Readings in African Politics Tom Young, 2003 Table of contents **The Nature of Politics** Annette A. LaRocco, 2024-04-16 This case study of Botswana focuses on the state building qualities of biodiversity conservation in southern Africa Drawing on extensive fieldwork Annette A LaRocco argues that discourses and practices related to biodiversity conservation are essential to state building in the postcolonial era These discourses and practices invoke the ways the state exerts authority over people places and resources enacts and remakes territorial control crafts notions of ideal citizenship and identity and structures economic relationships at the local national and global levels The book s key innovation is its conceptualization of the conservation estate a term most often used as an apolitical descriptor denoting land set aside for the purpose of conservation LaRocco argues that this description is inadequate and proposes a novel and much needed alternative definition that is tied to its political elements The components of conservation control over land policing of human behavior and structuring of the authority that allows or disallows certain subjectivities render conservation a political

phenomenon that can be analyzed separately from considerations of nature or wildlife In doing so it addresses a gap in the scholarship of rural African politics which focuses overwhelmingly on productive agrarian dynamics and often fails to recognize that land nonuse can be as politically significant and wide reaching as land use Botswana is an ideal empirical case study upon which to base these theoretical claims With 39 percent of its land set aside for conservation Botswana is home to large populations of wildlife particularly charismatic megafauna such as the largest herd of elephants on the continent Utilizing more than two hundred interviews participant observation and document analysis this book examines a series of conservation policies and their reception by people living on the conservation estate These phenomena include securitized antipoaching enforcement a national hunting ban 2014 19 restrictions on using wildlife products forced evictions from conservation areas limitations on mobility and freedom of movement the political economy of Botswana s wildlife tourism industry and the conservation of globally important charismatic megafauna species *The Botswana Defense Force in the Struggle for an African Environment* D. Henk, 2007-12-25 The book describes how Botswana s leaders effectively employed the instruments of power at their disposal portraying a state that works It argues that Africans are contributing meaningfully to emerging global thinking on security and urges Africa s friends to take advantage of opportunities for productive partnerships over environmental issues **Reasonable Radicals and Citizenship in Botswana** Richard P. Werbner, 2004 Richard Werbner assesses the role of the Kalanga minority in Botswana Since independence the Kalanga have dominated government and business yet their strong values and stable social order has allowed them to forge effective alliances with other ethnic groups and to contribute to significant social improvements *State Building and Democracy in Southern Africa* Pierre Du Toit, 1995 What can South Africa learn from Botswana arguably Africa s most successful democracy and Zimbabwe one of South Africa s closest neighbours In this comparative study the author explores these southern African countries with the aim of highlighting those factors that appear to ensure a successful transition to democracy Public Administration and Policy in Botswana Kempe Ronald Hope (Sr.), Gloria Somolekae, 1998 This text comprises a study and analysis of Botswanan public administration and policy The text explores from historical and contemporary points of view the nature and impact of public administration and policy in Botswana Poverty Reduction and Changing Policy Regimes in Botswana O. Selolwane, 2013-01-02 An examination of how Botswana overcame the legacies of exceptional resource deficiency and colonial neglect to transform itself from one of the poorest nations of the world to a middle income economy Contributions review how economic social and institutional policies interacted to produce successful poverty reduction Small States and International Security Clive Archer, Alyson J.K. Bailes, Anders Wivel, 2014-03-14 This book explains what small states are and explores their current security challenges in general terms and through specific examples It reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger These complex issues linked with traditional

power relations and new types of actors need to be tackled with due regard to democracy and good governance Key policy challenges for small states are examined and applied in the regional case studies The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies Although many of the states covered are European the study also includes African Caribbean and Asian small states Their particular interest and relevance is outlined as is the connection between their security challenges and their smallness Policy lessons for other states are then sought The book is the first in depth multi continent study of security as an aspect of small state governance today It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in dealing with non European states and regions

Security and Democracy in Southern Africa Gavin Cawthra, André Du Pisani, Abillah H. Omari, 2007 A study of the ambiguity of democratization and how it can generate violence Southern Africa has embarked on one of the world's most ambitious security co operation initiatives seeking to roll out the principles of the United Nations at regional levels This book examines the triangular relationship between democratization the character of democracy and its deficits and national security practices and perceptions of eleven southern African states Based on national studies conducted by African academics and security practitioners over three years it includes an examination of the way security is conceived and managed as well as a comparative analysis of regional security co operation in the developing world The study concludes that democratization is ambiguous and uncertain and can in some cases generate violent conflict Building a common security regime in southern Africa will require moving beyond regime solidarity In particular progress will mean building multinational institutions

entrenching democratic practices drawing on civil society and integrating the southern African project with that of the African Union The authors conclude with a set of policy recommendations that aim to strengthen both states and civil society within the framework of an emerging common security system A Selected Bibliography--Sub-Saharan Africa ,1991

Civil-Military Relationships in Developing Countries Glen Segell,Dhirendra K. Vajpeyi,2013-12-16 This book examines two sides of civil military relations in developing countries One is the place of civil military relations within a state s political and economic systems the other is the role of the military on a state s maintenance of peace and stability The book thus proposes that the function of soldiers is not only to defend and deter but also to develop The chapters provide a comprehensive analysis of civil military relationship with comparative cases on Botswana China El Salvador Honduras Guatemala India Indonesia Nicaragua Nigeria Pakistan and The Arab Spring Countries of the Middle East including Bahrain Sudan Iraq Jordan Saudi Arabia Egypt Tunisia Yemen and Libya Each chapter analyzes the historical cultural and political factors that shape the direction of the man on the white horse military elite and the politician In doing so this book reveals the potential impact of the nature of civil military relations on democratization political and economic development and on regional international security Dhirendra Vajpeyi and Glen Segell discuss and critique the current models and literature on civil military relations The innovative framework and careful choice of case studies presented in a jargon free accessible style makes this book attractive to scholars and students of civil military relations and development studies as well as policymakers Historical Dictionary of Botswana Fred Morton,Jeff Ramsay,Part Themba Mgadla,2008-04-23 In September 2006 Botswana celebrated its 40th anniversary of independence During its four decades of freedom the average individual annual income in Botswana has risen from less than 500 in 1966 in today s prices to more than 5 000 in 2006 It has held nine open and free national elections it has expanded the provision of electricity water education and health services to most of its people and it has become an archetype for other nations wanting to put the profits from its natural resources back into the nation s development While much has improved in the country Botswana still faces three major issues the AIDS epidemic the tens of thousand refugees from South Africa Namibia and Zimbabwe and conflict diamonds The fourth edition of the Historical Dictionary of Botswana_through its chronology introductory essay appendixes map bibliography and hundreds of cross referenced dictionary entries on important persons places events institutions and significant political economic social and cultural aspects_provides an important reference on this burgeoning African country *Regime Change and Succession Politics in Africa* Maurice Nyamanga Amutabi,Shadrack Wanjala Nasong'o,2013 Bringing together scholars from a wide array of disciplines including anthropology economics history sociology and political science this volume addresses the problems of the regime change and state failure in Africa in the context of the global economy but from a specifically African perspective arguing that the underdevelopment of the African economy is linked to the underdevelopment of the continents nation states Africa South of the Sahara 2004 Europa Publications,2003 A definitive one volume guide to all sub Saharan African

countries providing invaluable economic and directory data **Globalisation and Education Policy Reform in Botswana** Richard Tabulawa, 2023-07-21 This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various education policies on curriculum pedagogy and governance of the Botswana General Education system Considering the effect of three reform policies since Botswana's Independence in 1966 the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality making suggestions for how this can be improved in the future As the first book of its kind to delve into education in Botswana from a single authored critical lens the book will be a highly relevant reading for academics researchers and post graduate students of African education comparative education education policy and curriculum studies **Historical Dictionary of Botswana** Barry Morton, Jeff Ramsay, 2018-06-13 The death of Botswana's last founding father Sir Ketumile Masire in June 2017 marked the end of an era Since the release of the Fourth Edition of Historical Dictionary of Botswana in 2008 Botswana has gone through its most turbulent and divided decade to date Throughout September 2016 when Botswana celebrated its 50th anniversary of independence all the successes of the Seretse and Masire era were sources of massive national pride Botswana had expanded provisions of electricity water education and health services to almost all of its people and become a model nation that owned its natural resources and plowed the profits back into the nation's development Despite these successes Botswana has a high unemployment rate about 20 percent and a much larger cohort of the underemployed This fifth edition of Historical Dictionary of Botswana contains a chronology an introduction appendixes an extensive bibliography and more than 700 cross referenced entries on important personalities and aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Botswana
