiseman, 2002-11-01 Since the end of the 1980s the most important political development in Sub-Saharan Africa has been the movement towards

democracy This is something that has affected nearly all the countries in the region in varying degrees This book provides the reader with a set of case studies covering a diverse range of African states in order to identify the major causes of recent change the progress made so far and what the prospects for the future might be While changes in the global political situation has been important the greatest impetus towards democracy has been the result on internal factors For all the states covered the specific domestic social economic and political conditions are seen as vitally important *The Legacies of Transition Governments in Africa* J. Seely, 2009-08-31 The revolutionary political upheavals in Africa in the early 1990s continue to have an impact almost two decades later This book argues we must look to the defining period of transition to understand how politics in these countries changed since the fall of dictatorial one party states Democratization in Sub-Saharan Africa Klaas van Walraven, Céline Thiriot, 2002 **Transitions to Democracy** Lisa Anderson, 1999 Are the factors that initiate democratization the same as those that maintain a democracy already established The scholarly and policy debates over this question have never been more urgent In 1970 Dankwart A Rustow's clairvoyant article *Transitions to Democracy Toward a Dynamic Model* questioned the conflation of the primary causes and sustaining conditions of democracy and democratization Now this collection of essays by distinguished scholars responds to and extends Rustow's classic work *Transitions to Democracy* which originated as a special issue of the journal *Comparative Politics* and contains three new articles written especially for this volume represents much of the current state of the large and growing literature on democratization in American political science The essays simultaneously illustrate the remarkable reach of Rustow's prescient article across the decades and reveal what the intervening years have taught us In light of the enormous opportunities of the post Cold War world for the promotion of democratic government in parts of the world once thought hopelessly lost of authoritarian and totalitarian regimes this timely collection constitutes an important contribution to the debates and efforts to promote the more open responsive and accountable government we associate with democracy

Democratization's trajectory through change and continuity in Sub-Saharan Africa Issau Agostinho, Ana Magdalena Figueroa, Mark Amaliya Anyorikeya, Christopher Jivot Bitouloulou, Chibueze Ofobuike, 2017-11-03 Beyond the examples above this book presents us with in depth analyses on several African countries which are seldom assessed when the topic is democracy and whose experiences vary on an axis that can be generalised and applied for other countries in the continent since they happened in countries from different regions and with different backgrounds Throughout the book challenges and opportunities for democracy consolidation in Burkina Faso Republic of Congo Democratic Republic of Congo Nigeria Rwanda and Zimbabwe are studied and invite the reader to promptly question conventional knowledge on the topic In addition the book also analyses the mechanisms and tools that the African Union have to manage democratic changes on its member states and thoroughly and innovatively assesses the impacts that migration has on democracy in Africa As a passionate researcher on African politics and international relations I am confident to say that this book will be useful for

anyone who wants to get a better and unbiased sense on challenges and opportunities for democracy in Africa By challenging conventional knowledge and presenting fair generalisations whilst highlighting heterogeneity this book contributes to a better understanding of the democratic processes in the continent and encourages scholars and students to deepen their knowledge and to engage in further research on the topic Since I save no effort in helping people to develop a critical thinking and to deconstruct stereotypes that accompany African politics this book will certainly be included in the recommended readings for my students

Leadership and the Problem of Electoral Democracy in Africa E. Ike

Udogu,2016-12-14 This volume explores the notion that African leaders are fundamentally responsible for electoral malfeasance throughout the continent The quagmire of fixing elections in order to stay in power ad infinitum has frequently led and will continue to lead to political violence civil wars internal displacement of citizens international refugee crises and economic malaise with its attendant crisis of underdevelopment This book provides five case studies selected from Anglophone Francophone and Lusophone Africa that illustrate some variations and similarities in the dilemma of electoral democracy in this epoch of Africa s democratic experiment It suggests among other factors Colin Powell s and Abraham Lincoln s theoretical templates as pointers for African political chiefs in their struggle for democratic consolidation a successful move that could advance national legitimacy and political stability critical for impressive development in this millennium

Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century E.

Ike Udogu,2010-02-19 Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century frames the discourse around the important issue of African unification against the backdrop of the region s political and economic marginalization Arguably the richest continent in the world in terms of its abundant untapped natural resources and human capital it still lags behind the other regions of the world developmentally Undeniably Africa is at the crossroads in this millennium within the context of the powerful events and effects of the New Globalization One of the central issues that academics and political actors interested in African development must tackle immediately is how to make the region politically and economically relevant in global affairs These objectives could be attained through continental amalgamation Accordingly this book debates and suggests inter alia strategies that might advance Africa s unification effort in order to provide the politico economic clout needed to spur continental development Further it argues that such a Union of African States is critical for promoting the good political life for all Africans

Civil and Political Rights in Cameroon Avitus

Agbor,2021-10-15 The book explores and appraises concepts related to human rights and situates them within the Cameroonian context

Roads to Regionalism Tanja A. Börzel,

Lukas Goltermann,Kai Striebinger,2016-04-08 Over the past

few decades states all around the globe have intensified institutionalized cooperation at the regional level To deepen our understanding of state led regionalism the authors use an analytical framework comprising four main strands First they describe and explain the genesis and growth of regional organizations Second they account for institutional design looking at

important similarities and differences Third they examine the interaction between organizations and member states in an attempt to reveal factors that shape the level of commitment to and compliance with regional initiatives Finally they consider the impact of regional organizations on their member states They conclude by providing a foundation for future research on the dynamic development of regionalism *Beyond State Crisis?* Mark Beissinger, M. Crawford Young, 2002-01-24 The contributors not only study state breakdown but compare the consequences of post communism with those of post colonialism

The Democratisation Process in Zanzibar Mohammed Ali Bakari, 2001 *Political Science Abstracts*, 2012-12-06 Political Science Abstracts is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available

Humor, Silence, and Civil Society in Nigeria Ebenezer Obadare, 2016 This work is an important contribution to the civil society debate in Africa and to the global literature on dissent

Aftershocks Seva Gunitsky, 2017-03-28 Over the past century democracy spread around the world in turbulent bursts of change sweeping across national borders in dramatic cascades of revolution and reform Aftershocks offers a new global oriented explanation for this wavelike spread and retreat not only of democracy but also of its twentieth century rivals fascism and communism Seva Gunitsky argues that waves of regime change are driven by the aftermath of cataclysmic disruptions to the international system These hegemonic shocks marked by the sudden rise and fall of great powers have been essential and often neglected drivers of domestic transformations Though rare and fleeting they not only repeatedly alter the global hierarchy of powerful states but also create unique and powerful opportunities for sweeping national reforms by triggering military impositions swiftly changing the incentives of domestic actors or transforming the basis of political legitimacy itself As a result the evolution of modern regimes cannot be fully understood without examining the consequences of clashes between great powers which repeatedly and often unsuccessfully sought to cajole inspire and intimidate other states into joining their camps *The Politics of Uncertainty* Andreas Schedler, 2013-08 This volume offers a major new theory of authoritarian politics It studies regime struggles between government and opposition under electoral authoritarianism and argues that autocracies suffer from institutional uncertainties

Measuring Women's Political Empowerment across the Globe Amy C. Alexander, Catherine Bolzendahl, Farida Jalalzai, 2017-11-16 This volume brings together leading gender and politics scholars to assess how women's political empowerment can best be conceptualized and measured on a global scale It argues that women's political empowerment is a fundamental process of transformation for benchmarking and understanding all political empowerment gains across the globe Chapters improve our global understanding of women's political empowerment through cross national comparisons a synthesis of methodological approaches across varied levels of politics and attention to the ways gender intersects with myriad factors in shaping women's political empowerment This book is an indispensable resource for scholars of politics and gender as well as being relevant to a global scholarly and policy community *International Politics of*

Authoritarian Rule Oisín Tansey, 2016-08-18 Autocrats must overcome a range of challenges as they seek to gain and maintain political power including the threat that comes from both rival elites and discontented publics The *International Politics of Authoritarian Rule* examines the ways in which international forces can encourage and assist autocratic actors in overcoming these challenges Often autocratic incumbents are strengthened in power by events on the international stage and by the active support of international allies The book offers a typology of different international forms of influence on authoritarianism and examines the ways in which external forces shape autocratic rule at the domestic level The typology distinguishes between three broad forms of international influence passive influences unintended consequences and active forms of external autocratic sponsorship The book focuses in particular on the latter category and examines intentional autocratic sponsorship in the post Cold War period A central contribution of the book is to address the question of how international autocratic sponsorship can bolster authoritarian rule It highlights the ways in which international sponsorship can contribute to authoritarian practices in three significant ways by increasing the likelihood that authoritarian regimes will pursue authoritarian practices such as coups repression or election fraud by contributing to the implementation of those practices and finally by shielding autocratic actors from international punishment after such practices are pursued External sponsorship can thus lower the costs of authoritarian behaviour and protect and shield authoritarian regimes from the negative consequences of their actions *Oxford Studies in Democratization* is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford
